Manion Attacks Govt's Policy

Declares A Sound Fiscal Policy Would Help Solve The Immigration Problem.

(From Our Own Correspondent) OTTAWA, Ont., May 23.—Following the reply of Hon. Robert Forke to General McRae's criticism of the government's immigration policy and his demand for a radical reorganization of the department of immigration, the Hon. J. R. Manion took up the fight in his usual vigorous way. The Minister of Immigration assumed the attitude that all was well. The immigration records showed satisfactory results, both as to the number and character of the immigrants. Canada, he said, should not bring in more people in any one year than she could easily and comfortably absorb. Dr. Manion warmly complimented General McRae on his constructive and highly informative speech and described the minister's speech in reality as a "wall of national despair." He stressed the fact that a sound, progressive fiscal policy which kept the people of Canada at home and attracted a desirable class seeking employment as well would largely help to solve the immigration problem. Mr. Adshedd, (Labor, Calgary), contended that population was not an indication of prosperity and that the only object to be achieved by filling up the northern parts of Canada was decreasing the price of wheat by increasing production. John Evans, (Progressive), took a somewhat similar view. He said the urge for immigration came from the large companies desiring to exploit labor. He deplored the condition of (Continued on page three)

NEW SPIRIT OF OPTIMISM IN MARITIMES

Messrs. Burnaby and MacPhee Return to Toronto From Eastern Trip.

(Special to The Guardian) TORONTO, Ont., May 23.—"There is a new spirit of hope and optimism in New Brunswick, Nova Scotia and Prince Edward Island due largely to the formation of the Maritime Provinces Association of Toronto and the establishment of the Maritime Trade Commission office in this city," declared R. W. E. Burnaby, Maritime trade commissioner, who, with Prof. E. D. MacPhee, President of the Toronto Association, reported today after a trip to these provinces down by the sea with the object of promoting trade. "Many plants are now running to capacity in the Maritime Provinces," said Mr. Burnaby. "They are anxious to do business with Ontario and trade with Toronto firms is rapidly increasing." The visit was not without historic interest. At Charlottetown a conference was held with local business men and members of the Government, and the visitors sat in the same chairs occupied by Sir John A. Macdonald, Tupper and other fathers of Confederation, at their first conference held there on September 1, 1864.

Graf Zeppelin Leaves For Home

(Canadian Press) CUERS, France, May 23.—The Graf Zeppelin left its emergency landing field here at 8.25 p. m., to fly to her home port at Friedrichshafen.

HAMILTON, Ont., May 23.—Over a score of employees of Wagstaffe, Limited, jam manufacturers, Maple and Gage Avenues, were burned or overcome by fumes today when the cylinder head of a compressor in the cold storage plant blew off while being repaired. Two of the victims are being given oxygen at the general hospital but it is thought they and all others will recover.

PRESIDED

Rt. Hon. Sir Wm. Mulock, chief justice of Ontario, who presided at the Canadian Oratory Championship in Toronto on May 22, at which representatives from secondary schools of seven provinces competed for Dominion honors in oratory.

LAUDS ISLAND FOR ACTION IN MITCHELL CASE

Circumstances Connected With Fraudulent Agent's Appointment Discreetly Ignored in London Press.

To our readers familiar with the Andrew Fraser Mitchell fraud and the manner in which it originated, the source of following editorial from a recent issue of the London (Eng.) Morning Post will give rise to some curious speculation: "Prince Edward Island has a loyal population, as was proved by their record in the war. It has besides a Government which is jealous of the Island province's honor.

"Several years ago an agent of it, employed in London, secured some Government notepaper, before his appointment was cancelled, and carried out a series of frauds on British military and naval officers. His method was to sell them silver fox farms either worthless or non-existent, falsely representing himself as acting for the Government. Eventually he was arrested and convicted in London but the defrauded officers got no legal remedy, the Government not being in law responsible for frauds committed in its name.

"The Island, however, is proud of its good name, and the Government, by unanimous vote, has passed a bill to compensate the defrauded officers. We consider it much to the credit of the Garden of the Gulf that it has brushed aside the legalities behind which it could have sheltered, and been thus generous with the unfortunate victims of a heartless fraud."

Reduction In Postal Rates

(Canadian Press) PARIS, May 23.—Reduction in postal rates between France and Canada are brought into effect by the signing of the new postal convention between the two countries today. The rates from Canada to France will be the same as those prevailing between Canada and Great Britain and on letters the rate will be two cents. From France to Canada the existing postal rate is reduced fifty per cent. The new rates will be brought into force immediately.

Annual Meeting Of P. E. I. Hospital

Credit Balance Of Over \$6,000 Reported.

The annual meeting of the Prince Edward Island Hospital was held last evening in St. Paul's Hall with the President of the Board of Trustees, Mr. W. K. Rogers in the chair. His Honor, Lieutenant-Governor Hearst was also in the chair. The attendance was very small and no business was transacted, except the adoption of the various reports. There was very little discussion, the meeting being of but forty minutes duration. The reports of the Board of Trustees, the Ladies' Aid, the Campaign Fund and the Financial Statement were read and approved. Messrs. S. A. MacLeod and Murdoch McLeod were re-elected to the Board of Trustees. A vote of thanks to the superintendent, the staff and the Board of Trustees was moved by Rev. Mr. Raymond and carried. The rector and congregation of St. Paul's were thanked for the use of their hall for the past year.

TRUSTEES' REPORT.

For the Fiscal Year ending March 31st, 1929
Your Trustees now submit the forty-sixth annual report of the Prince Edward Island Hospital.
A year ago our report showed that the year then closed had been the greatest in the history of the Hospital. This year, we have to report that the work has again very largely exceeded that of the previous year. Twelve hundred and thirty-five patients were treated as against eleven hundred and thirty three the previous year and the patients' fees \$35,746.00 compared with \$31,182.00 last year. Total receipts for the year, \$50,020.37 Total expenditures 43,222.36

which after paying off the debit balance from the previous year of 720.61 leaves a credit balance today of \$6,078.00

Future Duchess

\$2,000 Bail In Alberton Case

Arthur Oliver, police officer at Alberton, who was tried there on the 13th inst., before Magistrates Huestis and Thompson in connection with the sensational shooting affray the previous night, in which Mrs. Hogan was wounded, but not seriously, when Oliver's pistol was discharged, and was committed for trial at the Supreme Court, came before Judge Inman at Summerside on Wednesday and was admitted to bail in the sum of \$2,000.

Pays Tribute To Borden And Dandurand

(Canadian Press) OTTAWA, Ont., May 23.—High tribute to the work of Sir Robert L. Borden and Senator Raoul Dandurand in paving the way for Canada's election as a member of the League of Nations Council in 1927 was paid by Prof. F. P. Howard, University of British Columbia, speaking before the annual meeting of the Canadian Historical Association at the public archives today. Hon. Rodolphe Lemieux, M. P., Speaker of the House of Commons, is slated for the presidency, succeeding Prof. Chester Martin, late of Winnipeg, now of Toronto, according to the preliminary draft made by the nominating committee, while Sir Robert Borden has consented to assume the vice-presidency involving the presidency in 1930.

(Special to The Guardian) PRESCOTT, May 23.—A shipment of ten carloads of raw silk from the far east, valued at approximately \$2,000,000 arrived here today via Vancouver and was transferred across the St. Lawrence River, enroute to New York.

Selling Panic On N. Y. Exchange

Canadians Heavy Losers In Collapse On Stock Market.

(Special to The Guardian) TORONTO, Ont., May 23.—It is reported that a billion dollars in quoted values was wiped out in the flood of selling on the New York Exchange yesterday and Canadian losses on the local and New York exchanges would run into no small figure. Reports of heavy individual losses were current in brokers offices this morning. There was considerable anxiety among the onlookers at the exchange and in local board rooms before the market opened this morning.

It was feared that there would be another flood of forced selling and an accumulation of overnight orders to sell would send prices still lower. The New York ticker was carefully and furtively watched to see what would happen on the big board. There was obvious relief when the opening quotations showed that Wall Street issues were firming up and overnight orders to buy were more in evidence than orders to sell.

Young Orators At Toronto

(Special to The Guardian) TORONTO, May 23.—The youngest of the seven contestants, John O. Denny of Prince of Wales College, Prince Edward Island, made a splendid showing in the Canadian Oratorical championship at the vast arena here last night. Youthfulness did not handicap him from making a strong bid for the honors of the evening, and he chose as his subject, "Canada's Economic Problem", which in the estimation of many here was the hardest topic of the four. The young student from the Maritimes launched into a well considered survey of Canadian economics. He assumed a quiet stage manner with his hands folded at his back, relying more on an expressive and good speaking voice for effect. A wonderful burst of applause broke forth from the great audience when John took his seat and many remarked that with a few more years on his shoulders he will make a speaker of the first rank. After the contest he was fairly besieged by young people anxious to obtain his autograph before he left for his home.

Enormous Liquor Cache Discovered

SITUATION RE PROHIBITION ENFORCEMENT

Situation Along the Border Bad Beyond Expression, Commissioner Reports.

(Canadian Press) WASHINGTON, May 23.—(By Kenneth S. Clark, Canadian Press Staff Correspondent)—The situation with respect to rum running from Canada into the United States apparently remains what it was after the January anti-smuggling conference in Ottawa. Discussion in the Canadian parliament of corruption among enforcement units along the border was front page news in the capital and elsewhere but no official statement was issued in relation thereto.

The attitude of the United States anti-smuggling forces was brought out with the publication of a report and correspondence bearing on the Ottawa conference. The testimony of former prohibition commissioner E. W. Camp, noted temptation "in the enforcement units along the border was unusually strong and that his under-cover men reported the situation bad beyond expression." Their cards with respect to corruption were then laid on the table and the commissioner had since resigned.

Camp's testimony, it is suggested, may have been too forceful and clear to meet the desires of the administration. Meanwhile the new budget lists the arrest at Rochester, N. Y., of Edmund N. Rampell, a former "flying squadron" prohibition agent on charge of conspiracy to violate prohibition law.

OTTAWA, May 23.—The Manitoba Govt. is anxious to have the Old Age Pension act extended to blind persons needing assistance. Hon. W. J. Major, attorney-general of the province, urged the extension on Hon. Peter Heenan, Minister of Labor, here yesterday. Mr. Heenan promised sympathetic consideration.

985 Gallons Over-proof Rum Found In Barn At Malpeque And Brought To Summerside Yesterday.

SITUATION RE PROHIBITION ENFORCEMENT

The largest seizure of rum ever made on land in Prince County was made yesterday afternoon at Malpeque by Customs Officers F. J. Platts and S. M. Baker and Prohibition Inspector Keir Mann, all of Summerside.

The amount seized was ninety-four ten gallon kegs and nine five gallon kegs, the total value of which is about \$24,000, though it would have fetched in bootlegging hands when watered down for retail purposes something like \$100,000.

When brought to Summerside about 7.30 p. m. such a sensation was caused that hundreds of people and scores of autos surrounded the customs house but none of the goods leaked out.

All the kegs were safely transferred from the three auto trucks which had conveyed them from Malpeque to their last resting place. The next development in the case will be the appearing in court of the party, if caught, on whose premises this immense find of rum was made.

The seizure was the outcome of information obtained by the customs officers at Summerside and the goods were found packed very neatly and covered with straw in a barn on a farm not far from the shore where it is now believed they had been stored since last fall. The kegs were found with difficulty and by probing with a long steel bar especially manufactured for the officials for jobs of this particular kind.

Premier Talks To Deputy Minister In London

(Canadian Press) OTTAWA, Ont., May 23.—From his office in the east block of the parliament buildings, Premier Mackenzie King this morning conversed by telephone with Alex. Johnston, Deputy Minister of Marine, at present in London, England. The conversation was brief, but Mr. Johnston's voice came through with remarkable clearness, and he seemed to have no difficulty in hearing the premier. The conversation, Mr. Johnston explained, was arranged to give Mr. King an opportunity to test out an all-Canadian transatlantic telephone service. He spoke from his room at the Hotel Cecil in London.

TORONTO, May 23.—Maritime, moderate to fresh southerly winds, fair with stationary or slight higher temperature, probably followed by showers at night or on Saturday.
