

MON A. G. BLAIR RETURNS AND EXTOLS THE GREAT WEST

Says it Needs More Railways—Trouble About Departed Indians Who Had Smallpox—They Were Sent Back to Canada—Cook Sentenced to Hang for Wife Murder—Death of Cashier Thompson of the I. C. R.

THE CASE OF DEPORTED INDIANS. OTTAWA, Oct. 27—(Special.)—Canadian officials declare that the Indians sent from Canada to Montana with small-pox were not Canadians but Americans and the sick were cared for until they could be moved. The Indians were deported by the American agent, Monteith, simply because they did not belong on his reservation. MR. BLAIR EXTOLS THE WEST. TORONTO, Oct. 27—(Special.)—Hon. A. G. Blair is back from the west and says there is scarcely any possible limit to the development bound to take place in the Canadian West, but the railway development there is lower than the needs of the

country demand. He thinks the government should promote and encourage the early construction of more railways. COOK SENTENCED TO DEATH. HALIFAX, Oct. 27—(Special.)—Geo. W. Cook, convicted of the murder of his wife, was sentenced to be hanged January 13th. He was drunk when he committed the awful crime. DEATH OF CASHIER THOMPSON. MONCTON, Oct. 27—(Special.)—Charles D. Thompson, cashier of the I. C. R., died this morning. He was originally from St. John. His second wife who survives him was May daughter of Rev. John McLeod formerly of Charlottetown.

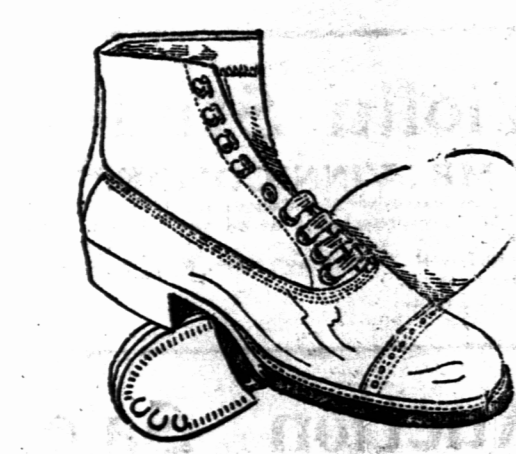

NERVOUS, SLEEPLESS AND EXHAUSTED. Not sick enough to lay up, but you are out of sorts, blood is weak, nerves unstrung, kidneys deranged, vitality low. You should take Ferrozone at once; it will enrich, strengthen and purify the blood, invigorate and pacify the nerves and increase your energy, vitality and power. Ferrozone will renew your appetite and make you sleep soundly—in fact will make you well. Try Ferrozone. Price 50c. per box or 6 boxes for \$2.50; at drug stores, or N. C. Polson & Co., Kingston, Ontario.

WAR MEDALS AND HONOR. LONDON, Oct. 24—Four hundred recipients of coronation and war honors were invested by King Edward at Buckingham Palace today. The investiture was carried out in the ball room with unusual ceremony. All the great officers of state were present and the scene was particularly brilliant, for all its participants in accordance with His Majesty's instructions wore all the ribbons, orders or medals that they possessed.

J. I. TARTE TALKING TO AMERICANS

Says Some Plain Words at Sault Ste Marie

CANADA MAY RETALIATE

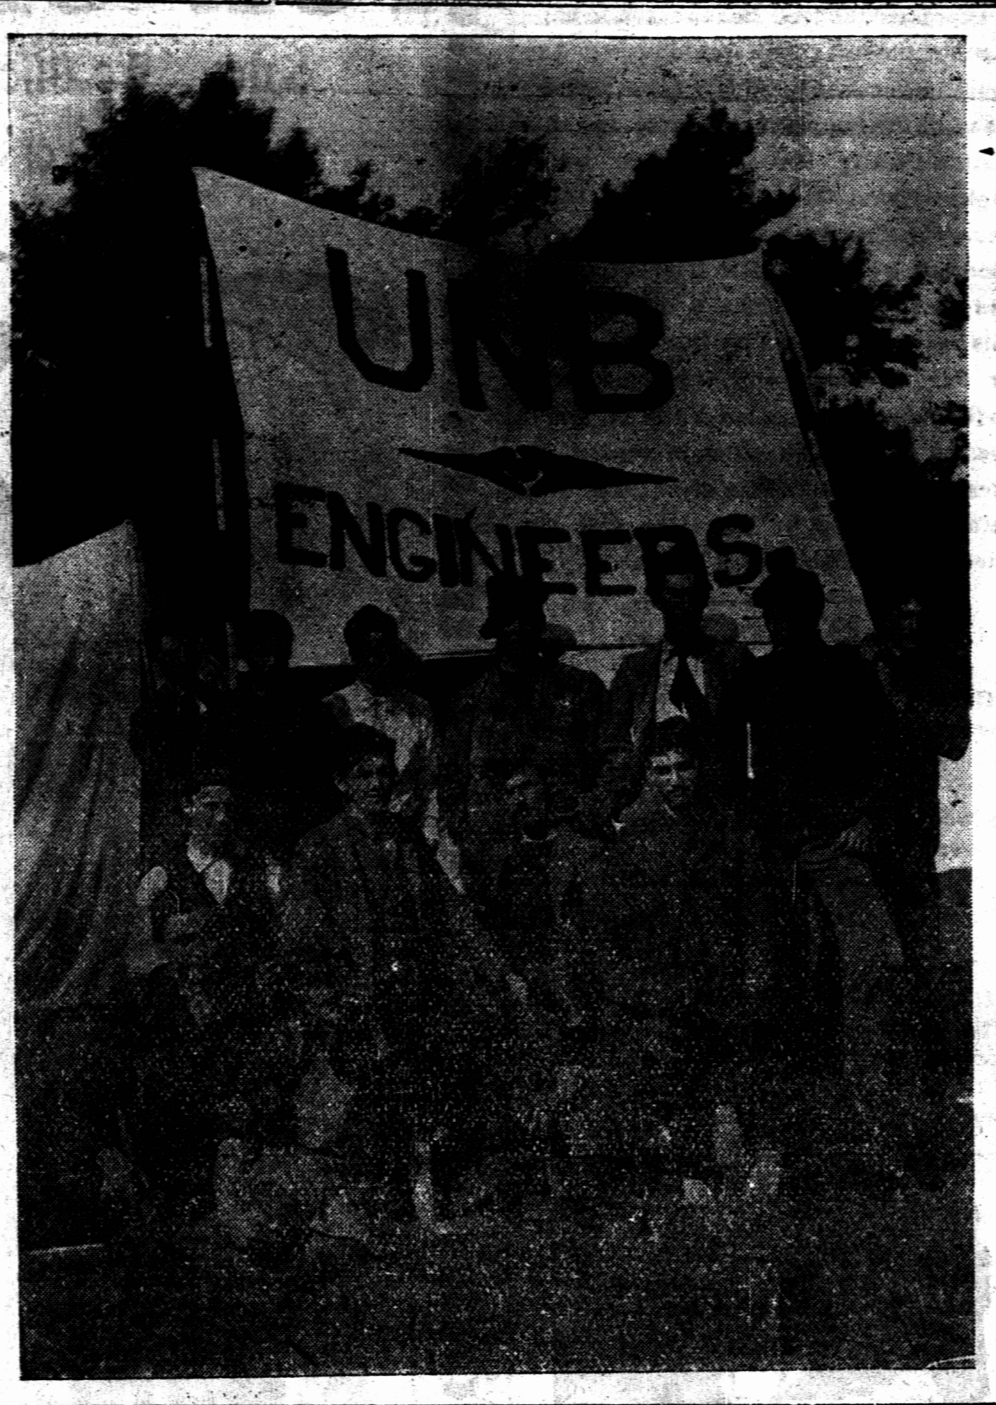

And Put Up Her Fence—He Praises Dominion Resources and Our Water Highways.

MR. TARTE TALKS TO AMERICANS. SAULT STE MARIE, Oct. 25—(Special.)—Hon. J. I. Tarte talking at a banquet here said the Americans had treated Canada unfairly. Canada had tried to negotiate a fair treaty but the Americans would not be friendly. MAY BRING THEM TO TIME. Continuing he said, "We were closing up the epoch of apathy and indifference and before long we may bring you to time by putting up our fence. National pride is running high in Canada and we are going to protect ourselves. HE PRAISES THE DOMINION. We have a country full of natural resources. We have iron, gold, lumber and magnificent fisheries. Our waterway from Chicago to Liverpool is five hundred miles shorter than your route, and I think you will use our waters when it is completed."

FASTEST AFLOAT. LONDON, Oct. 24.—The British Admiralty has given out contracts for the construction of warships described as "Scouts." They will have a speed of 25 knots. When in fighting trim the engine will be of 17,000 horse power and the sea going qualities will be superior to those of the torpedo boat destroyers.

White Flowers FOR YOUR Cemetery Plots. We have some fine Bulbs that are perfectly hard and will give you a full show of flowers in spring and early summer, but they must be put in the ground as soon as possible now, come and see them.

THE ENGINEERING COURSE OF NEW BRUNSWICK UNIVERSITY

Coming Rapidly Into Note—High Authority Says it Ranks With McGill, Queens and Toronto—Graduates Find Quick Employment and More Wanted—The Engineers' Camp at Keswick.

The growing prosperity and popularity of the University of New Brunswick at Fredericton, has attracted increasing and widening attention during the last three years. This institution is not only steadily improving its courses in the old "stand-bys" of the Arts course such as Classics, Mathematics, Philosophy, Natural Science and modern Languages, but has now provided new features to add to its attractiveness and efficiency. The Canadian Engineer quotes an editorial in the St. John Telegraph of recent date calling attention to the facilities offered at Fredericton to secure sound and thorough instruction in Civil and Electrical Engineering and says: "The University referred to has recently added to its equipment in the realm of engineering, and may now be ranked in its science department with McGill, Queen's and Toronto." The editorial quoted by the Canadian Engineer contained these words: "In Civil Engineering and in Electrical Engineering the prizes of the present age are probably greater than in almost any other line, while the demands for men far exceed the capable supply."

The cost of a course in Civil Engineering or in Electrical Engineering at the University of New Brunswick is \$30 a year for tuition fees, \$3 a week for board and lodging, and the price of textbooks and clothing. Could a student do better for himself by going to a larger, more expensive and older institution? Here is the answer. Every one of last year's graduates found work at once and more were asked for. Some were engaged to work in the United States and some in Canada. Those who went to Pittsburgh, Pa., came into competition with men from the largest and oldest institutions in the United States. It is gratifying to know that they are more than holding their own. The report comes from one in a position to judge impartially that their work is "exceptionally good." Here is a further answer. A copy of the calendar of the University of New Brunswick was sent to Palmer E. Ricketts, President and Director of the Rensselaer Polytechnic Institute at Troy, N. Y. This is the oldest and one of the very best polytechnic institutes in the United States. President Ricketts wrote a letter to Professor Jack of the Civil Engineering department at Fredericton saying that he had carefully examined the course as outlined in the University calendar and adding the remark: "I know you have a good course there." It is beyond question that a young man has the certainty, when he goes to the University of New Brunswick for his engineering course, that he will (as far as his natural abilities permit him) be able to compete with the graduates of, let us say, the Massachusetts Institute of Technology. That may seem like a big assertion, but it is no more than the truth. And now in addition to the fine engineering building, one of the finest and most beautiful public buildings in the Maritime Provinces, the University is to have a splendid brick gymnasium. Money is to be raised for this purpose. Some is already on hand. This gymnasium is to be furnished with an up-to-date equipment in every respect. One important and interesting feature in connection with the work of Civil Engineering is the out-door camp carried on in the month of September to secure for the student's longer practice in the various kinds of field work than is possible during the college session. This is likely to have greater prominence still in the future. The out shows the Engineer students in camp at mouth of Keswick N. B.

COAL OUTPUT GROWING BIGGER EVERY DAY IN PENNSYLVANIA

Twenty-Two Mines in Operation in Anthracite Region and Already a Big Output—Eighty-Two Thousand Men are at Work—Thirty Thousand Tons Coal Have Been Shipped.

WILKESBARRE, Pa., Oct. 24.—There were 22 more mines in operation in the anthracite region to-day than yesterday and the output will be close to 100,000 tons. This is as near as can be estimated. From reports received the total output yesterday did not exceed 75,000 tons. When in full operation the mines employ in every capacity about 145,000 men and boys. Of this number it is estimated that 82,000 were at work today. A more amicable feeling prevailed to-day between employer and employe than yesterday. The non-union men, despite what may be said to the contrary, are slowly being displaced at many of the mines of the employe. The Delaware, Lackawanna and Western Company continues to lead in production. The mines are in good condition and there is little friction between the district superintendents and the men who have returned to work. The work of clearing up those mines which are filled with debris from falls is pushed forward as rapidly as possible, but the fact that they are not in readiness to operate is a great disappointment to the mine owners. Ex-Congressman M. B. Williams, one of the largest individual operators in the Wyoming region, said his mines would not be in readiness to resume before next week, but he would take all his old employes, including steam men, back, because they had served him faithfully in the past. The trouble with the individual operators in the Lehigh region is expected to blow over in a day or two and it is said here on good authority tonight that all colliers in the Lehigh and Schuylkill region that are in good condition to mine will resume next Monday and that all the union miners will be re-employed. The mine inspectors are quite vigilant and they refused to give permission to the starting up of mines where the superintendents cannot furnish satisfactory proof that the underground workings are perfectly safe.

THE KING REVIEWS GUARDSMEN

And Praises Their Work in South Africa.

IS VIGOROUSLY CHEERED

The Queen Witnesses the March Past—Noted Motor Cycle Man Killed on a Run.

KING REVIEWS RETURNED GUARDSMEN. LONDON, Oct. 27.—(Special.)—King Edward today reviewed nearly four thousand returned Guardsmen and addressed them at some length praising their work in South Africa. THE QUEEN PRESENT—GREAT CHEERING. The Queen and ladies of the royal family saw the march past from their carriage. At the close the soldiers vigorously cheered the King, waving their business bayonets high. NOTED MOTOR CYCLER KILLED. NEW YORK, Oct. 27—(Special.)—Frank Elwell an international authority on motor cycling was killed near Hicksville while on a club run, through the breaking of the machine.

A BERESFORD ANECDOTE. Lord Charles Beresford was coming out of his hotel in New York the other morning when a stranger saluted him in nautical fashion and said: "Beg pardon, Admiral but I am Jack Billings, one of your gunners on the Condor at Alexandria." Lord Charles shook hands with the man cordially and finding that his former gunner was out of work handed him some bills saying: "Let me hear from you if you don't get work, and whatever you do brace up and don't get discouraged."

BOERS TRIP MAY BE ABANDONED. LONDON, Oct. 23.—It is reported that General De Wet wants the tour of the generals including the trip to the United States to be abandoned and that all three of the generals are disappointed at the financial results so far obtained. General De Wet's presence is considered necessary for the success of the tour and if he persists in returning to South Africa it is not unlikely that the whole tour will be abandoned.

UNMISTAKABLE SIGNS OF CATARRH

If you have a ringing in the ears, dropping in the throat, bad breath, headache, morning weakness, bad taste in the mouth—then it's catarrh. Use Catarrh Inhibitor four times daily and eradicate this awful disease from your system. Catarrh kills the germs, heals the inflamed membrane, clears nose, throat and air passages by one application. Catarrh quickly remedies the head noises and deafness, prevents drooping, and is warranted to absolutely cure all forms of Catarrh, Bronchitis, Asthma and Lung troubles. Two months treatment costs \$1.00, trial size 25c. Druggists and or N. C. Polson & Co., Kingston, Ont. DR. HAMILTON'S PILLS CURE HEADACHE.

BOARD OF TRADE BANQUET

OTTAWA, Oct. 24.—At the banquet which will be tendered by the Board of Trade to the delegates from the London Chamber of Commerce on Nov. 19th, it is expected that Sir Wilfrid Laurier will be one of the speakers. An invitation was forwarded the Premier to-day by Secretary B. Thune. Hon. W. S. Fielding and Sir William Maleck will also be invited to attend.
