IS YOUR HEALTH WORTH \$5.00?

Woman Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Lima, Ohio.—"I was all broken down in health from a displacement. One of my lady friends came to see me and she advised me to commence taking Lydia E. Pinkham's Vegetable Compound and to use Lydia E. Pinkham's Sanative Wash. I began taking your remedies and took \$5.00 worth and in two months was a well woman after three doctors said I never would stand up straight again. I was a midwife for seven years and I recommended the Vegetable Compound to every woman to take before birth and afterwards, and they all got along so nicely that it surely is a godsend to suffering women. If women wish to write to me I will be delighted to answer them." —Mrs. JENNIS MOYER, 342 E. North St., Lima, Ohio.

Women who suffer from displacements, weakness, irregularities, nervousness, backache or bearing-down pains, need the tonic-strengthening properties of the roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If you want special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

Large advertisement for Columbia Grafonola featuring a violin and a gramophone. Text: Tone is the great criterion by which to judge any musical instrument. The violin of a Paganini is worthy the master's bow—it has the master tone. Its exact duplicate, lacking this magic quality, is but a shell of varnished wood. Judge the Columbia Grafonola by its tone. Hear the record played upon it respond with a richer warmth, a sweeter resonance, a truer feeling. This wonderful tone is the result of the perfected detail of Columbia construction—the generous-sized reproducer, the smooth, correctly shaped tone-arm, the distinctive Columbia tone-leaves that controls the volume of sound. Consider the vital importance of tone. It is the thing which, in the end, will enable the Columbia—and only the Columbia Grafonola—to satisfy completely your longing for music that is faithfully, beautifully reproduced. Look for the "music-note" trade mark—the mark of a genuine Columbia Grafonola.
