STOCK QUOTATIONS

FINANCIAL NEWS BRIEFS

(Received over Pitfield and Co's Private Wire)

TORONTO, Aug. 25—Earnings estimates for Cons. Smelters for the current year are around \$7.50 per share which explains the constant demand for the security, says Financial Counsel. As the company is the largest zinc and lead producer in the world, an upturn in price of both these metals means a substantial improvement in earnings. Cons. Smelters is one of the greatest mining and metallurgical producers in the world and directly or through subsidiaries is engaged in mining, smelting, refining and exploration operations and is a holding company for a long list of subsidiaries. The company has paid \$1.50 a share so far this year and shareholders may confidently look forward with increased interest to the substantial increase in dividend that has been paid for the full year of 1936.

TORONTO, Aug. 25—Canada Steamships—General business offsets poor grain trade. It is stated that so far the bulk of the freight business of Canada Steamship Lines has been quite encouraging and business from sources other than grain has more than offset the disadvantage of the small and unprofitable movements of this Canadian commodity. There has been a larger movement than usual for instance of iron ore to Hamilton for Steel Company of Canada and quantities of coal west bound and a considerable amount of pulp. "Steamships" has also had the advantage of carrying a considerable quantity of corn that has been brought into the port of Montreal from the Argentine and other points for forwarding to Chicago.

..and a bag of REGAL

"All set, Jim. Everything's aboard, including that bag of REGAL you're so scared of leaving behind. Oh, I know! If you reached home without it you'd get an awful bawling out and have to come right back for it. Well, you can't blame your wife at that, Jim, when you think of the dandy bread she bakes with REGAL."
