

Announcement

WE have secured the sole agency for Semi-ready Tailoring—the highest type of modern tailoring; and we ask our customers to come and view the garments made in the conservative and cultured styles men admire.

THE Semi-ready corporation has won for itself a world-wide reputation. Its progress has been wonderful. By their physique type system they tailor Men's Clothes to fit men of any physique type—Normal, Tall, Short in Height, Short-Stout, Tall-Stout or Slim—it matters not whether or not you cannot be fitted in ready-mades, you can surely be correctly fitted by the Semi-ready System.

LEADERS in the making of Men's Clothes—the Semi-ready Company have attained their position by adhering truly to high quality of fabrics, to good workmanship, and to fair, standard prices for work that is worthy. Every garment sold is guaranteed worth the price, and warranted to give satisfactory service.

PRICES of Semi-ready Clothes are fixed and plainly marked on each garment. They are sold at the same prices everywhere in Canada. A \$15 or \$20 Suit or Overcoat here costs the same in Montreal or in Vancouver. Special Suits can be made to order at the factory in 4 days' time. We send your measure.

Semi-ready Clothes have many imitators, but no competitors. The inside work on a Semi-ready coat gives it a distinction in style, and the wearer will find that in the day-to-day service this style and shape holds good and true. The values are good and the Clothes are cheap in the true sense of the word.

KEITH'S THEATRE, BOSTON.

Of all the sensational features which have been presented at Keith's during this season, probably there has been not one that will create more talk than Le Compte, who comes next week. This man, who is now making his first appearance in the East, has been the marvel of scientists everywhere, but no one has been able to explain his wonderful feats. He seems to be, and is, impervious to fire and heat. Le Compte takes two carbons at a white heat and bites off the ends of them with his teeth. He explodes gunpowder with his bare hands, and chews heated sealing wax, and drinks molten metal, lead and solder, like water. He does all these things in full view of the audience and they have been done in private for medical men and others who doubted him and thought there was some trickery involved. Le Compte himself refuses to explain, if he can, how he does these marvelous feats.

He will be a feature of an exceptionally strong bill, which will include "The Vital Question," a sketch that has an important bearing on the trust question and politics, similar to "The Man of the Hour," Countess Rossi and Monsieur Paulo, in their singing sketch entitled, "During the Performance," Cunningham and Marion in an acrobatic comedy, the "Three Leightons in a sketch called "A One Night Stand in Minstrelsy," Charles Lovenberg's "Petit Revue," one of the most ambitious sing productions ever staged, employing a dozen people; and other big features yet to be announced.

INTERESTING SPECIAL FEATURES AT THE EDEN MUSÉE.

The Eden Musée of New York City is always thoroughly up-to-date and one of the most interesting amusement places in the city to out-of-town visitors. A large force of artists are continually at work making new figures and groups, as well as changes in existing groups. Scarcely a day passes that a new figure is not placed somewhere in the Musée, or a new group installed that has taken weeks to prepare. The famous group "Rulers of the World," is now complete and all of the Kings and Queens of the civilized world are ready to receive visitors. In the group, "People talked about," appear all the persons most prominent in the public eye. In the winter Garden elaborate series of moving pictures include reproductions of famous poems and stories, tableaux in far away lands, humorous happenings, and mysterious pictures in which appears fairies and gnomes with all the freedom of real people. The wonderful White Yogi gives an entertainment each afternoon and evening. His feats of skill and magic are the most clever and mystifying that have ever been shown at the Musée. At the afternoon and evening concerts, choice programs will be charmingly rendered by Kaposy and his Hungarian orchestra.

"THE BRIXTON BURGLARY"

Louis Mann, the famous German Comedian said—"It is a laugh!" and so in reality it is with "The Brixton Burglary," a farcical comedy was written for the sole purpose of producing laughs although it varies widely from the so-called "farce comedies," inasmuch as it has a logical plot and not a situation that is not possible in any man's home, (that is providing he is married.)

The story deals with the adventures of a married man who for one night allowed himself to be persuaded to "wander from his own bedside." The unexpected return of his wife causes explanations which can easily be imagined are in no way logical. The last two acts of the comedy show the unfortunate husband and all his friends trying to make his wife believe that what he had previously said was the truth. Unfortunately each of the friends vary in their stories and this state of affairs continues until the fun becomes fast and furious.

The first preparation of the husband lands him into dirty water and at the end of the second act shows both him and his comrades floundering helplessly. Nevertheless just before the final curtain things right themselves and all ends well. The lovers of good high-class comedy are promised all that they could expect in "The Brixton Burglary" and above all they are assured that the fun is pure, clean and wholesome, and not produced by "slap-sticks" and buffoonery. See "The Brixton Burglary" anyone who wants to laugh.

Housecleaning Time

We can help you housecleaning if you will permit us. What you really dread most in housecleaning is the wash—you know that fact well. Those big heavy blankets, rugs and spreads, should never be washed by women. Our laundry is well equipped to handle this kind of work, and do it cheap too.
