UNLIMITED SUPPLY OF MUNITIONS NOW AVAILABLE

(Special to the Guardian.) LONDON, July 9.—Albert Thomas, the French Secretary for War, who has been visiting Lloyd George, Minister of Munitions, on the eve of his return to Paris testified in a statement to the press that Great Britain is now so organized that it will be able to furnish an unlimited supply of munitions in aid of the allied cause.

ROUND HOUSE AT KENTVILLE BURNED

KENTVILLE, N. S., July 8.—The third of a series of disastrous fires occurred shortly before midnight, when the D. A. R. roundhouse was totally destroyed. Only two engines were in, and these are the chief loss. The firemen put up a stubborn fight and saved the machine shop, which is a continuation of the roundhouse. The fire was seen coming through the roof and at the east side of the building, in which no one had been at work during the day. The coal shed also caught but was only partly burned. The night was fortunately a calm one and a heavy shower impending doubtless aided the firemen's efforts. Though a number of houses facing Main street were near the shed, none caught. There is no theory as to the cause of the fire or of the two that preceded it.

NOTABLE SUCCESS BY THE ALLIES

Captured 700 Yards of German Trenches, Taking Many Prisoners, one 37 Millimetre Cannon, Guns and Ammunition.

(Special to the Guardian.) PARIS, July 9.—The French War Office gave out the following statement:—"In the Vosges, in the region of Binded Sept, and at Fontelle we gained notable success. After having driven the enemy from that portion of our old positions, which they captured from us on the 22nd June, we took possession of all the defensive positions of the Germans reaching from the hill to the south-east of Fontelle, as far as the road running from Launers to Moyon Moutier. This total gain represents an advance of 700 yards along a front of 600 yards. We took prisoners nineteen officers, including one battalion commander, two doctors and 167 men, none of whom were wounded, belonging to seven different battalions. Our ambulances picked up one officer and 32 wounded German soldiers. We captured also one cannon of 37 millimetres calibre, two machine guns, several bomb throwers and ammunition in great quantity. Since break of day the enemy has been cannonading violently the positions lost by them. Between Fey-en-Haye and Forest Le Pretre, French troops by the use of hand grenades were successful in retaking about 150 yards of trenches lost by us on July 4.

SATISFACTORY RESULTS FROM THE WAR TAXES

(From our own correspondent.) OTTAWA, July 9.—The statement of Dominion finances for June issued to-day shows that the means adopted by the Government for restoring the revenues have resulted satisfactorily. The total income for the month being \$11,433,970. This is only \$654,258 under the total revenue for June last year, an ante-bellum month. The Customs revenue in June was \$6,938,763, or \$144,951 less than the total under this head for June 1914. This is a remarkable result when it is borne in mind that the receipts following the outbreak of war dropped at a rate of approximately a million a month. The customs receipts for

FIXED AMMUNITION OR NO CONTRACTS

(From our own correspondent.) OTTAWA, July 9.—Until the manufacture of brass cartridges necessary to the production of fired ammunition overtakes the output of empty shells no further shell orders will be placed in Canada. This was made clear to-day by the shell committee. The committee have distributed all the orders received from the Imperial Government which, prior to the speeding up of old country shell industries, was ready to purchase empty shells in Canada. Now fired ammunition only is required, in other words, the shells sent from Canada hereafter must be complete with brass cartridges and all other essentials.

THE WEATHER, TEMPERATURE, TIDE, MOON, ETC.

(Special to the Guardian.) TORONTO, July 9.—Maritime: Westerly winds, clear and a little warmer.

THE WEATHER.—Yesterday was very disagreeable, there being a heavy gale, the velocity of which registered at 36 miles an hour, and on this account the Northumberland was detained till 8 o'clock. The highest temperature recorded yesterday was 58 deg. above zero and the lowest was 56 above. The lowest of the previous night was 56 above zero and the highest 69.

The tide will be high this morning at 8.18, tomorrow at 9.08 and Monday at 9.56; it will be high tonight at 10.20, tomorrow at 11.14 and Monday at 12.

The sun sets this evening at 7.51 tomorrow and Monday at 7.50; it rises tomorrow morning at 4.20, Monday at 4.20 and Tuesday at 4.21.

The moon sets this evening at 7.10 and tomorrow at 8. The last quarter of the moon was on Saturday, July 4th at 1.54 a. m. There will be a new moon on Monday, July 12th at 5.31 a. m.

The length of today will be fifteen hours and thirty-two minutes, and of tomorrow fifteen hours and thirty minutes.

EARL KITCHENER RECEIVES A GREAT OVATION

(Special to the Guardian.) LONDON, July 9.—Great crowds assembled around Guildhall and the routes leading to it this afternoon to hear Field Marshal Earl Kitchener address a meeting to inaugurate special recruiting campaigns. Kitchener's subject was the need of further recruiting for the army, but the enthusiasm of the meeting and the crowds which appeared were attributed to the public sportsmanlike desire to demonstrate its confidence in the Field Marshal in the face of attacks upon him which a certain section of the press had been making. "We require more men and still more men," said Kitchener, "but the position in this respect is better now than it was ten months ago. The military position to-day, however, is as serious as it was then." This was the note of the Secretary's speech to influence recruiting.

SUMMARY

LONDON, July 9.—The complete surrender of the German forces in German South West Africa to General Botha, Commander of the forces of the Union of South Africa, the French success in the Vosges, where they made an advance of 700 yards on a front of 600 yards and captured upwards of 800 unwounded Germans, and the splendid stand being made by the Russians in Southern Poland against the Austro-German forces, give British military writers a subject for comment on what they term a turn of the tide in the war now approaching its first anniversary.

General Botha's victory was a foregone conclusion, but the fact that he won it after five months of warfare, despite rebellion in his own country and under many natural disadvantages, is considered by military observers to have been a remarkable achievement. To gain this victory Botha's forces had to march in blistering heat through almost a waterless country, in which the few wells had been poisoned, and where steady storms made it necessary for soldiers to wear goggles.

With rapid, sweeping strokes General Botha worked round the Germans, who were forced to surrender or suffer annihilation, and thus prevented them from breaking up into parties and continuing guerrilla warfare. It is expected that a territory of 300,000 square miles in extent will be annexed to the Union of South Africa.

General Botha has already begun to send his citizen army home and a commencement will be made at once of the organization of a contingent to assist the Mother Country in the war in Europe.

There was little news from the Russian front to-day, but an announcement says, in Austrian and German official reports, that "no change" was taken to mean that the Germanic armies had not yet recovered from the defeat which the Russians inflicted upon them north of Krassnik, where the Austrians were operating in conjunction with General Von Mackenzens. It is uncertain yet whether Grand Duke Nicholas, Commander of the Russians, intends to make a final stand on the present lines or to fall back to the Bug River, which might involve the evacuation of Warsaw.

Military men say that this doubtless depends upon the supply of munitions which are now reaching him through Archangel and which German submarines are trying to cut off.

Severe fighting continues on several points on the western front. The British report the repulse of all German counter-attacks made in an effort to regain the lost trenches north of Ypres, and state that the British gain has been extended and German losses severe.

On the other hand the Germans claim the repulse of a French attack at Souchez and assert that the Teutonic troops have made further progress in the Wever region, where they state they have captured trenches and 250 prisoners. However French reports say the Germans appear to be the most important that has occurred on the western front for some months.

The Turks have continued attacks on Gallipoli Peninsula and according to German correspondents have regained some of the trenches from the British. They also have made their appearance in the vicinity of Aden, a British free port on the south coast of Arabia where, however, the British troops and warships are said to be ready for them.

No estimate has yet been made of the amount subscribed to the immense British war loan but it must be enough.

Three banks to-day subscribed in all \$310,000,000 and it is stated that at a meeting of bankers to-day it was decided that the subscription of Lombard St. would be one-fifth of the entire loan.

TRACES OF RADIUM FOUND IN ONTARIO

(From our own correspondent.) OTTAWA, July 9.—Traces of radium have been found in Ontario, according to a report made public to-day by the Mines Department. Following an extensive investigation by geologists of the Department, investigations and tests were made in various parts of Quebec and the Maritime Provinces but without the discovery of radium bearing results. In some cases, however, conditions were more favorable and the reports state that "it is gratifying to know there are places in Ontario where this mineral exists."

WHOLE GERMAN FORCE IN SOUTH AFRICA

Has Surrendered and the Campaign is Closed Releasing the British Contingent There for Service Elsewhere Probably in France.

(Special to the Guardian.) LONDON, July 9.—The surrender of the entire German force in German South Africa closes one of the most important campaigns in the war and releases for service elsewhere the South African contingent. The campaign against the most important German African colony was considered so vital that all the resources of the South African Union were used in it; but its successful conclusion probably means, despite the fact that German East Africa remains unconquered, that a contingent will be despatched to France, while additional forces will continue the campaign in East Africa. The final disposition of German South West Africa has not been officially announced, but it is generally believed here that it will become part of the South African Union.

NEW INCUMBENT OF FIRST METHODIST CHURCH

REV. ROBERT G. FULTON.

The Rev. Robert G. Fulton, the newly appointed pastor of the First Methodist Church of this city, will arrive in Charlottetown next Tuesday evening and at once enter upon his ministerial duties here. Mr. Fulton is a native of St. John, New Brunswick, and he has just closed the twentieth year of his ministry, having entered the N. B. and P. E. I. Conference in 1895. In his work upon the several circuits to which he has been appointed, during these years, Mr. Ful-

CONVENTION OF CHURCHES OF CHRIST

In cloudy weather that threatened rain, the churches of Christ of Prince Edward Island met for their annual convention at Murray Harbour on Thursday, July 8th. The Moderator, W. H. Harding, presided, supported by A. C. Henry, H. O. Crow, H. R. Bell, C. E. Armstrong, and W. E. Piper, the Island pastors; also Evangelist L. C. McPherson and R. L. Bussaberger, of Lubec, Maine. After the opening exercises Pastor C. G. Henry voiced the welcome of the Murray Harbour Church to the members of the convention from other parts, and asked for the co-operation of all in making the Convention a success that they might all have a spiritual uplift, and be more than ever prepared to do the King's business. The Moderator in responding, spoke with pathos of the sorrows that had come to the homes and hearts of Canada through this terrible war, of the possibility that the war might even reach these shores, and this Island of the sea suffer invasion; all of which events he regarded as signs of the Lord's coming. In view of these things, let them keep the spiritual uppermost.

Pastor H. R. Bell, then taking for his text 2 Tim. 2:3, urged upon the delegates the responsibilities of Christian soldiery. Very impressively and illustrating his theme from the past wars of English history, and

especially from the present conflict, he exhorted his hearers to "endure hardness" I. in standing their ground, II. marching, III. in action, IV. in retiring. He would like this to be the key note of the convention, "Endure hardness as good soldiers of Jesus Christ."

The Moderator then announced the appointment of the following committees:— For Enrolment—B. Jordan, Ernest Penny.

For order of business—G. C. Henry, H. O. Crow, Vere White.

For the Press—W. E. Piper, H. R. Bell, Miss Cann.

The morning session opened at 9.15. Owing to the state of the elements the attendance was considerably below the average. After devotional exercises led by Evangelist L. C. McPherson, the following subjects were discussed:— I. What ought people expect of a preacher, opened by A. C. Henry.

II. What ought preachers expect of the people, opened by W. H. Harding. What ought the world expect of the Church, opened by H. O. Crow. An interesting discussion followed in which a number of brethren took part. The Moderator then announced the appointment of the following Committees:— On Obituary—L. C. McPherson and H. R. Bell.

On Nominations—H. O. Crow, E. S. Norton, Wm. Beck.

On Resolutions—W. E. Piper, C. E. Armstrong, A. B. Wells.

MINNEHAHA FIRE CAUSED BY EXPLOSION

NEW YORK, July 8.—The fire aboard the Minnehaha was caused by an explosion, according to a wireless message received at 12.40 p.m. to-day from Captain Claret. At that time the fire was said to have been mastered. Captain Claret's message read as follows:—"Fire caused by explosion. Now under control by suffocation and steam. Much smoke in holds. Deemed expedient to make for Halifax. Due off Chubucto Head 9 a.m. Friday. Advise agents." The message came by way of Cape Race.
