ORDINATION OF REV. R. N. RAND

On Tuesday evening May 11th a large and interested company gathered in Dundas Baptist Church to witness the ordination of the young and popular preacher Pastor R. N. Rand, to the Baptist Ministry of Canada.

The meeting was called by the church on account of a favourable report from the Price Edward Island Baptist Ordination Council which had examined the candidate May 4th. The examination which was long and thorough was conducted with Rev. Z. L. Fast as moderator. At the close of the session the Council were present—Rev. F. A. Hubley, Pres.; W. R. McVie, Secy.; Z. L. Fast on the platform with these M. McLeod, Presbyterian Missionary and Pastor Rand.

After opening exercises M. McLeod led in Prayer and the Pres. then called upon Rev. Z. L. Fast to preach the sermon. The text chosen was Matt 25, 15 "According to his several ability." The subject "The Essential Qualification in life." The sermon preached with the usual fervour of the well known preacher was well received. The minutes of the Council and Examination of candidate were then read by the Secretary after which the charge of the Pastor was given by the Rev. T. A. Hubley who counselled the young man to keep close to the Minister's guide, The Bible. The charge of the church was then given by Rev. W. R. McVie who emphasized the need of proper recognition, of submission to and unity with the Pastor in the work of the Lord. The ordaining Prayer was then pronounced by Rev. W. R. McVie, and as the meeting was closing the Rev. R. N. Rand in the name of the Canadian Baptist Ministry after which the Rev. R. N. Rand pronounced the benediction.

PRINCE MAKING GOOD ON THE FIRING LINE

LONDON, May 12.—(By Herbert Temple) When it was known the Prince of Wales had gone to the front, last autumn there were many who scoffed. Not in print of course but in private conversation there were real patriots who bemoaned the lack of a splendid figure to represent the King in France. The British were a bit ashamed of the Prince's wan, pinched face and, slouching, non-aggressive figure.

But the Prince has made good. He is not the weakling he appears. Those who follow field sports know that many, indeed, most of our best country and long-distance runners are slight in appearance. Such is Prince Edward. He carries no weight, and his endurance is astonishing. On several occasions the Prince has marched his twenty-five miles a day, carrying heavy equipment and coming up fresh and brisk at the end. He has never faltered, but in a calm, unobtrusive way has ploughed ahead at his duties day after day, making the uniform record of excellence.

So the British people are beginning to feel proud of their Prince of Wales. He has overcome the handicaps nature put upon him. His open air life, too, is at last beginning to broaden him out. His appearance is much more rugged than it was when he appeared before Earl Kitchener last summer and demanded that he be sent to the front.

On that first occasion he was refused. The War Secretary firmly informed the Prince that he had not sufficient training. But a little more than two months later, Kitchener had the same caller with the same errand and this time he did not turn him down. Now, not yet twenty-one years of age, he has seen a half-year of war. He has proved himself an effective despatcher, himself an effective soldier, and he is not allowed to expose himself to capture by the Germans, for as a hostage he would embarrass the British greatly. But he had been under fire many times, especially when directing the building of trenches near the battlefield of Neuve Chapelle.

Simply "P W" To the army he is simply "P W." This is, of course, an abbreviation of "Prince of Wales." The officers and men like him. He enjoys no special privileges. He wears a plain khaki uniform with a star on his sleeve.

THE MARKETS.

CHICAGO, May 10.—Export sales of 800,000 bushels of wheat here and at the seaboard helped materially to restore to holders something of an approach to confidence. A decrease of the visible supply to a small total, about 13,000,000 bushels less than at the corresponding time a year ago, tended further to diminish the desire to sell. Corn received good support and at no time manifested heaviness equal to that in wheat. Oats followed other grain but failed to rally as well as corn.

WINNIPEG, May 10.—The grain markets generally were quiet today at about the same price. A fair enquiry for low grade oats and barley was in evidence. The total inspections on Saturday were 150 cars as against 215 last year, and in sight today were 225 cars. Deliveries through the cleaning house today were 255,500 bushels of wheat, 45,500 bushels of oats, 21,000 bushels of flax, 12,000 bushels of barley.

TORONTO, May 10.—Ontario grain quotations are all purely nominal as there is no business doing. Crop news continues to be of such a character as to diminish the talk of heavy export buying.

MONTREAL, May 10.—Owing to the very unsettled condition of the wheat markets at American and Canadian centres and the wild fluctuations in prices there was no demand from foreign buyers for grain today and business in consequence was dull. The local market for coarse grain was also very quiet, and little new business of any importance was done. In sympathy with the lower prices ruling in Winnipeg the price of oats declined 3/4c per bushel, and today at this reduction showed a little disposition to operate. A fair trade continues to be done in baled hay for local account and as supplies are not large the tone of the market is very firm with sales of car lots of No. 1 hay at \$21 to \$21.50 and No. 2 hay at \$19 to \$19.50 per ton struck all the talk of the feature of the bog situation today was the stronger feeling in the market for live hogs and prices scored an advance of 25c per 100 lbs. The demand from packers was good and an active trade was done in selected lots at \$9.50 to \$9.75 per 100 lbs., weighed off the cars.

T. ROSS, N. J. CANADA NOW HAS 108,760 MEN UNDER ARMS.

OTTAWA, May 11.—Canada had 108,760 men under arms on the first of May. This includes the troops at the front, those drilling at home preparatory to going there and the corps or detachments assigned to guard duty in different parts of the country. The question of raising additional troops is under consideration, but as yet no announcement is made. The expectation, however, is that before long the 'st will have reached the total of 150,000 men.

TWO NOSES

Nature never produced two blades of grass, two peas, two flowers, exactly alike. So in the physical kingdom, no two ears, eyes or noses, are precisely similar. Thus, in fitting "nose-glasses," each guard must have a distinct adjustment in order that it sets easily, securely and comfortably. Our Optical work excels in that we give these "little things" the same particular attention that we devote to the proper fitting of lenses.
