

Arrested for Spitting.

The man who carries the dread germs of consumption, and who deliberately, or even carelessly expectorates in public places is certainly deserving of punishment. Any other person who is afflicted with a cough or cold is very susceptible to the germs which float in the air (and the air is crowded with these germs), cast off by Consumptives and persons suffering from kindred disorders. A great many cases of Consumption arise from this most reprehensible habit. If you are suffering from a Cold and Cough the only safeguard is to heal the irritated surface of the throat and lungs which the cough has produced. Shiloh's Cough and Consumption Cure is the sure remedy—it is guaranteed to be such. If you do not feel satisfied with the results by the time you have used two thirds of the bottle take the remainder back to your druggist and he will refund you the whole of the money you paid him. But you won't take it back, you will have been too much benefited.

Shiloh will Cure that Hacking Cough

Cure is the sure remedy—the only sure remedy—it is guaranteed to be such. If you do not feel satisfied with the results by the time you have used two thirds of the bottle take the remainder back to your druggist and he will refund you the whole of the money you paid him. But you won't take it back, you will have been too much benefited.

of Shiloh's Consumption Cure which had been left over after an attack of croup which his little boy had had. It seemed to do my husband good from the start and three other bottles of it set him on his feet again. I have no doubt that it saved his life. He's quit cleaning cars for good. Yours truly, Mrs. Susan McNally, Ft. St. Charles, Montreal.

Chronic Bronchitis

Mr. Wm. Davidson, St. Andrews, Que., states:—"Dr. Chase's Syrup of Linseed and Turpentine has cured me of bronchitis. I have, without success, tried many remedies for the past six years. Last winter when I had a severe attack and was unable to work I procured a bottle of Dr. Chase's Syrup of Linseed and Turpentine, and am happy to state that the third bottle made me a well man."

Dr. Chase's Syrup of Linseed and Turpentine.

Mr. D. J. McDonald, of the Postal service, who has been distributing mail at Cape Tormentine for some time past returned to the City yesterday. His place has been taken by Mr. F. C. McLean, who crossed over to Cape Tormentine yesterday.

Mr. John Saunders, of Saunders & Newsom, returned to the City yesterday morning from the western part of the Province where he spent the past two days looking for cattle. He reports that a large number of cattle are being fastened for market but the quality is not up to the standard.

RUNNING AN OCEAN LINER MAND

In the problem of the application of motive power to the transportation as a form of production, in the sense that it increases the value or utility of the product, the insignificance of the development of motive power transcends almost any other consideration. A somewhat impressive example can be derived from the rough calculation meaning that would attach to a Transatlantic liner with a 20,000 horse-power engine were that engine to be replaced by 20,000 horse power of human muscles. To run night and day there would have to be three relays of men at the tread mill or other appliance which would be used each eight-hour shift at each 10,000 horse-power engine would be 100,000 men or 200,000 for the two engines. Three shifts of 200,000 men would give below decks a population of a city of second grade. If the problem, moreover, were put in the form of high-speed transportation, such as is represented by the locomotive condition, it disappears practically in the field of the unthinkable. It needs, therefore, but a moment's consideration of the widespread significance which the railway bears to the modern economic method to bring out the dept which the modern community owes to the motive-power problem.—Prof. F. R. Hutton in The Engineering Magazine.
