WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Rarin' to Go

The liver should pour out two pounds of bile into your bowels daily. If bile is not flowing freely, your food doesn't digest. It just floats in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sick and the world looks pink.

A marvelous movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Regimental Song of P. E. I. Highlanders

(Black Tunic)
(Composed by Pte. Alan Murray, P. E. I. Highlrs.)

Oh we are the Black Watch Regiment
From P. E. I. we come
We'll beat all Hell and Hitler
At the sound of pipe and drum
For never yet were Highlanders
Kine ready for the foe
And when the call for men is heard
The Highlanders will go.

—Chorus—
Who are we boys
The Highland Infantry
Marching, marching
For soon we'll go over the sea
We'll halt this mad-man Hitler
His Siegfried line we'll dent
For we're the Island Highlanders
The Black Watch Regiment.

Oh we come from P. E. Island
And we shout our fighting cry
Attention men and forward
We'll get this German Guy
We know as Adolf Hitler
And surely he will die
And Huns will run before the Sons
Of Guns from P. E. I.

—Chorus—
Oh Heines hunt your holes for
son
We're coming o'er the foam
We'll make you wish with bayonets
fixed
That you had stayed at home
Oh Garden of the Sea
For just awhile goodbye
We're one for all and all for one
The Sons of P. E. I.

—Chorus—
Our Island Boys have fought before
Somewhere in France they lie
And from their fallen hands the
Torch
Is ours, we'll hold it high
And where the action's heaviest
And life is rough and tough
There we'll be a fighting for
The Garden of the Gulf.

—Chorus—

Concerned Over Branch Factories In Germany

(By Andree Berding)
(Associated Press Staff Writer)
WASHINGTON, Nov. 14—(AP)—Several hundred million dollars of United States capital invested in huge American branch factories in Germany are helping Adolf Hitler carry on his war against Great Britain and France and are causing some uneasiness among high officials here.

Eventually, the situation may lead to the formation of a government policy against the future establishment of American factories abroad.

The plants, branches of vast corporations like General Motors Ford and National Cash Register, were constructed before the Nazis came into power. In 1933, a reliable authority estimates, they were valued at \$300,000,000.

Their value has greatly declined since owing to numerous Nazi restrictions on operations and profits and a prohibition against the export of their products to the United States. Nevertheless, some of them are still tremendous plants employing thousands of workmen.

It is acknowledged that American branch factories also exist in the countries fighting Germany and may also be assisting those countries in prosecuting the war.

Feeling in official quarters, however, is not strong on their account because they have not been forced to export to other countries in competition with their parent companies.

In the last few years the German government has placed over-seers in the plants with such wide powers that there is a question in official quarters here as to whether the factories are actually under American control.

Before the war began, they were thoroughly integrated into the German economic system and are now working, just as are German factories, in producing whatever materials are required for the pursuance of the war.

The Roosevelt administration was worried about the plants even before the war started. The chief reason was the fact that products from the plants were competing seriously with goods made in the United States. Originally, the plants were established to supply the German and nearby markets, but the German economic authorities forced them to export to other countries so as to provide Germany with foreign currency.

Glace Bay To Play U.N.B. In One Encounter

FREDERICTON, Nov. 14—(CP)—Members of the University of New Brunswick rugby fifteen today voted to bring the Caledonia team of Glace Bay, N. S. here this Saturday for a sudden-death game for the McCurdy cup, emblematic of Maritime rugby supremacy.

The decision of the U. N. B. team was immediately confirmed by the students' representative council, and arrangements for the game now are being hurried to completion.

The Caledonians qualified for the cup finals by edging Dalhousie at Halifax last Saturday. U. N. B. won the New Brunswick-Prince Edward Island intercollegiate title.

Today's decision to bring Caledonia here was reached after the ministers stated the financial guarantees they would require to make the trip. The Glace Bay terms were accepted by the collegians.

Daily War Survey

By The Canadian Press

The possibility that Nazi threats of swift and terrible war in the west may be part of a game of bluff is not being overlooked in Allied circles.
