CHRISTMAS WEDDING.—The yuletide bells rang merrily and the sun shone brightly on Christmas Day in honor of the marriage of Edith

Mary Ward of Kingston, P. E. I., and Leeland Martin Steeves of Moncton, N. B. The ceremony was performed at the Baptist Manse, North River, at four o'clock in the afternoon. The Union Jack floated gracefully in the breeze at the gateway of the Manse speaking to the young people of hope and of future joys. The parlor of the Manse was decorated with Island evergreen, holly and mistletoe and white bridal bells. Attended by Mr. and Mrs. Dougal MacLean, of Canoe Cove, the bride and the bridegroom stood under a floral arch, while Rev. Wallace MacWalker read the beautiful words that remind us of the Divine origin of marriage, the sacredness of the vows made and that invoke the blessing of Father, Son and Holy Spirit on the union, the bride and the bridegroom plighting their troth to each other, in the double ring ceremony. The bride wore a gown of brown crepeback satin with coat and hat to match. Her going-away gown is of brown cloth with beaver collar and cuffs, with coat and hat to match. Mrs. MacLean, wore brown canton crepe with coat and hat to match. The bridegroom's present to the bride was a sterling silver vanity case and to the groomsmen a pair of pearl and sterling silver cuff links. The bride is a daughter of Mr. and Mrs. Benjamin Ward of Kingston. She is much appreciated in her home town for her talents and her many good qualities. The only regret of her many friends, who rejoice with her is that her marriage takes her away from her native home. Mr. Steeves fills a responsible position in Moncton, New Brunswick, where he has a beautiful home ready to receive his bride. "May they, as they tread the journey of life together, be ever conscious of the shining of the Divine countenance upon them" is the wish of many friends both on the Island and in New Brunswick.

Miss Agnes Fay of Newport, after a short visit to Charlottetown, left Saturday morning for Halifax, where she will visit her brother Malcolm, a student at Holy Heart Seminary.

MR. JAMES MUSICK

In a half dozen cities in the times the elder generation of sport lovers will hear with sorrow of the passing of a ex-hockeyist, member of many championship teams, winner of many speed skating prizes,

Jimmy Musick. Jimmy died early yesterday morning after an illness of several weeks, although it was only within the last week that his condition became critical.

His hockey career began in this city, when he wore the colors of the Abbies. Leaving the Island he played with New Glasgow, Moncton, Amherst and Fredericton, starting with the latter when the Capitals of that town won the Maritime Championship.

Fast, bruising hockey featured the long grueling quest for honors in those days and the provinces boasted such famous names as "Mike" and "Jim" Murphy, Jack Twaddle, Rolfe Norman, Ches. Gregory, Billy Dunphy, Jimmy Williams and a dozen others whose reputation fades not with the years.

In these elite circles Jimmy Musick occupied a niche all his own as admittedly the most gifted, quick thinking, original exponent of the game then handling a stick.

Even today after twenty years no Maritime review of the past satellites of the Canadian national pastime gets into print without mention of the name "Jimmy" Musick; such was the impression he left in the annals of the sport.

But far beyond his mere ability to skate and stickhandle, Jimmy had characteristics that gave him added prestige both as a hockeyist and a man, and those were his clean, courageous manner of playing the game and his fairness in accepting a referee's rulings.

To a great extent these qualities of sportsmanship, fully as much as his uncanny hockey value, have kept untarnished the brightness of his name and no tribute more true, or greater, could be paid him, than the verdict of those who remembered him in his youthful days, that he was a sportsman in the highest meaning of the word.

6,000 Eskimos Are Threatened With Extinction

OTTAWA, Dec. 27.—Some six thousand Eskimos, living cheerfully in Arctic and sub-Arctic Canada, are threatened with ultimate extinction by the spread of civilization towards the Arctic circle, authorities on the far north predict.

Disease and death, brought slowly but surely as the white man advances northward, are creating a menace to the Eskimo which will prove one of the dilemmas of northern development, they say.

Totally without immunity to white man's diseases, the Eskimo succumbs to ailments which are considered minor misfortunes in the life of almost every white child. He suffers from malnutrition when fed white man's food, and yet he gorges himself with it whenever possible. He contracts tuberculosis from wearing store clothing under unsuitable conditions and yet he likes them. Measles, whooping cough, chicken pox, grippe and other ailments he gets from the white man himself and yet he is most happy in his company.

He turns the advantage of trade with the white man into an agency for his destruction. Despite his kindly nature and good heartedness he is a great killer. With his new bought rifle he shoots all the game he can find and ultimately may transform a naturally bountiful country into a land of hunger.

Six thousand persons spread over a land as long as the northern coast of Canada are an asset, officials declare. They point out that the Eskimo is, and will be still more, the agent of the white man in icy lands where the latter cannot live alone. Those who have associated with the Eskimo longest say civilization uncurbed, will do one of three things to him—absorb him, kill him, or drive him northward.

Mrs. Phillip Phillips and Miss Davies Evans, twin sisters of Morris-town, Wales, died within two days of each other, and were buried together.

The Spanish government plans to enlarge the building occupied by the Bank of Spain at Madrid at a cost of \$1,680,000.
