A Victory bond issue of \$170,000,000 is due on Nov. 1, these being tax free bonds, and the balance is an issue of \$50,000,000 in treasury bills, due Aug. 1.

Seek Equable Interest Rate

Unmatured issues, which are non-callable in Canada, will be returned to the extent to which the people can be induced to convert their holdings into new securities at a more equable interest rate. The intention to issue a conversion loan, in addition to taking care of refunding requirements this year, was stated in Finance Minister Rhodes' Budget Speech in March. No additional details of the Minister's intentions have been made public. The resolution, which will likely be moved in the House tomorrow, reads as follows: "That the Governor-in-Council be authorized to raise by way of loan under the provisions of the Consolidated Revenue and Audit Act, an amount not to exceed in the whole the sum of \$750,000,000, for paying or redeeming the whole or any portion of loans or obligations of Canada, and for purchasing and withdrawing from circulation un-matured securities of Canada." Whether the issue will be in separate blocks or all combined, remains to be disclosed by the Minister.

gold was equal to 87 francs. Today's quotations in New York were \$3.91 1/2 for the pound sterling and \$0.453 for the French franc. Mr. McLeod said, which indicated the pound sterling was equal to 86.4 francs. This shows, he said, there has been little change in the gold value of the pound sterling; the higher quotation now prevailing in New York for the pound sterling therefore is merely a reflection of depreciation of the United States dollar in respect to gold.

Index Numbers of Mining Stocks

The weighted index number of twenty mining stocks computed by the Dominion Bureau of Statistics on the base 1926-1900, was 80.8 for the week ending April 27 as compared with 75.1 for the previous week. Eleven gold stocks rose from 73.4 to 77.3, four gold-copper stocks from 89.6 to 101.9, and five silver and miscellaneous stocks from 28.6 to 31.3.

As we understand it, they are starting a \$10,000,000 government building in Washington to make employment for builders. It will house a department which reduced its personnel to save expenses.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended upon is Miller's Worm Powders. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for many of the ailments that best infants, enfeebling them and endangering their lives.

CORPORATIONS
(Continued from Page 1)

Individuals and partnerships in the same line of business;

And Whereas, The partnerships or individuals conducting business in competition with our local incorporated companies are not subject to this 12 1/2% income tax the condition thus created results in a manifestly unfair discrimination as between competing business houses.

And Whereas, The only remedy so far suggested as a result of protests already made is that corporations be turned back into partnerships;

And Whereas, Such a plan is not in the best interests of our Province or City, and will result in loss of revenue to our Local Government, as under the present system no new incorporation can be reasonably expected.

And Whereas, Many of our small local industries carrying on under our Joint Stock Companies Act are serving a useful purpose, especially now in providing employment, and where the directors are giving of their time and experience without remuneration in an effort to help local conditions;

And Whereas, Many of these are of such a nature that the turning of them into a Partnership is not possible;

And Whereas, The closing of all or any of them would be a distinct loss to the business life of the community and a serious loss in revenue to both our City and Province, and a further aggravation of the unemployment problem;

Therefore Resolved, That this Meeting request the Charlottetown Board of Trade to protest to the Federal Government against the injustice being done by their imposition of a tax on our small local incorporations which is not exacted from competitive business conducted by individuals or by partnerships.

And Further Resolved, That each local Incorporated Company wire our local Federal Members and Senators asking their support in having this discrimination remedied either by restoring the previous exemption of \$2,000.00 or preferably by granting the privilege of assessment as a partnership to any small locally incorporated company who may elect to be so taxed.

In introducing the matter of taxes imposed on incorporated companies, Dr. Clark explained that heretofore all companies having profits less than \$2,000 had been exempted from the tax imposed on companies having larger profits. It was believed that the taxing of incorporated companies at a higher rate than enterprises conducted by individuals was an unfair discrimination. The matter was at present being discussed by the House of Commons.

The statement made in the House of Commons relative to the matter by Mr. Euler was read from Hansard in which it was pointed out that the income tax was doubled in the case of small corporations, and that there would be a discrimination against small corporations as compared with private enterprises.

Mr. E. T. Higgs thought that the regulations would have a very serious effect in the Maritime Provinces. In Prince Edward Island there was a very large number of small corporations. Formerly the corporation had been given an exemption of \$2,000. The surtax of 5% on over \$5,000 had been eliminated at the instance of the large corporations. The proposal was a discrimination, and was not equitable or fair, Mr. Higgs stated. The move would discourage the incorporating of companies. The fact that the law was retroactive was another objection.

Mr. R. E. Mutch then introduced the resolution, which was seconded by Mr. H. K. Hemming. The latter stated that the injustice of the matter lay in the fact that there was a straight rate of 12 1/2% imposed on the incorporated companies and that the individual member's income was also taxed, whereas in the case of the individual business the tax ranged between 3% and 50%. In the case of a \$10,000 business, the tax in this way in the case of a company would total \$1,110, and in the case of a private individual \$360.

At this juncture the Council meeting adjourned to permit the meeting, as a whole, to discuss the question and report to the Council.

Mr. B. W. LePage stated that his

MAHATMA IS SHOWING SIGNS OF WEAKNESS

Second Day of Three Weeks' Fast Completed—Assures Suspension of Civil Disobedience.

POONA, India, May 9—(A.P.)—A prominent Bombay physician was called here tonight to attend the Mahatma Gandhi who developed symptoms of nausea during the second day of his three week's fast in protest against untouchability. The frail, 63-year-old political and spiritual leader reclined among pillows at the luxurious home of a devoted follower, Lady Vittal Das Thackersey, after breakfasting on water.

SIMLA, India, May 9—(A.P.)—M. K. Gandhi's announcement of his suspension of the civil disobedience movement inspired an Indian Government communique today which said it must be assured further movement had been abandoned.

Mr. Gandhi's release Monday from Yeroda prison, where he had been serving an indefinite term for his part in the campaign, indicates no change in the Government's general policy towards the release of other civil disobedience prisoners, it was said.

company objected to the tax, as being inequitable. Members of the firm were forced to pay their own taxes and those of the company as well. The small companies were at a disadvantage as compared with private concerns.

Mr. Hemming stated that three years ago the Canadian Chamber of Commerce passed a strong resolution against the system of double taxation.

Mr. R. L. Cotton thought that the taxation would work an injustice in the community. According to the retroactive clause it would be necessary to tax money which had been spent long ago. He thought that the local Government should look into the matter from the aspect of the body which incorporated the companies.

Mr. Higgs did not think that the clause re family corporations should be reinstated. He thought the request should simply be made to have the small company put on the same basis as the individual.

Mr. S. A. MacDonald stated that a protest had already been forwarded through the Canadian Chamber of Commerce. Mr. Mutch doubted that the protest reached Ottawa.

Messrs. Higgs and Cotton did not think that the restoration of the law respecting family corporations would remedy the case.

Mr. G. J. Tweedy asked if it would be possible to interest the Provincial Government in any way. He did not think that the resolution would be effective.

Mr. C. L. MacKay thought that the term small company was vague, and that a limit should be set in this regard. The surtax should be reinstated, he believed. The resolution carried.

Mr. R. E. Mutch reported to the Council, and moved that the Council approve of the resolution. The motion carried.

A committee composed of Messrs. R. E. Mutch, R. L. Cotton, and W. L. Higgs was appointed to deal with the resolution.

Relative to conditions on the South Shore in connection with the lobster fishing, it was stated that the communication had been returned by the Fisheries Committee to the Board.

The Secretary stated the Fisheries Committee had looked into the resolution received from the Lunenburg Board, asking for protection in the stabilization of the pound and reported that there was no reason why the Charlottetown Board should not concur. A motion was carried to approve of the resolution.

House Approves New Newspaper Postage Rates

(Canadian Press)

OTTAWA, May 9—New postage rates for newspapers and periodicals carried 40 miles and farther, were approved by the House of Commons today in a Bill sponsored by Prime Minister R. B. Bennett.

The Bill provides that where the advertising space in the publication is 50 per cent of the total, or more, the postage rate shall be four cents per pound when carried more than 40 miles. The present rate is 1 1/2 cents. Mr. Bennett said the original proposal had been to increase the rates gradually where the advertising rates were less than 50 per cent but greater than 20 per cent. Representations from the publishers, however, had convinced the Government this would be an undue hardship. It was established, the Prime Minister said, that under existing economic conditions a newspaper did not break even unless its advertising space was approximately 50 per cent of the whole.

New Annan and Margate Soccer

HALIFAX, May 9—Central Y. M. C. A., of Bayonne, New Jersey, tonight defeated Dalhousie University's basketball squad 45-28 in a rugged game at the College gym. Tomorrow night they play Halifax Wanderers in a return match, Wanderers having won last night. The barnstormers will continue to Sydney later in the week.

BRITISH PREMIER
(Continued from Page 1)

Truce Forwarded to U. S.

The draft of the Truce Agreement was cabled to Washington this evening, and a reply is expected here tomorrow morning. Subsequently the organizing committee of the World Economic Conference will meet again to notify other nations of the Anglo-American agreement.

This truce, Mr. MacDonald said, would mean the "avoidance of the adoption of new initiatives which might increase the many varieties of difficulties now arresting international commerce."

The actual agreement, Mr. MacDonald stated, was "subject to the settlement of the actual words and the protection of the essential position of both Governments." This condition was widely interpreted as meaning that Great Britain would reserve the right to conclude the trade agreements already being negotiated.

Speaks Of War Debts

Before making the announcement of the truce, he spoke of the War Debts, remarking that "there are so many awkward relations to be dealt with to complete the final settlement."

He explained last Thursday's statement that the debts problem would not come before the Economic Conference as implying that debts concerned only a few nations, that more than 60 countries would send representatives to the Conference. All of them, he added, would not be concerned with debts.

RAILWAY BILL
(Continued from Page 1)

Michael, (Kindersley). Voting against the bill were Spender (Bathurst); Heaps (Winnipeg North); MacInnis (Vancouver South); Garland, (Bow River); Speakman (Red Deer); Mitchell (Hamilton East) and Miss MacPhail, (South-East Grey).

Comes Into Force July 1

The bill automatically comes into force July 1. Based on the recommendations of the Duff Transportation Commission it seeks to end large deficits on both railways by pooled services, joint running rights and co-operative measures. The financial position of the Canadian National may be seen from the fact it did not make operating expenses in January, February or March.

Fear Amalgamation

Opposition members have opposed the bill on a score of points—generally because they say it means amalgamation of the two roads and the death of public ownership. They claim also it will throw hundreds, if not thousands of railwaymen out of work without compensation. The bill now goes to the Senate for review of almost a score of amendments inserted since it was before that house.

TERRORIST REIGN CARRIED ON IN SPAIN

Seven Killed And Fifty Wounded In Bombings And Rioting In Various Cities.

MADRID, May 9—(A.P.)—Syndicalists tonight took advantage of nightfall to resume a terrorist reign in various sections of Spain after it appeared a threatened 48-hour period of strikes and vandalism had been stamped out. At least seven persons were killed and 50 wounded in bombings and rioting in various cities.

The Government had issued a bulletin announcing the strike was a "complete failure", while authorities in most cities had claimed to have the situation under control. The strike was aimed to paralyze commerce and industry, with nation-wide terrorism as an objective.

The renewed activities were most pronounced at Barcelona, where groups attacked Catalan headquarters, placed bombs at the Avenida Theatre and dynamited a street car on Bonrat street.

BROADCASTING
(Continued from Page 1)

No Price References

The regulations in respect to programs prohibit any reference to prices in advertising programs. Except where special permission is given the amount of advertising matter is limited to five percent of a program. The commission reserves the right to prohibit the broadcasting of any matter "until the continuity or record or transcription of both have been submitted to the commission for examination and have been approved by them." Broadcasting of abusive or defamatory statements with regard to individuals or institutions, or of statements contrary to the purpose of existing legislation, is forbidden.

It is also provided that programs shall be filed weekly with the commission. Licenses broadcasting sustaining programs originating outside Canada must, when requested to do so by the commission, give priority to programs originating in Canada. They must also, upon request of the commission, give right of way to such programs as are, in the opinion of the commission, of national interest. The use of recorded programs, either by phonograph or gramophone records, must be confined to such hours as may be defined to each station by the commission.

The regulations set forth that no station shall broadcast advertising spot announcements between 7:30 and 11 at night. No such announcements may exceed 100 words in length nor total more than three minutes in any hour. Electrical transcription or records designed for broadcast advertising must not be broadcast more than once on any station. Mechanical reproductions must be announced as such just before they are broadcast.

News Service

Negotiations have been going on for some time between The Canadian Press and Radio Commission towards supply of radio news bulletin service with The Canadian Press authority hallmark of speed and accuracy. This will replace the present broadcasting of news, much of which is frankly stolen from Canadian Press member papers, while other news picked up on the street by broadcasting stations proved misleading to the commission and to the public.

Two months ago a deputation of The Canadian Press and members of The Canadian Press waited on the radio commission at Ottawa in order specifically to protest this practice of lifting Canadian Press news. The chairman, Hector Charlesworth, received the deputation sympathetically and the present announcement is the outcome.

News broadcasting is dealt with in section two of part five of the regulations pertaining to programs as follows: Canadian radio broadcasting stations shall not transmit any news or information of any kind published in any newspaper or obtained, collected, collated, or co-ordinated by any newspaper or association of newspapers or any news agency or service, except the following:
