THE B. C. ELECTIONS.

Polling in the British Columbia general elections will take place on October 3. This is about as early a date as could well be fixed and will make the campaign short and sharp, whatever the result may be. The government of which Mr. McBride is premier, is nominally Conservative, with a radical program. For the first time in provincial politics party lines have been drawn, and the Conservatives are making strenuous efforts to carry the province, in order to strengthen their position in Dominion affairs, as well as to consolidate their forces in the province. In the last legislature says the Witness: Liberals and Conservatives worked together to overthrow the Prior ministry. When they succeeded and Mr. McBride became premier, he threw over his Liberal friends and formed an alliance with the lately discredited ministers, declared for government on party lines, dissolved the legislature and appealed to the country on a platform largely socialistic and pro-labor. His success, should he be sustained by a majority in the new legislature, would not be so much a Conservative victory as it would be a triumph for the old local clique, which has managed through all changes to retain control of provincial affairs. Of far more importance than the politics of the campaign is the decision the general election will give as to the policy to be pursued in regard to the immensely valuable mineral, coal, oil, timber and pulp lands of the province. Popular opinion largely favors the retention of ownership of reserves of these lands by government, and to this policy both parties are pledged. The record of some of those with whom Mr. McBride has allied himself is, however, not in harmony with this policy.

The Bell Telephone Company has offered the city of Ottawa to enter into a five years agreement to give domestic telephones to the residents of the city at twenty-five dollars a year for domestic purposes, and to provide fifty instruments for civic use free of charge. The old arrangement which has expired includes a charge of thirty dollars a year for instruments for domestic purposes and twenty-five dollars a year for those used by the city. The charge for business telephones is forty-five dollars a year and this is to remain.

The New York Evening Post, in a recent article on the Alaska boundary adjudication, takes the moderate, sensible, and honorable view that a compromise between the extreme views is ultimately possible—one that would give the United States the "coast strip in general" and Canada a port at the head of the Lynn Canal. In the event of the commission splitting even, the Post thinks the matter would still be advanced a stage, for the whole material might then be laid without prejudice before the Hague tribunal. To this kind of arbitration neither Great Britain nor Canada would object.

The House of Commons is announced to prorogue about the first of October.

GORED BY ELEPHANT.

Angry Beast Ran His Tusks Through Man's Body.

NORTHBERGEN, N. J. Sept. 8 One of the proprietors of a circus, which has been showing in North Hudson towns for two weeks, was gored here yesterday afternoon by the elephant, which has been the main feature of the show. The man was passing the elephant and had his back turned when, without warning, the animal reached out his trunk, and catching him, lifted him and hurled him heavily to the ground. Then he jabbed his victim with one of his tusks. The tusk, which had been saved recently, but not capped, was driven completely through the man's left thigh, making a hole five inches across where it entered, and three inches across where it emerged. The animal instantly withdrew the tusk and prepared to stamp on its victim, when one of the circus employees jabbed the elephant with a pitchfork and drove him away. The frenzied brute was not shackled and ran out of the grounds and to a swamp where, after two hours skimming he was recaptured. The doctors fear serious complications, the greatest danger being from blood poisoning.

JOHN BALL'S STATEMENT.

More Proof that Dodd's Kidney Pills always Cure Lumbago by Taking the Uric Acid Out of the Blood.

QUEBEC, Sept. 14—(Special)—Among the abundant proofs forthcoming that Lumbago, is caused by Uric acid in the blood and that Dodd's Kidney Pills always cure it by putting the Kidneys in condition to take all the uric acid out of the blood, is the case of John Ball, bricklayer, of 57 Little Champlain St., this city. Mr. Ball makes the following statement:

"I had been troubled with Lumbago for two years and could not do my work. I was suffering from Urinary Troubles and had to rise so often that my rest was spoiled. One box of Dodd's Kidney Pills helped me, and by the time I had taken three boxes, I was completely cured."

Interesting Furniture News

In July last there was held in the a City of Toronto a great Furniture Exposition. All the new patterns for Fall and Xmas trade were shown by fifty-three of the largest Canadian Furniture Manufacturers. Our Mr. Wright was there and spent a week among the samples—and made large purchases—we are now receiving the goods—six carloads have arrived—six more are on the way—look for our booth at the Exhibition next week—also call at our store—we have the largest and finest stock of Furniture east of Montreal—and when we tell you that at least two thirds of it bought today would cost us 20 per cent more than we paid for it, you will easily understand why we have put such a low price on the goods. You cannot find the same goods in any other store—you cannot find anything like the variety anywhere else—you cannot buy at as low a price anywhere else.

Big statements you say—well we have the goods and prices to back up what we say in the newspapers.
