Home Garden Offsets High Food Costs

ABLES HOUSEHOLDER TO MAINTAIN STANDARDS OF LIVING WITHOUT INCREASE OF INCOME.

With the recent increase in cost of food products, backyard gardening again assumes economic importance in the average American home, and millions of vegetable gardens will be made this spring because of the money which can be saved, as well as for the fun of making them, and the superior quality of their product.

HOW MUCH BETTER IS THE FLAVOR OF VEGETABLES THAT HAVE BEEN GROWN IN YOUR OWN GARDEN.

Calculable in terms of dollars and cents. Those families who are limited to an meagre budget, those who would protect their health, and more especially those who would enjoy the taste of real fresh vegetables, should begin to plan early.

If you are in the habit of growing a casual row of peas, or beans or corn, just because your mother always did, that's one thing, but if you want garden that will really assist in filling in the family budget, that's quite another. Start by securing the available space you have, order a catalog from a reliable seed house, and then begin to plan for just how many vegetables you can grow in the coming season. Remember that you should have fresh vegetables from May until September, and should plan accordingly.

If your space is only ten by twenty feet, you can eliminate corn, potatoes, pumpkins and others that take a lot of space, concentrating on the smaller varieties. But no matter how large or small, there are some vegetables that you can grow. First of all, then, determine just what you want to have on the amount of space available. Your seed catalog will assist you here.

The next step is to decide on how many are wanted, and exactly what spot in the garden will accommodate them. Do this by making a chart of the garden, row by row, recording the variety and date of first planting, the approximate date of the harvest, and what is to succeed that is, following one vegetable with another is very important if a large production is needed in a small space. For instance, the first sowing in one row could be a hardy crop such as peas, and when that is harvested, tomato plants might be put in, to be followed by a quick growing fall radish or lettuce, or a frost-resistant legume, such as turnips.

By planning with careful attention given to succession, you can have a garden that will thrill the pocketbook as well as the palate, and it will be fun in the bargain.

Western Locals

This column is reserved for news of local interest but advertising of a new nature may be inserted at 2 cents a word strictly payable in advance.

—CROLIN the useful disinfectant at Taylor Drug Co., Kensington.

—FRESH BROKEN SODAS, in barrels, Ross-Miller wine-crumble and fine puppy meal, in stock at Brae's. L-934-3-27-29.

—LIQUID SOLDER for repairing nearly everything, sold at Brae's.

—JUST ARRIVED fresh stock boneless beef, tripe, hearts, liver and horse meat. At lowest prices. Pond and Delaney. L-954-3-27-21.

—NEW LONDON Presbyterian Congregation. There will be no services on Sunday, March the twenty-eighth. L-927-3-27-11.

—FOX RANCHERS Easter Specials Saturday and Monday. Fox cubes biscuits 50¢ bags at \$2.50. Pond and Delaney Summerside. L-954-3-27-21.

—NEW ATTRACTIVE six room apartments to let. Modern conveniences. Very warm and cosy. Moderate rental. These carefully planned apartments will be ready for occupancy on or before May 1st. Apply R. B. Richardson, 16 Myrtle Street, Summerside. L-904-3-26-31.

—ATTEND AUCTION sale of work horses at New Annapolis Race Track on Monday, March 29th, beginning at 1 p. m. Terms cash. Hugh F. Morrison, Auctioneer. L-955.

—CONGRATULATIONS—Congratulations are being extended to Mr. and Mrs. J. E. Dalton of Summerside on the arrival of a daughter on Thursday, March 25th.

—ATTENTION FOX RANCHERS—When you buy cheaper you save. We have everything in fox meats, cubes, meal, biscuits and supplies. See us before buying elsewhere. Pond and Delaney, Water Street, West, Summerside. L-624-3-18-41.

—ATTEND AUCTION sale of work horses at New Annapolis Race Track on Monday, March 29th, beginning at 1 p. m. Terms cash. Hugh F. Morrison, Auctioneer. L-955.

—MANY ATTEND CONVENTION FROM WEST—The western train from Charlottetown on Thursday afternoon had a number of teachers aboard returning to their homes in West Prince after attending the teachers' convention in Charlottetown.—S.

—CLIFTON PRESBYTERIAN PASTORAL CHARGE—Services in this charge for next Sunday, March 28th, will be as follows: 11 a. m., Granville; 2:30 p. m., Clifton; 7 p. m., Long River. Easter being one of the Church's great, sacred anniversaries, the services will be, therefore, special—the Christian significance and gladness of Easter being emphasized in special sermons and music. L-948.

—SUMMERSIDE MARKETS—Poultry is very scarce for the Easter season this year and very little is coming in. Prices are moderately high. Potatoes remain about the same, Mountains 70¢ bushel; Cobblers and blues 65¢. Oats are fetching 55¢. Wheat is quoted at 90¢ to \$1.50 per bushel. Barley is a good price from 65¢ to 85¢. Buckwheat 50¢.—S.

—BEING WELCOMED BACK—Rev. George Cameron, Presbyterian clergyman, Toronto, but formerly of the Island, his native province, is being very warmly welcomed to Kensington. Mr. Cameron who is at present on the Island in connection with a preaching mission is a very well known and highly regarded in Kensington, as elsewhere throughout the province. Although his Island visit is necessarily very brief, it is hoped by the Kensington Presbyterian congregation that he will be able to arrange for a Sunday in their church, as he formerly ministered in the Presbyterian congregation there.

Personals

—Mr. Wm. Foley of Tignish has entered the Prince County Hospital for treatment.—S.

—Mr. Ernest Clow of Summerside is a patient in the Prince County Hospital.—S.

—Mr. Gilbert Smith, Summerside, left Tuesday morning on an extended trip to Toronto.

—Mr. Fred Overbeck of Kinkora has entered the Prince County Hospital for treatment. S.

—Mr. George Arsenault of Emerald Junction is a patient in the Prince County Hospital. S.

—Mrs. Leo Whalen who has been a patient in the Prince County Hospital for some time has returned to her home in Mont Carmel very much improved in health. S.

—Master Charles Dunsford, nine year old son of Mr. and Mrs. George Dunsford of Hampton was operated on for appendicitis in the Prince County Hospital and is doing nicely. S.

—Mrs. Edith Hutchinson of Mis couche was operated on in the Prince County Hospital this week and is making a good recovery. S.

Carleton and Vicinity

Mrs. Keith Lord returned to her home in Cape Traverse Friday morning after a pleasant visit with her mother, Mrs. Doughart of Kensington.

Mr. Major Carruthers of Augustin Cove was a passenger to Charlottetown on Thursday.

Mr. Bruce Dawson of Uigg spent a pleasant holiday recently visiting friends in Tryon and Carleton.

Misses Fernie Bell and Jean Nutt of Carleton spent part of their Easter holidays in Summerside, the guests of Mr. and Mrs. Gordon Linkletter.

Misses Roberta and Beulah Howatt of Carleton are spending their Easter holiday in Cherry Valley, the guests of Mr. and Mrs. George Irving.

His many friends will regret to learn that Mr. George McWilliams of Augustin Cove is quite ill with the flu.

Mr. Bowley Leard of Tryon has returned from a short visit with friends in Charlottetown.

Miss Marjorie MacCallum of Summerside is spending the week-end in North Tryon the guest of Mrs. Sterling Lord.

Among the Prince of Wales students from this vicinity who are spending the Easter holidays at their homes are Miss Mildred Nutt, Carleton, Miss Evelyn Harvey, Cape Traverse, Miss Grace Webster, Augustin Cove, Miss Myrtle Leard, Tryon and Miss Bernice Dixon, North Tryon.

Dr. S. N. Robertson, principal of Prince of Wales College, Charlottetown was a passenger to Carleton Friday morning where he was the guest of Mr. and Mrs. J. C. Gillespie.

A great number from this and adjoining communities took advantage of the special train to Charlottetown Friday evening to attend the championship hockey game at the Forum between Victoria Unions and St. Andrew's Senators, forty five passengers getting on the train at Carleton and eighty seven at Albany.

Mr. David Clarke of Cape Traverse is visiting his sister, Mrs. Earle Sawlor of North Tryon.

—Mrs. Manson McNeill of North Tryon is visiting in Summerside, the guest of Mr. and Mrs. Ed Manson.

Mrs. A. Russell Clarke of Cape Traverse left Tuesday morning on an extended visit to her daughter, Mrs. Everett Daniels of Tewkesbury, Mass.—D

Mr. and Mrs. George Spence spent the week-end in Moncton.

Mr. Powell Spence spent the week-end in Moncton.

Seed Cleaning Important Job

Many natural and uncontrollable risks must be taken in producing crops. There are, however, many factors that enter into crop production which are controllable. Among these is the preparation of grain for seed. This is a farm job that can usually be done during the fall to within one month of seeding in the spring. When cleaning and grading of seed is left until the seed sowing time, the work is sometimes rushed and consequently not so carefully done. Best results are obtained when the capacity of the seed cleaning and grading machines is not overtaxed. Many machines do much better skilfully under their commercially rated capacities. It seems to be a good plan to have the work of preparing seed done when the weather is favourable, and at least one month before seeding.

There are three main reasons for cleaning seed, namely, the removal of weed seeds; to retain well developed seeds of high vitality, and to have seed of uniform size and freedom from obstructions. The annual loss due to weed seeds is very great. Where soil moisture becomes more limited, the control of weed growth becomes more essential. Noxious weeds, especially those which are likely to be introduced on farms where they are not yet prevalent, should be removed.

With regard to retaining well developed seeds of high vitality, plump seeds of strong vitality may endure adverse growing conditions because

—Mrs. Wm. Rogers of Freetown is spending the weekend in Summerside, the guest of her parents, Dr. and Mrs. Campbell. S

You Must Relax
Too many men are going under these days from high nervous tension and sleeplessness. You must relax and use Dr. Chase's Nerve Food to replenish nerve force, and restore health and vigor.
Dr. Chase's NERVE FOOD

Tormentine

Miss Wynifred Way spent last week in Moncton a guest of her sister, Mrs. Lloyd Stirling.

Mr. James Adams, Springhill Junction, spent Friday and Saturday here, a guest of Mr. and Mrs. C. W. Oulton.

Miss Mary Cormier who has spent the winter months in Murray Corner has returned to her home here.

Miss George Barnhill, Moncton, is a guest of her brother, Dr. H. B. Barnhill, and Mrs. Barnhill, Bayfield.

On Wednesday evening people from here and surrounding communities held a dance in the Straits Hall for Mr. and Mrs. Amos Allen. Music for dancing was furnished by the Rainbow Orchestra.

On Friday evening Mr. and Mrs. Charles Strang entertained at dinner. Guests were Mr. and Mrs. George Spence, Mr. and Mrs. Edward C. Allen, Mr. and Mrs. W. E. Oulton, Dr. and Mrs. H. B. Barnhill, Mrs. Nettie Spence, Miss George Barnhill and Mr. Powell Spence. Cards were enjoyed prizes being won by Mrs. Barnhill, Dr. Barnhill, Mrs. Edward Allen and Mr. W. E. Oulton.

Mrs. Lloyd Hicks, Sackville, was a week-end guest of her mother, Mrs. Frances Allen.

Mrs. C. W. Oulton and son Donnie spent the week-end in Moncton.

Mrs. F. S. Swift of Hardwood Ridge was a guest of relatives here for a few days.

Mr. Herman Dobson, Bayfield, spent a week in Sackville, a guest of friends.

Miss K. Stone, R. N., returned to Port Elgin on Monday after spending some time in Bayfield.

Mrs. Murray Trenholm spent last week in Port Elgin.

Mr. Edwin Spence left for Boston where he will spend a short time.

Mrs. Marven Wall and son Sherman spent Monday and Tuesday in Moncton.

Mr. and Mrs. Ray Watt, Marblehead, Mass., left for their home by motor on Friday, having been called here by the death of Mrs. Watt's step-mother, Mrs. Edwin Spence.

Mrs. Oscar Stillman, Bayfield, is spending some time in Spence Settlement at the home of Mr. and Mrs. Floyd Peacock.

Mr. W. H. Cadman, Bayfield, left for Sackville where he has secured a position with the Lounsbury Company Limited.

Mrs. James MacLeod, who has been spending the past two weeks in Bayfield, has returned to her home in Pugwash.

Mr. and Mrs. George Spence spent the week-end in Moncton.

Mr. Powell Spence spent the week-end in Moncton.

Mr. Powell Spence spent the week-end in Moncton.

Y's Men's Club Organized At S'ide

A Y's Men's Club was organized at Summerside on Thursday evening, when about twenty men met at the curling club for supper and a general meeting afterwards.

The meeting was a sequel to a meeting of the Charlottetown Y's Men at the Queen Hotel last week when Messrs. W. A. Currie, R. S. Hinton and Dr. H. Clark were named as a committee to endeavor to form a club in Summerside.

This committee met on Thursday afternoon to commence organization. At the meeting was T. W. Bentley, Dr. W. B. Howatt, W. A. Currie, R. S. Hinton, R. S. P. Jardine, S. K. Todd, J. S. Wright, R. L. Willet, Dr. H. E. Clark and R. L. Mollison.

Mr. T. W. Bentley reporting for the committee showed that fifteen charter members had signed up and the following officers were proposed and accepted:

Hon. Pres. Mayor B. W. Robinson; Pres. W. A. Currie; Vice Pres. Dr. H. E. Clark; 2nd Vice Pres. S. K. Todd; treasurer, R. S. Hinton; secretary, R. L. Willet.

Mr. Currie, the newly elected president, presided over the banquet. The festive board was laden with a variety of good things which were served by a number of ladies.

After the supper had been thoroughly enjoyed, Mr. Currie in a brief speech thanked the members for making him their president. He then outlined the aims and benefits of a Y's Men's Club. He also gave the definition of a Y's man and advised care in the selection of new members. He also stressed the importance of each member doing his part so that the Club would be a success.

He then called on Y's Men Bentley who gave a brief history of origin and development of the Y's Men's Club.

The Y's Men's Club in a town is a good thing for young business men and boys.

The meeting was then thrown open for discussion. Membership fees were decided upon. The chief discussions were where the Club would meet and what activities it would associate itself with. Several gentlemen present voiced their opinions.

A committee of R. S. P. Jardine, S. K. Todd, J. S. Wright were named to look into the matter of a meeting place. The meeting adjourned with the singing of the National Anthem.—S.

TIMELY NOTES ON TOPICS
CONNECTED WITH

Silver Fox Farming

Continued from page 13)

It looks as though there will be tremendous quantities of fresh fish fed this season, as truck owners are active now in looking up customers for daily deliveries when Spring arrives. A great many of the ranchers feed the whole fish others have the heads and tails cut off and fish cleaned. This of course necessitates more work and consequently a higher price. Many foxmen believe that it is better to feed the whole fish, as the liver, entrails and head, are considered good food. Whether or not it is better or not to boil the fish or steam it will depend upon their being free from parasites or not. Fish caught in certain waters have worms, which on the authority of a MacDonald College professor, are said to be capable of propagating themselves with the fox as host.

The annual meeting of the Charlottetown Fox Club was held Thursday evening and the following officers were elected for 1937: President, Arthur H. Roper; Vice President, Capt. A. W. Allan; Secretary-Treasurer, P. Barlow; Executive, Major McRae, W. S. Brown.

Meetings will be held on the second and fourth Thursday evenings of every month in the Agricultural Hall at 8 p. m.

Propagate House Plants By Cuttings

The plants from which cuttings of house plants are taken, should be strong and vigorous. If stunted by insects or by unsuitable surroundings of heat, light, temperature, or food, or weakened by excessive production of flowers, the result will be unsatisfactory, and it will be equally so if soft watery growth, produced by a high temperature and excess of nitrogenous food, is used.

It is always best to propagate from individual plants that, in their vigour freedom from disease, prolificacy, or in size, shape or colour of their flowers or fruit, show unusual merit.

House plants are generally propagated by soft cuttings of the stem. They are usually made from terminal shoots but cuttings from lower down the stem can be used in proper condition. Cuttings should always be taken from young vigorous growth that is firm but not woody. Make the cut almost at right angles with a sharp knife just below a node (the thickened part of the stem where the leaves grow). The cutting should be about three inches long but may be shorter having a generally lower protein digestibility than corn. Field peas of this kind should have at least one leaf and sometimes from two to four are left. Large ones can be cut in half and the lower ones must be removed. Do not allow cuttings to wilt.

Clean river sand is the best medium for rooting cuttings. Small pots are most convenient to use in the house and the cuttings should be arranged around the edges three or four in a pot. The sand must be kept evenly moist at all times. A paper should be placed over the pot to prevent the leaves from wilting. After the cuttings have rooted plant singly in small pots using a

compost of three parts loam, one part leaf mould and one part sand. Care must be used to prevent damage to the delicate roots. Place the pots in shade until the plants become established. Water carefully and do not let the soil become either too wet or too dry.

Some house plants such as Coleus and English ivy will root easily in jars of water kept in the window. After rooting, they should be potted as described above.

The total area devoted to the principal field crops in Canada in 1936 was 57,862,550 acres, an increase of 646,050 acres over 1935, but 870,930 acres less than the area sown in 1933.

Mothers' Helpers

Most little girls like to go kitchenwards to cut out ginger-cooky men. Later they want to cook dinners and a fine way to teach them is to make the initial dinners, fish dinners while mothers take hours to cook. Spencer way takes little time and is a lesson in cookery for health and flavour. The richly crumbed, evenly browned fish, retaining its juices and flavor, will delight all young cooks. The young learners may graduate from the baked and crumbed fish to dressed fish, creamed fish, etc. all easier to cook than meats and of value in teaching appreciation of our own Canadian sea foods.

Canadian fish are mother's helpers too, in helping to provide easily prepared, healthful, economical meals. But Canadian mothers in turn can be helpers of Canadian Fisheries by instructing their children not only in preparing fish for the table but in what the industry means to Canada and her fishermen. Children, as true patriots, will appreciate, as they grow, the future and consequent growth to Canadian Fisheries at home.
