WEDDING ANNIVERSARY—An interesting event occurred at the residence of Mr. and Mrs. Arthur MacKay of 288 Grafton Street, Charlottetown, on March 4th, when they celebrated their fiftieth wedding anniversary. There were present with them for the happy occasion Archibald MacKay of Charlottetown, brother of Mr. MacKay, who was at the marriage fifty years ago; and their sons and daughters, Rev. A. MacKay, of Chipman, N. B., Mr. and Mrs. Reuben Rogerson of Tryon; Mrs. Austen Burns of Waltham, Mass., Mr. and Mrs. Claude MacKay of Montague; Mr. and Mrs. Gordon MacKay of Charlottetown, and Mr. and Mrs. Stirling MacKay, of Albany. Two sons James and Harold of British Columbia, were unable to be present. The rooms were tastefully decorated with streamers of white and gold and white wedding bells with white hyacinth and yellow narcissus. The members of the family presented their father and mother with an Atwater Kent electric radio set. All join in wishing Mr. and Mrs. MacKay many more years of happy wedded life.

PERSONALS

Mr. Peter McQuaid, Bedford, has arrived home after spending a month in Boston visiting friends.

Mr. Chas. Earle of the Earle Fisheries left recently for Brackley Beach where he will supervise the cutting and packing of a few hundred tons of ice for the firm's cold storage.

PHONE US

"I WANT TO ORDER SOME COAL"

Mr. James L. Saunders, President New London North Egg Circle:

Dear Sir:

It is with feelings of regret that we learn you are severing your connection with our circle; and that you have moved your residence to another district. We feel that we cannot let this opportunity pass without expressing to you in some humble way our thanks and appreciation for your valuable service during the past, as our Circle has met with a loss which may never be regained.

We extend to you and your wife our heartiest congratulations for future happiness in your new home, and it is our wish that you may be crowned with a fair share of prosperity.

And now, Jim, we ask you to accept this little gift, not for its earthly value, but as a token from your many friends who will ever think of you; and during the long winter evenings as you sit by your hearth enjoying a quiet smoke, may memories lead you back to the many happy hours spent in this grand old district of New London North.

Signed on behalf of this Circle,
Manager, **GEORGE COUSINS,**
Sec., **RAY MEEK,**
Directors, **BRUCE BELL, R. ALLEN CAMPBELL.**

MARKET REVIEW

The annual report for International Nickel which appeared yesterday has been received with satisfaction by shareholders generally. While earnings which amounted to \$1.47 per share were as anticipated, other features and the strong cash position of the Company have substantiated the optimistic reports current on the Company for some time.

What will be looked upon as by far the most valuable section of the report of International Nickel is the estimate provided for the first time of the ore reserves. The totals exceed very considerably general expectations and are highly impressive. Total ore reserves are given as 202,620,000 tons. Of this total, proven ore in the Frood Mine amounts to 134,673,000 tons of which 43,562,000 tons is high grade or below the 1,400 foot level. The average grade of proven ore below the 1,400 foot level runs nickel \$2.39, copper \$3.62—giving a value of over \$25 per ton, with Nickel \$14.34 at 30c and copper \$1159 at 16c a pound. This would show about \$3,350,000 for Frood ore alone, with the total running between \$3,350,000,000 and \$4,000,000,000. It is stated further that "bessemer matte made from Frood ore mined below the 1,600 foot level will net a return in precious metal values of approximately \$50 per ton."

Satisfactory results are revealed in the initial financial statement issued by Dominion Tar & Chemical Company Limited since the control passed from English into Canadian hands. The earnings, after providing contingencies, were equivalent to \$18.38 per share on the preferred stock and to \$2.34 per share on the common stock outstanding at the end of the year. If computed on the basis of average amount of stock outstanding during the year these earnings would be somewhat higher. The common stock, which is listed on the Montreal Curb Market together with the preferred is quoted around 20 1-2 to 21, or less than 9 times earnings for 1929.

The fine technical position of Brazilian Tracton to which we have referred during the last few days manifested itself today when the stock rose above 39 and closed at 38 3-4 for a net gain of 3-4 of one point over last night's close. It would not be surprising to see Brazilian continue the advance.

STEWART JONES & CO.
Motor-driven river craft have been introduced on canals of Germany.

HAD LARGE FUNERAL—Many friends gathered to pay a last tribute to the memory of Mr. Amas Beils of Glenwood whose funeral took place on Friday afternoon. After a short service at the home, the funeral cortege proceeded to the United Church at Glenwood, where the pastor, Rev. W. S. Loring officiated. The pall-bearers were: Messrs. Albert McIsaac, Clifford Matthews, Silas Matthews, W. T. McIsaac, Fred Smith, and Wm. E. McDonald.—O.

STUDY GROUP MEETING

Interested and enthusiastic teachers met in New Glasgow School on Feb. 20th, to discuss problems among themselves and with their Inspector, Mr. Howard Court.

Inspector Court gave a demonstration of the teaching of History, which proved very instructive to those present. In the course of his talk, Inspector Court said that Geography was considered a local and History a temporal phase of the same thing, and that therefore the two subjects could be closely correlated in teaching.

Humanity, he said, has been compared to a seething cauldron in which continuous movements or struggles are taking place, with an event cropping up to the top once in awhile. These events are called History, but real history is not the events which crop up but the struggles going on beneath the surface. If motor cars gave perfect satisfaction, there would be no need for a new invention or improvement in motor cars, and if a government gave perfect satisfaction there would be no need of a change. Therefore the actual event in history is not the important thing, but the facts that there are defects in conditions as they exist, which give rise to a struggle for reform. To sum up, Inspector Court said that History might be discussed under the following headings:

1. Old conditions.
2. Defects.
3. Problem.
4. Event.
5. Defects in the event which gives rise to another problem, etc.

The talk was concluded with a demonstration of three Type lessons, and some valuable suggestions which Mr. Court hopes to see carried out by the teachers in this part of his inspectorate.

The next meeting will be held in New Glasgow on the afternoon of March 20, the subject for discussion to be Nature Study.

The teachers are asked to prepare a programme of topics for each month; suggest one improvement for the School Fair and suggest a project in Nature Study that could be correlated with school fair work. It is expected that an official from the Department of Agriculture will be present at the next meeting to address the teachers and none of the group can well afford to be absent.

president opened the meeting by the singing of the Ode and repeating the Creed. Roll call was responded to by seven members. One visitor was present. The minutes of the previous meeting were read and approved. A report was given by the Sick Committee. Owing to the fact that the meeting was not held on the regular night, the school was not visited. The following committees were appointed for March: Sick Committee, Mrs. Blair Andrew and Mrs. Frank Houston; School Committee, Miss Martha Brown and Mrs. Gordon Houston; Lunch Committee, Mrs. Gordon Houston and Miss Martha Brown; Buying Committee, Mrs. Blair Andrew.

It was moved and seconded that two brackets and two boxes of colored chalk be purchased for the school.

An interesting contest, "Who's Who" was then carried out, Miss MacDougall winning first prize and Mrs. Gordon Houston the booby. The Institute welcomed Miss MacDougall as a new member. A paper on Canadian Literature was read by Miss Martha Brown.

For the next meeting Miss Martha Brown was appointed to give a talk on how our Institute can promote School Fair Work, and Mrs. Warfield Orr a paper on Poultry Raising. Mrs. Orr is well qualified to speak on this subject, as she has achieved great success in the poultry business, and the members are looking forward to receive some profitable hints along this line. Mrs. Blair Andrew will take the musical number at the next meeting, which will be held at the home of Miss Marion Moffatt, the roll call to be answered with "House-cleaning Hints." The Mite Collection for the evening amounted to \$1.40. The meeting closed with singing "God Save the King."

STANLEY BRIDGE SCHOOL

The following is the honor roll of Stanley Bridge School for the month of February:

Grade VIII—1 Hilda Hiscott, 2 Clare Quinn, 3 Urban Walsh.
Grade VII—1 Alban Bolger, 2 Lorne Bulman.

Rheumatic Pains

Cannot be rubbed out—The Trouble Must be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this or that liniment or oil on the affected part, but after all the rubbing the pain remained. Thin blood and rheumatism come together and if they are properly treated will go together. Anaemia means thin blood, and thin blood is something that can be corrected, so why not build up the blood until the rheumatic poisons are driven out?

This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills. Rheumatism in any form shows improvement as the thin blood is built up, and when the poisons in the blood are overcome and driven out rheumatism disappears and does not return so long as the blood is kept rich and red. The great value of Dr. Williams' Pink Pills in the treatment of rheumatism is proved by the case of Mr. Thomas Martin, of Novar, Ont., who says: "For some years I was so badly troubled with rheumatism that I could hardly walk and suffered great pain. I had medical treatment but did not get much relief. Then I decided to try Dr. Williams' Pink Pills and after taking the pills for some time the trouble disappeared and has not since shown the least sign of returning."

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co.,

INDIAN RIVER AND VICINITY—A number of the young people of Indian River were eye witnesses of the hockey match at Kensington on Friday night.—Mr. Bennett Kelly, Summerside, and Mr. Austin McDonald, teacher at Summerside High School, spent the week end, the guests of Mr. and Mrs. John McLellan, Indian River.—Miss Celina Currie, teacher at Indian River, spent the week end at her home in New Shore.—Mr. Alden Carr, Newton, spent the week at the home of Mr. and Mrs. John McLellan.—The final card game of the season was held at the home of Miss Gillis.—Miss Bernice Carr, teacher, Newton, spent the week end the guest of Miss Margaret McLellan, Indian River.

FREDERICK EARL MURPHY

In the midst of life we are in death: This passage was very forcibly interpreted when the death occurred at Chelton, on February 4th, of Frederick Earl Murphy, after a two days illness of meningitis, at the early age of twenty nine years.

Fred was born at Sherbrooke on May 15th, 1900, and was the son of Teresa McCardle and the late Peter Murphy. He received his education at Chelton School, from which he passed the entrance examinations to Prince of Wales College in 1914. Owing to the death of his father Fred was unable to continue his studies, in which he had made such a good beginning.

He undertook farming at the age of fourteen, and was an extensive potato grower and one of the most prosperous farmers of the community.

His appearance, manner and personality made him a pleasing conversationalist with young and old. He was a man of sterling qualities who valued character and reputation above life itself.

The passing, while just in the prime of life, of such an honest, intelligent and promising young man is a great loss not only to his family but to the whole community. He leaves to mourn besides a sorrowing and heartbroken mother, four sisters and one brother, namely: Mrs. J. W. Holmes, Winnipeg, Mrs. John Ryan, Vanguard, Saskatchewan, Miss Estelle Murphy, Vanguard, Saskatchewan, Mr. Austin Murphy, studying Philosophy at St. Dunstan's University and Miss Gladys Murphy, nurse in training at the Royal Victoria Hospi-
