REASON NO 14 WHY YOU SHOULD USE Red Rose Tea

Because it is full weight. You get a full pound of tea inside the package. The lead wrapping is not included in the weight.

It is weighed by automatic electric machines—machines that never make mistakes (clerks sometimes do), and the tea is poured into the packages after being weighed.

Put a pound package of Red Rose Tea on a scale and it will weigh 19 to 20 ounces, according to the thickness of the lead wrapper; or the tea, poured out, will weigh 16 ounces.

Everything about Red Rose Tea is always full measure—weight, quality, purity, and cleanliness—and your satisfaction will be full and complete when you use it.

FOUR HUNDRED MEN ARE OUT

And More Expected to Join the Strike of Carpenters in Montreal.

MONTREAL, June 27.—(Special)—Up till tonight four hundred carpenters have obeyed orders of the union and gone on strike.

It is thought many more will quit work in the morning as the employers refuse to grant an increase in wages.

WINSLOE NORTH.

The school meeting at Winsloe North School was largely attended and a lively interest in school affairs shown. The Secretary's books were audited by C. Carter and Oliver Saunders and showed a small cash surplus on hand. After the paying of the year's expenses, it was decided to have the school renovated and the plot fenced with a good substantial wire fence. Twenty-five dollars supplement was voted. James A. Shaw was re-elected trustee. Owing to the low supplement voted the school is likely to lose the present teacher A. P. Doyle. It seems a pity that sufficient supplement was not voted to insure the remaining of Mr. Doyle in the district, as his teaching in every instance has been satisfactory and his place hard to fill.—Com.

BRILLIANT YOUNG CHARLOTTETONIAN

Drowned at Montreal—Aubrey Blanchard, Eldest Son of Dr. Blanchard, and a Companion Lost their Lives Near that City by Canoe Upsetting.

The sad news was received in the city yesterday of the probable drowning at Montreal on Monday of Aubrey Blanchard, eldest son of Dr. Blanchard, city, which is supposed to have taken place near Heron Island, a summering place, a short distance from Montreal in the St. Lawrence River.

Only few particulars have been received but they are to the effect that Mr. Blanchard in company with two companions had been canoeing and the craft upset. One of the occupants had struck for land leaving the other two on the top of the canoe. He was picked up afterwards on shore in an almost entirely exhausted condition.

Nothing further was seen of Blanchard or his other companion and the boat was found some time afterwards floating upside down.

Mr. Blanchard was employed with the Dominion Bridge Company and had an excellent position. He was a particularly brilliant young man and made a high mark at the Royal Military College, Kingston, from which he graduated some time ago. He was twenty-three years of age.

It was at first thought that he and his

companion might have been picked up by a passing boat but as no word has since been received fears are entertained for the worst.

The following special despatch was received by The Guardian early this morning from Montreal:

It is now practically certain that two employees of the Dominion Bridge Company were drowned above the city on Monday morning. Kingsley Walton, Aubrey A. Blanchard and Charles Bristol, camped out on Sunday on Isle Heron.

On Monday morning when starting to return to the city they found the water so rough that they were unable to keep the canoe afloat.

To lighten it Bristol started to swim ashore and some hours afterwards was picked up on the shore several miles away from where he left the canoe, in a semi-conscious condition.

When he came to, hours later, and was able to talk, search was made for his companions but so far no trace has been discovered and there is not the slightest doubt but that they perished.

Blanchard was the son of Doctor Blanchard of Charlottetown and was a graduate of the Royal Military College at Kingston.
