The concert lasted over an hour and that it was appreciatively enjoyed was plainly evident by the children's smiling countenances of the present. Following the visitors of the orphanage, singing some songs in fine chorus and executing some drills in a finished manner. The thanks of the institution was tendered the League of the Cross boys and girls by one of the little girls. Rev. Father Maurice McDonald, Rector of St. Dunstan's College, Rev. Father Frank McQuaid, Spiritual Director of the League of the Cross and Rev. Father Joseph Gallant, who presided at the Most Blessed Sacrament, which was celebrated by the Chaplain, Rev. A particularly effective feature of the choir composed of children of St. Vincent's, the Christmas Hymns, being sung in really wonderful manner which made a deep impression upon the congregation. The visitors were much taken with the well maintained institution which is presided over by the Order of the Sacred Heart. Sub Survivors Not Doubted

LONDON, Dec. 26.—(Correspondence of the Associated Press)—Commanders of German submarines usually require the captains of merchant ships to give their parole in lieu of making them prisoners, according to the annual report of the London America Trading Company, a large British shipping concern. When men are paroled they do not re-enter the merchant marine during the war. The companies employing them give them half pay until they obtain other employment. "We have several ship captains in our employ who have sunk more than one German submarine and a good many of our ships have had scrapes with their enemy the past year," said the report. "Some have come home with holes in their funnels or sides and others have failed to return. But when a ship has been torpedoed and the crew down the stern have had a hasty retreat an often ask cheerily "When is the next ship to be ready?" That is the spirit of the Merchant Marine.

Cold Storage Plants To Be Co-ordinated

OTTAWA, Dec. 26.—That all cold storage plants in Great Britain will likely be co-ordinated under Government control is the statement made by Mr. Harrison Watson, Canadian Trade Commissioner in London, in a report made to the Dominion Government. This course has been recommended by the Empire Resource Development Commission, which also urges the necessity for the establishment without delay of additional cold storage facilities in Great Britain because the holding of a much greater supply of food than in the past is a recognized necessity for the safety of the nation.

VICTORIA CROSSES FROM CAPTURED GUNS

OTTAWA, Dec. 26.—A bronze gun, captured by the Canadian troops overseas from the Germans, will be used by the British authorities for the manufacture of Victoria Crosses. The gun in question was captured by the 58th Canadian Infantry Battalion and Sir George Perley, in a letter to Gen. Mowburn, Minister of Militia, states that he has agreed to its being turned over to the British authorities. Sir George says that it has been in the past the invariable practice to manufacture Victoria Crosses from bronze guns captured from the enemy. Modern guns, however, are nearly all made of steel, and it is becoming increasingly difficult to obtain the older guns of bronze. Sir George is authorizing the handing over of the captured gun, pointing out the desirability of getting it to be known that Canada, and particularly the 58th Battalion, had provided the trophy. In response to the British War Office wrote a letter expressing the warm thanks of the Government to the Dominion Government for having met its wish in the matter.
