HAPPY MOTHER'S TOUCHING STORY

Of Baby's Dreadful Suffering from Eczema.

CURED BY CUTICURA.

Now His Skin is as White as a Snow Flake.

"A terrible rash broke out on Charlie's poor little face and spread to his neck, chest and back. I had never seen anything like it before," writes Mrs. Helena Rath of 821 10th Ave., N. Y. City. "The skin rose in little lumps, and matter came out. My baby's skin was hot, and how he did suffer. He wouldn't eat, and night after night I walked the floor with him, weak as I was. Often I had to stop because I felt faint and my back throbbled with pain. But the worst pain of all was to see my poor little boy burning with those nasty sores. At last I was persuaded by a friend across the street to try the Cuticura Remedial. She gave me some Cuticura Ointment—I think the box was about half full—and a piece of Cuticura Soap. I followed the directions, bathing Charlie and putting that nice Ointment on the sores. Little by little, but so surely, Charlie and I both got more peace by day and more sleep by night. The sores sort of dried up and went away, and now Charlie is cured completely."

Yes, that fat little boy by the window is Charlie, and his skin is as white as a snow flake, thanks to the Cuticura Remedial. I think everybody should know about the Soap and Ointment, and if it is going to help other mothers with sick babies, go ahead and publish what I have told you."

Cuticura Remedial, Ointment and the form of Chocolate Cuticura Soap, Cuticura Cream and Cuticura Soap are sold throughout the world. Depot: London, 27, Chancery Lane, E. C. 4. Paris, 10, rue de Valenciennes. Toronto, 10, Spadina Ave. Boston, 15, Columbus Ave. Potter Drug & Chemical Corp., Sole Importers.

APRIL 12.—A news agency despatch from St. Petersburg says that the Military Administration recently despatched to the troops on the Yalu River appliances and material, which will enable them to obstruct by fire a Japanese attempt to cross the river. The process is a military secret that has been acquired by the Government from its inventor who is a Colonel of Engineers.

The first test, which cost 40,000 rubles, was carried out years ago during manoeuvres at Tarskoo-Selo, in the presence of the Imperial Family. Sappers threw across a river a pontoon bridge. Then a small oily patch appeared in the middle of the stream close to the bridge. This gradually grew larger and at the end of three minutes it was 200 yards in length. Flames then burst out and soon attained an immense height, constituting a formidable curtain, which completely hid the bridge.

The flames rapidly reached the height of a seven story building, throwing out such intense heat that onlookers near the shore were unable to remain. Even the Emperor and his suite at a distance of half a kilometre, were incommoded by the heat. After working for eight minutes the apparatus was stopped. The flames died out in two minutes and it was then seen that the bridge had been completely destroyed.

The apparatus which was invisible to spectators, was ten kilometres from the river, to which it transmitted a liquid, prepared by a secret process, through tubes buried in the earth.

If the Russians succeed in establishing the apparatus and tubes on the banks of the Yalu, a crossing will be absolutely impossible so long as they are working.

Farmers as a rule lay in their stock of seeds, such as wheat, oats, clover, timothy, etc., early in the season, but the supply of seeds for the vegetable garden is left for "any old time." After the farm crop is in, it is plenty time in the estimation of most farmers for a vegetable garden. Now farmers this order of things should be reversed. As a rule the garden plot is fit for tilling before the rush of farm work commences, and it is not planted before that, it is generally left to take care of itself. To be successful in many lines of vegetables, an early start is of paramount importance—onions, parsnips, beets, carrots, peas, cabbage, lettuce radish, turnips, celery, cauliflower, etc., can be planted as soon as the ground falls to work, and as an inducement for early sales of vegetable seeds, J. J. Gay & Son make the following offer, good to the 1st of May. Persons buying from us in the market or sending by mail \$1.00 may select seeds amounting to \$1.25 and at this rate for as many as they may require. It must be understood that this premium is allowed only on flower and vegetable seeds by the packet and ounce and not on seeds by the pound or quart. All vegetable seeds are 5¢ per packet and by the ounce 10¢ excepting onions 15¢ ounce, cabbage 20¢ an ounce; all flour seeds in 5¢ 5¢ packet. We direct special attention to our sweet pea seed. There is none better, very few as good. 5¢ packet, 10¢ ounce, or ne quarter lb. 30, one lb. 60. —J. J. Gay & Son, Charlottetown, and Market House. 3-22 Tu. Fri. & W 1 mo

Newly Invented Apparatus Capable of Terrible Destruction to be Used to Check Enemy's Advance.

EDITOR'S MAIL. INQUIRY.

Sir,—I notice in your local columns this morning that some members of the City Council have signed a requisition asking the Mayor to call a meeting to consider the repeal of the Provincial Prohibitory Law in this city. This is a bold move on the part of our city fathers and it would be interesting to know who they are. Will you kindly give us their names? Yours &c, CITIZEN.

A vigorous effort is being made in Nova Scotia and Prince Edward Island to secure the extension of the service of the Dominion Express Co. to all passenger trains all over the I. C. R. The board of trade at Halifax on Friday passed a resolution favoring the scheme. Similar resolutions have been passed by the boards of trade of Canoe, Pictou and Summersville, while the Sydney people are strongly in favor of the scheme. As it is now the Canadian Express have a monopoly of the whole territory with the exception that the Dominion Express have one train a day in Halifax. When they received this privilege the rate from Montreal to Halifax dropped fifty cents a hundred. It is understood that if the Dominion get the privilege asked for it would be necessary to open a divisional office here, and in that case E. N. Abbott, the present agent, would probably be appointed superintendent. The company's facilities in Halifax the Halifax Herald and Chronicle are one strongly in favor of the scheme. —St. John Sun.
