

A woman would soon die of boredom if she had to listen to what she says.

It depends upon its success whether it is a wise crack or a bad break.

## Violence And Plunder In U. S. Over Week End

### France Blocked From Proposed Debt Parley By U. S. Government

WASHINGTON, June 18.—(A.P.)—Text of the note the Washington government sent to France Saturday brushing aside that country's appeal for a review of its war debts and reminding the Paris Government of its two unpaid installments totalling \$40,000,000, follows: The Government of the United States acknowledges receipt of the note of the French Government setting forth its attitude concerning the debt obligation due on June 15th to this Government, it notes that the French Government, has failed to meet in whole or in part the installment due on existing debt agreement between the French Government and the Government of the United States. The Government of the United States, in all frankness, call attention to the problems raised by the failure of the French Government to meet the payment due on December 18th, 1932, which have not yet

### Text Of Note Sent To France Declares French Gov. Has Failed to Meet In Whole or Part Debts Due.

### Boys Sought In Amherst

(Canadian Press)  
AMHERST, N. S., June 18.—Two adventurous youngsters who crossed the Northumberland Strait from Prince Edward Island in an open sailboat were sought tonight by Amherst police.

The boys, who are 11 years old, landed at Wallace, N. S., after having navigated 33 miles across the Strait from Summerside, P. E. I.

They immediately beached their 16-foot craft and tramped 10 miles to Pugwash. From there, they left for Amherst. Police of this town were asked to locate the boys that they might be returned home. Their names were not supplied by the police.

### Formal Notes Are Dispatched Nations Paying in Part Have Been Informed of Proposed Parley

By Richard L. Turner, Associated Press Staff Writer.  
WASHINGTON, June 18.—(A.P.)—With France blocked off from consideration, State Department officials today prepared to write before the week is out a tentative schedule of war debt conferences with those nations which have made their payments in whole or in part. The attitude of the Washington Government was described as rigidly requiring at least partial payment first and talk afterward.

Nations paying in part already have been informed of America's willingness to make a new study of their funding agreements in formal notes dispatched over the week-end. In contrast, France was sharply reminded of her two defaulted installments and her plea for revision was ignored.

As a matter of fairness to those countries which have made an effort to pay, President Roosevelt believes that before the French request can be considered, the Paris Government must place itself in the same position as the nations to which he has promised reviews.

### MISSING BOYS TRACED TO BORDEN

Missing from their homes since Wednesday last, Gilbert Moore, 15, and Billie Dowling, 11, have been traced by the Royal Canadian Mounted Police to Borden, and are believed to have secretly crossed the Straits on the Car Ferry on Friday morning. On Thursday evening after the last crossing of the ferry, the two boys were seen at Borden, where they inquired as to when the next boat "leaves for Nova Scotia."

The lads had a bicycle with a small parcel tied to the handle bars. It is presumed that the lads got secretly into a box car taking their bicycle with them and managed to cross to Tormentine unobserved.

The boys are also reported to have visited a farmhouse about ten miles from the City, on the road to Borden. They asked for a drink, and

### Mattern Missing

### SEARCH IS ORGANIZED

NOME, Alaska, June 18.—(A.P.)—Ensign William A. Moffatt, Jr., son of the late Rear Admiral Moffatt, was called to duty today as ships and planes began a search over a wide area for Jhamie Mattern, down somewhere on his trans-Atlantic hop.

Summoned into action when the United States navy ordered all naval vessels and aeroplanes in Alaskan waters to aid the hunt for the round-world flyer, now unreported for four days, Moffatt responded to the call on the old troop ship "Argonne," stationed in the Fribloff Islands.

Three coast guard cutters were also ready to aid the search, wireless reports here said in the belief that Mattern, who took off from Khabarovsk, Siberia, at 2.30 p. m., E. S. T., Wednesday might have come down safely on some of the islands of the Aleutians stretching half way across the Pacific.

### Canadian Medical Asso. Will Convene In St. John

Council Will Open Wednesday—Papers Will Be Read By Eminent British Doctors.

(Canadian Press)  
SAINT JOHN, N. B., June 18.—Saint John will be the medical centre of Canada this week, with members of the Canadian Medical Association and affiliated organizations meeting in annual convention.

Following meetings of the C. M. A. Council tomorrow and Tuesday, the convention will open Wednesday morning with addresses of welcome by Lieutenant-Governor H. H. McLean, Premier L. P. D. Tilley and Mayor J. W. Brittain. The Canadian Public Health Association begins its sessions tomorrow afternoon, and the annual meeting of the New Brunswick Hospital Association will be held in conjunction with these conventions.

Dr. Alexander Primrose, retiring President of the C. M. A. and formerly Dean of the Faculty of Medicine at the University of Toronto, will deliver his valedictory address tomorrow afternoon. Dr. G. A. B. Addy, of Saint John, will then be installed as the new President. Dr. Primrose is a native of Pictou, N.S.

Papers will be read during the week by three eminent doctors from Great Britain; Sir Humphrey Rolleston, of Surrey, England, Physician-in-Ordinary to the King; Dr. Robert Muir, Professor of Pathology at the University of Glasgow, who will deliver the Lister oration; and Dr. Stevenson Lyle Cummins, of Cardiff, Wales, Professor of Tuberculosis at University College, South Wales.

Among C. M. A. members arriving here today were Dr. T. C. Routley, of Toronto, General Secretary, and Dr. A. Grant Fleming, of Mon-

### FOUND GUILTY ON SERIOUS INDICTMENT

Trial of Avarid Jelly at Summerside Results In Verdict of Guilty, With Recommendation For Mercy.

In the Supreme Court, Summerside on Saturday, Avarid Jelly was convicted of unlawfully and indecently committing an indignity to a dead human body by slapping the face of and using abusive language to the corpse of the late Thomas McArthur.

The case opened on Saturday morning before the Chief Justice and a jury. Mr. J. A. McDonald, K. C., and Mr. E. H. Strong, K. C., represented the Crown and Mr. Thane A. Campbell, K. C., the defense.

Mr. Strong opened for the Crown and in the course of his remarks stated the case was a most extraordinary and unusual one for a civilized community such as Prince Edward Island. It has, however, been a source of trouble ever since the human race has existed. All down through the ages people of every race have had to build massive vaults to protect their sacred dead to prevent indignities by their enemies.

Today we do not use the same means as the ancients, as we trust to the high principles and moral standing of a cultured people as

### Police Seek Killers

Slayers Who Mowed Down Three Policemen and a Convict Elude Trailers.

(Canadian Press)  
NEW YORK, June 18.—Violence and plunder, with death in their wake, staged a Roman holiday in the United States over the week-end.

Five slain in Kansas City as sub-machine guns spurted in a murderous and futile attempt to deliver a notorious bandit from police; heavy ransom paid the abductors of William Hamm, Jr., of St. Paul but the victim unreleased; two lives cut short by bullets in New York beer gardens; a Texas co-ed killed in a hold-up directed by another woman—these were among the crimson-lettered crimes.

Kansas City, one-time prowling ground for the Daltons and the James boys, never witnessed a greater affront for authority or disregard for life than that of Saturday when cronies apparently tried to free Frank Nash from officers returning him to prison.

Four police and Nash himself pitched in a heap of death as the "baby" machine guns of a group of desperadoes sought to hew a path to freedom for the notorious train robber and killer.

### Praises Attitude Of Canadians

(Canadian Press)  
MONTREAL, June 18.—"I have only seen Canada in a time of depression." His Excellency the Earl of Bessborough told an audience at the closing exercises of the boy's farm and training school at Shawbridge, Que., yesterday afternoon.

"Having seen the Dominion during this period," the Governor-General continued, "I think I have learned to appreciate Canadians far more than I would have been able to do in a time of general prosperity. There is nothing more encouraging, hopeful, or cheering than the calm steady way Canadians have pursued their daily tasks during this difficult period with a supreme faith in the destiny of their country."

### Heat Wave Moves East

(Canadian Press)  
WINNIPEG, June 18.—Blistering its way out of the Prairies to Eastern Canada, the summer's first major heat wave tonight left four deaths in its wake and a total of 16 points registered centuries or over during the weekend.

Three new victims of the weather were reported from Saskatchewan. Seeking relief from the heat, George Nicholson, 19, at Saskatoon, and Mke Antonuk, 25, at Ituna, Sask., were drowned when they went swimming. A wind of hurricane proportions that lasted only a few minutes tore the roof from the bridge over the Canadian National Railway tracks at Saskatoon and falling timbers killed Lloyd Coburn, 36, North Battleford business man. Mike Kukurow, a worker in the beet fields at Lehigh, Alta., succumbed to the heat.

### Tent Caterpillar Outbreak In New Brunswick

(Canadian Press)  
FREDERICTON, N. B., June 17.—The heaviest outbreak of the forest tent caterpillar in ten years is now reported in New Brunswick. The infestation was stated here today by R. E. Balch, of the forest insect branch, Dominion Plant Pathological service, to be particularly heavy at present in the central section of the Province, notably in the parish of Kingsclear, York County. The insect, which has a huge appetite, defoliates poplar and birch trees, causing heavy damage, and also attacks several other trees.

### ST. CATHERINES, Ont., June 17—(C.P.)—W. Arthur Moore, for the past 19 years city editor of the St. Catherines Standard, is dead here today after a short illness. He was 57 years old.

### AGREEMENT IS EXPECTED IN FEW DAYS

### NEW STABILIZATION PROPOSALS

### Central Banks Have Concluded Technical Arrangements.

(By Claude A. Jagger, Associated Press Staff Writer)

LONDON, June 18.—An agreement for controlled stabilization of principal currencies in less than a week was expected tonight in important World Economic Conference quarters.

The Franco-American rift on this point appeared closing as Fernch experts, who seemed ruffled yesterday over President Roosevelt's disapproval of the first tentative plan, said today that they felt differences could be composed.

Finance Minister Georges Bonnet of France said "negotiations by no means are broken off."

He disclosed that his delegation is drawing up new stabilization proposals. The French were inclined to expect an agreement within three or four days.

Oliver M. W. Sprague, executive assistant to Secretary William Woodin of the United States Treasury, said prospects remained hopeful. Asked if currency control could be made effective in a week's time, he replied it was likely in "less than that."

Governor George Harrison of the New York Federal Reserve Bank slipped away on the steamship Bremen for New York today after a week's talks with Montagu Nor-

### Flyer Killed In Crash

(Canadian Press)  
LONGUEUIL, Que., June 18.—Bernard Martin, Montreal, considered one of the best "dirty" weather pilots in the Dominion was killed early last night when the plane he was testing crashed in a field about two miles from the Fairchild Airport here and burst into flames.

The machine had just been overhauled and fitted with extra gasoline tanks with a view to use in exploration work in Northern Canada. Martin took it aloft to test it out although it had already received a certificate of airworthiness.

The noted aviator took the aeroplane up to a height of 2,000 feet and brought it down safely but after waving his hand to air port attendants as if to indicate every-

### Heredity Plays Important Part Says Report

(Continued on page 7)

WASHINGTON, June 18.—(A.P.)—Heredity is shown in a report of the Carnegie Institution of Washington to be playing an increasingly important part in the health of the human race because young people, it says, are becoming more particular about whom they marry.

"A race more resistant to disease and capable of a more completely adjusted, happier, healthier life" is foreseen in the report, which was issued today, as a result of what it terms trends toward "selective mating" that will tend to "breed out" weaklings with inherited susceptibility to various diseases.
