STOCK QUOTATIONS

MARKET GOSSIP

MARKETWISE, there is little doubt that the action of the utilities is emphatically bullish. Stocks which may be bought moderately at the current level and on any reactions which may develop include, Amn. Waterworks, Amn. Gas and Elec., North American, and Amn. For Power pfd.

Gold shares were irregular yesterday. Dome and McIntyre developed a firmer tone but Wright Hargreaves and a number of lower prices issues developed weakness.

There was little in the action of golds yesterday to alter the likelihood of further weakness before selling has run its course. Pressure against the gold shares is likely to be accentuated by current developments in France. I suggest that over extension be avoided for the present. Lighten-up and on any rallies which may develop is justified.
