**"THE CHOCOLATE SOLDIER"**

The phenomenal popularity of "The Chocolate Soldier" is due to the fact that it is a radical contrast to the musical productions so common on our stage, in which a single song is relied upon to offset a hundred other defects of libretto and score. It is a pure and rare specimen of comic opera, and perfectly balanced combination of dramatic scenes, in which comedy satire and romance art wittily blended, and superb songs, waltzes and marches, each typifying some passing mood of the action and each a genuine bit of melody. Bernard Shaw's spirited romantic satire, "Arms and the Man," is the dramatic source of the opera, to which Oscar Strauss has added the finest product of his musical genius in a score that amazes and amuses critics and playgoers of all degrees. "The Chocolate Soldier" will appear at the Prince Edward Theatre, Monday and Tuesday, July 19th and 20th. Critics, and the strongest of them, have searched in vain for flaws and blemishes in the individual and united work of the members of the Whitney Opera Company. Finish, precision and a dramatic skill that is rare in companies of this kind are the well known merits of Mr. Whitney's organization. The wild grandeur of the Bulgarian Mountains, in whose fastnesses the scene is laid, afford a striking background for the rich costumes, the voluptuousness of the women in that faraway land. All this Mr. Whitney has represented in his production with distinctive grace and elegance. The unusually difficult orchestration of Strauss' Masterpiece is secure in the hands of the special orchestra of picked musicians with which Mr. Whitney has equipped the company.

**ORANGE CELEBRATION**

(Continued from page one)

fence of the weak, an enforced war, year a holy war, for in it they fought for principles that were a sacred compact made and ratified by nations whose honour had been before the world as a great tribunal that judged the righteousness of our cause and at the same time condemned the perfidy and callousness and unfaithfulness of the other party to the contracts. Shall that tribunal, which had power to judge, shall it not also pass sentence, shall the Judge of all the earth who had so fixed divine principles in the hearts and minds of men that they could pass righteous judgments, shall He not also instill into those same hearts and minds the courage to face the enemy of all true progress and for ever place mercy and righteousness on the throne.

It was not in vain that they had come to the Kingdom; their fathers met the existing conditions with the heroism these conditions required, and conquered. Shall we be less loyal to our God and King? Larger opportunity, greater danger, more acute principles were confronting them but they were theirs to meet, or theirs to leave alone and for ever bear the burden of shame and ignominy as vassals of tyrannical Germany, gloating in her treachery and power of steel, gloating in her bestial butchery. Shall they escape that riot of blood? No! their sacred shrines would be in heaps of ruins their loved ones torn from them to become the playthings of the cruelty and revenge of Germans. Oh, let them not shut out the scene of such prospects, and in the name of God whom they love to serve and the King to whom they owe allegiance and their Empire, whose flag was the emblem of freedom and protection for all that was dear to them, gird upon them the sword of defence and meet the tyrants that assumed the very prerogative of God Himself and silence for ever the false ideal that made "might right." Could he survey the promptings of their hearts at that hour he would see in every true Briton the red blood that says "liberty or death." It had been the slogan of all true manhood, and as those desires well up within them and they valued their manhood, let them count it not too dear a sacrifice for the principles they maintain, but gladly and cheerfully put them at the service of the Empire, and exalt the cause of righteousness which the Empire was at that moment in a death struggle attempting to establish. (Applause.)

The Rev. Mr. Orman then intimated the result of the prize competition for the largest number of members represented by an individual Lodge in the province. The first prize went to Boy's Lodge, Charlottetown, a magnificent Union Jack; second St. George's Lodge, three swords; third, Kingston, a bible, and fourth, a Bible.

During the afternoon a long and interesting programme of sports was gone through, the principal results being as follows:—100 yards dash—1, John McNair, Charlottetown; 2, Max Hickey; 3, Perry Tucker, Bedouque. Time, 11 1/4 seconds.

Half-mile Race—1, John McNair; 2, Angus McLeod, Brookfield; 3, John McKinnon, Churchill. Time, 2:27 1/2.

Putting Shot—1, Frank Deacon, Freetown; 2, John McNair; 3, John McKinnon.

Tug-of-War—A team from the Thistle Lodge at Orwell challenged any ten men on the field. The line-up were: Joseph Robertson, William Ross, Duncan McTavish, John R. McMillan, Sinclair McRae, Donald Smith, Robert Cook, John D. Marth, Neil McLeod.

A good afternoon's racing was witnessed on an excellent track.

**THE RACES.**

The races were held under the joint auspices of the C.D.C. and the Orange Lodges in aid of the Orphanage. There were three races, for which there were large entries, and excellent sport resulted.

In the first race, Class A trot and pace, a different horse won each heat. In the first heat Princess Etta took the pole, going to the quarter in 32 1/2 secs. She led to the half in 1.6, a feat probably never equalled before on the Island in a race. To the three-quarters they were going at a very fast clip, the grey mare still leading in 1:40 1/2. Coming to the home stretch Etta broke and was passed by the field, Hilda S. winning the heat, closely pressed by Angus Dillard and Dixie Girl.

The second heat, the horses got away after a few scores, Hilda S. taking the lead, and keeping it until the home stretch, when she was passed by Angus Dillard in a great rush of speed. Time 2:18 1/2.

In the third and last heat Princess Etta took the pole at the first turn and kept it until nearing the stretch, when Angus Dillard, which was trailing hard behind, stepped on her wheel, sending the bike and driver to the ground. Dixie Girl then took the lead and was not headed, although Hilda S. raced her neck and neck to the finish. Time 2:19. This race was one of the fastest ever seen on an Island track, the first heat being within half-a-second of the track record.

Class A trot. Five good horses faced the starter. Queen Alto drew the pole and held it for some time, Admiral going to her and rushing her off her feet. At the three-quarters Branton H. took the lead and he and the bunch rushed home in a great flight of speed. Time 2:37 1/2. In the second heat Picton S. took the lead and was never headed, although Branton H. raced him at his throat to the finish. Time 2:25. In the third and last heat Queen Alto took the pole when the word was given and kept it until going up the second back stretch, when she made a break and the remainder of the horses passing her. Every horse made breaks in this heat, but Branton H. proved the winner, with Queen Alto a close second. Time 2:30.

impartially and there were no complaints from any of the starters. The races were witnessed by a vast crowd which thoroughly enjoyed them. A number of interesting pastimes were provided for the women and children, and an exhibition of Highland dancing given by members of the Nova Scotia band. The best of order prevailed throughout the day and everyone thoroughly enjoyed themselves, the celebration being considered one of the most successful in the history of Orangeism.

**CITY COUNCIL**

(Continued from page one)

windows, doors, etc., be read a third time.

Councillor McNevin moved that the bye-law be referred back to Committee for amendment.

Councillor Wright thought that it might be well for the Council to confer with the merchants with a view to having them attend to the matter themselves instead of having a bye-law on the statute never enforced.

Councillor Ratray thought that the press might take the matter up and urge on the merchants the importance of cleaning their windows, etc.

He did not think it advisable to pass the bye-law at the present stage.

Councillor Miller thought the bye-law was a move in the right direction. He spoke strongly in favour of the bye-law.

The Recorder suggested that the third reading of the bye-law be deferred.

It was decided that the bye-law be read a third time at next regular meeting.

Councillor McNevin moved the first reading of a by-law to amend the building bye-law of 1911. Councillor Miller seconded the motion, which was carried.

Councillor Jenkins, Chairman of the Light Committee, reported that the following work had been performed since last meeting:

First, Altering to pole line on Euston St. for sewer accommodation.

Second, Park roadway lamps put in first class shape.

Third, Two incandescent lights removed and replaced by one arc in the vicinity of Pownall and Richmond Sts.

Fourth, Iron bracket similar to Rochford Square placed in Hillsboro Square.

Fifth, Extended line to accommodate two lights between Pork Factory and Hillsboro Bridge.

Sixth, Lights connected for season on bandstand in Queen Square Gardens.

The Council then adjourned.

**AUSTRIANS TRY TO INVADE ITALY**

(Special to The Guardian)

UDINE, Italy, July 12.—According to reports from the front the Austrians are making desperate efforts to penetrate Italy through the Carnic Alps. They are relying chiefly upon night attacks which so far have invariably failed. The Italians have retorted by redoubling their efforts against all forts protecting the Pusterla Valley, along the River Drave, as with the occupation of Innisichet or Toblach on that river and on the railway line to Trent they could only be resupplied through Innerbruck. After having bombarded Platzwiete and the newly terraced fort Landro, the most important of the system of fortifications closing the great Almagena road leading to Austria, the Italians are now giving their attention to the forts forming the flank protection of that highway. These are all armored and each is divided into two sections, one provided with armored casements for long range cannon and the other with machine guns for near defence. All have steel cupolas.

(Special to The Guardian.)

ROME, via Paris, July 12.—The following official statement from general headquarters was issued to-night:—In Carnia, following our successful offensive begun yesterday on the heights constituting the southern slope of the Torrent of Anzier, the enemy abandoned most of the advanced positions he previously occupied. On Sunday night in Montenero zone the enemy during a thunderstorm attempted a surprise attack on our positions, but this was repulsed.

(Special to The Guardian)

LONDON, July 12.—The Red Cross Society learns that the gases which the Germans are now employing on the Russian front are denser, deadlier, and quicker in their action than heretofore, says Reuter's Petrograd correspondent. Numerous deaths from gases are reported. Respirators are generally unefficacious.

**A Thousand Sticks of Dynamite Exploded At Various Points Of Prince Edward Island**

It seems to be necessary that at least a thousand sticks of dynamite should be exploded at various points in Prince Edward Island in the same manner as is occurring in other parts of Canada before the Fathers, Mothers, Sisters, Wives and the young men of Prince Edward Island will realize that there is a War going on, in which they must take their part.

**Every Citizen Must Back Us Up And Assist in the Work of Recruiting**

That is common sense as well as doing your duty. In Prince Edward Island our efforts have been entirely hap-hazard and we want you to realize that this is not a War to be played with on the hap-hazard principle. Major P. R. Hanson, speaking in Montreal recently. Says conscription will come in Canada. Are you going to wait for it? or, are you coming with the Prince Edward Island Heavy Battery?

**Every Able-Bodied Man Here Will Undoubtedly go to the War before the end**

And going to the War is not pleasant even when conditions are such as they will be in the Heavy Battery (the best possible) but all you men should realize and your own common sense will force you to realize that when you are forced to go nobody is going to care very much about your conditions and you will not have the respect of either yourself or your officers.

**Enlist to-day don't be a Coward 140 Heroes have already Volunteered WHERE ARE YOU ?**

Yes Sir! many men and many officers have already volunteered for the Heavy Battery, Why? because they fully realize that with a full battery of 217 men and officers all from Prince Edward Island they will have someone always to look after them, friends in time of need, they will be trained together, sleep together, eat together, fight together and for each other. One large family to whom the honor of P. E. Island is entrusted.

**The Schools, the Colleges, the Churches of Our Land Must Pour Out Supplies of Soldiers**

They are factories that produce the men, the country needs at this juncture—men of character, conscience, seriousness, stern, set, determined men—men who hate War and fight all the harder because they hate it—men who go to the War not as an adventure but as the most solemn and instant of duties. This is the kind of men the Heavy Battery requires.

**It Takes Six Months To Train A Heavy Battery Thoroughly**

As soon as the required number of heroes are obtained this training will be started in Charlottetown and will be continued there for some months, then it will be finished in Halifax or Valcartier and Petewawa, then the finishing touches will be done in England. This course of training will make every officer every non-commissioned officer and every gunner proficient and expert in his work.

**The Great Question Is Why Is He Not At The Front ?**

Ask it of yourself, why? WHY? You ought to be, the (slacker) will have a hard time in Prince Edward Island and he ought to have a hard time everywhere. Make your decision at once, come in and enlist in the Heavy Battery we are organizing. Apply to the undersigned officers who are going to the front with you and who will not send you into any danger where they will not go themselves ahead of you. It is up to you. God save the King.
