

FATHER KILLS SON BECAUSE HE LOVED HIM

Planned to Die With Boy But Lacked Courage, Is Claim.

BEAVER, Pa., July 14 (AP)—A father, who police say, admits killing his 14-year-old son, because he "loved him so," smiled wanly in his Beaver County jail cell tonight and said he had no remorse.

"So far I'm not sorry," observed J. Stimpington, 50, an unemployed draftsman, who says he is a graduate of Bucknell University. "I think I saved the boy a life of suffering."

His son, Burton, was found dead in the family home today, a victim of an anesthetic, after Stimpington entered the county jail and announced to Warden Hamilton Brown, "I've killed my son. Lock me up."

Officials quote him as saying he planned to die with the boy but lacked the courage to take his own life.

OTTAWA BOY DOWNS QUEBEC TENNIS CHAMP

(Canadian Press)

OTTAWA, July 15—Laird Watt, McGill University tennis player, singles champion of Quebec, was eliminated today from the Eastern Canada tournament by a slight, 23-year-old Ottawa boy, George LeClerc. Steady as a rock and fighting all the way, LeClerc caused a major upset in defeating the tall, bespectacled collegian, 9-7, 6-3.

Marcel Rainville, Canada's number one player, advanced to the semi-finals with an easy win over Bob Murray, another McGill man. Keeping pace with him was J. C. I. Edwards, Ottawa, who eliminated Grant McLean, Toronto singles title-holder and Ross Wilson of Toronto who stroked his way to a 6-4, 6-4, win over Leslie Read of Montreal.

Watt was seeded first in one of the two brackets and it was expected the final round would be a continuation of the match in which the McGill player defeated Rainville for the Quebec title last week, but LeClerc upset that expectation.

In the first set, Watt had a 5-2 lead and twice needed only one point to win it. Each time, LeClerc, ranked sixth in Ontario, took the point and finally the set at 9-7. It was a different story in the second set when LeClerc took a 3-0 lead and never was headed. Watt made it 3-1, then it was 4-1, 5-2, 5-3, then LeClerc ended it, breaking through Watt's service in the final game.

In the semi-finals tomorrow, Rainville will play Wilson and LeClerc will face Edwards with the final Saturday.

and general indications are for a better than average grain crop. In the southern area of Saskatchewan recent rains have improved prospects but a short, patchy crop appeared to be the prospect for that area. The feed situation has improved, much of the wheat is now in short blade and well over 50 per cent in head. The Prince Albert division reports on heavy damaging hail storm in the Hoey district but no other damage noted. Crops are in good condition. Wheat is heading out nicely and coarse grains are making splendid progress. Prospects generally are excellent.

Some fall eye cutting has commenced with the start of the season. Hopper damage varies, harvesting should be very early in this division. The Dauphin division reports a warm weather with heavy showers. Wheat is heading out and coarse grains are commencing to head. A small amount of hail but no serious damage is reported. Excellent hay crop being harvested.

Flashing The News Around The Globe

(Special to the Guardian)

MONCTON, N. B. July 15—If the average newspaper reader could look in on the inside workings of the facilities which enables him to read all about some famous international event almost as quickly as it happens, he would probably give expression to his amazement at the intricate yet smooth workings of the far flung network which reaches out and gathers information from every quarter of the globe and presents it to him in concise form.

This phase of the work of news gathering agencies was spectacularly brought to attention in connection with the landing of General Balbo's fleet of Italian seaplanes at Shediac, New Brunswick, yesterday on their way from Italy to the Chicago World's Fair. Scarcely had the seaplanes appeared as a speck on the horizon when the telegraph keys in the special car which the Canadian National Telegraphs had placed at the disposal of press correspondents gathered in Shediac for the event were clicking out the stories compiled by the press correspondents representing newspapers in Canada, the United States, London, Eng., Italy and other countries and carrying them to their respective publications.

All throughout the landing news flashes were being sent and practically the whole world was made aware of the safe landing of the Italian airmen by the time the last plane had alighted on the water. In all some thirty thousand words were filed with the Canadian National Telegraphs operators, stated D. A. MacNeill, Maritime Superintendent, when interviewed today.

In addition to news stories, congratulatory messages to General Balbo and his daring airmen came pouring in over the wires, from Italy, France, England, Germany, the United States, Canada, from Greenland and other remote places.

This morning before the air fleet had taken off on their flight to their next stopping place on their way to Chicago, Montreal, the wires were again busy carrying news of the latest events to a waiting world and they continued right up until the last seaplane had risen from the surface of the bay and was winging on its epochal journey through the air.

BANK CASHIER SHOTS DOWN CONVICTS

Holdup Men Prove to Be Two of 11 Escaped Kansas Penitentiary Convicts.

PARSONS, Kans., July 15 (A.P.)—Cooly and with deadly marksmanship Isaac McCarty, 35, shot down two bank robbers in the Labette County state bank at Altamont today and saved his wife from being kidnapped or slain.

As one of the holdup men, Kenneth Conn, escaped convict crouched behind a counter using Mrs. McCarty as a shield, the 35-year-old cashier levelled a rifle from a concealed position above the bank vault and shot Conn under the heart, killing him instantly.

A moment before McCarty had fired a charge from a shotgun which brought down Conn's companion, Alvin Payton, with wounds in the head which may prove fatal. Both of the men were among the 11 who escaped from the Kansas Penitentiary Memorial Day by kidnapping the Warden, Kirk Prather.

The robbers had planned to kidnap Mrs. McCarty in making their escape, and Conn threatened to kill her unless the firing ceased after Payton was shot. She was uninjured.

REPORT OF CONVENTION OF F. W. I. C.

The W. I. District Convention of Wheatley River, Oyster Bed, Greenvale, Ebenezer and Riverside Institutes was held in Wheatley River Hall on Thursday, June 8th. In the absence of the President Mrs. Robert Buntain presided. The meeting was opened by repeating the Creed in unison. The address of welcome was given by Mrs. N. Ling, President of Wheatley River W. I., and was responded to by Mrs. Howard Carr, Oyster Bed. The minutes of last year's convention were read, followed by reading of reports of the year's work from the Institutes represented. These reports were very creditable and showed that the different branches were continuing to do good work and living up to their motto, "For Home and Country."

The election of officers was as follows: President, Mrs. Robt. Buntain; Secretary, Mrs. Nelson Stead. A committee of four members was also appointed, Mrs. C. J. Rattray and Mrs. Wm. Ling, Wheatley River, and Mrs. Barbara McPherson and Mrs. Gordon Carr, Oyster Bed. Miss Hazard, the supervisor, then gave a very excellent address in which she dealt with many phases of Institute work, also giving helpful suggestions to make the work more interesting. She then gave a demonstration on school lunches, stressing the value of different articles of food, containing each a different vitamin useful for the upbuilding of the body; also a hot dish being essential as an aid to digestion. A hearty vote of thanks was tendered the Supervisor.

The evening session was largely attended, Mrs. Gordon Carr presiding. The meeting was opened with singing Institute Ode. Dr. Creelman in his genial manner then gave a very instructive address which was listened to with much interest. Lantern slides were used showing X-ray pictures of different stages of lung and chest ailments and other views which were very interesting.

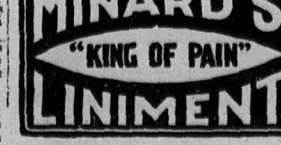

Miss Blanche McRae gave a reading and the Misses Una and Aulaine Smith sang a duet with Miss Dorothy Smith as organist. Meeting closed with the National Anthem.

Major Fred Brewster, Rocky Mountain guide and Doctor O'Hagan were playing an inaugural round. Caddies having not arrived the first day they were carrying their own clubs. On the sixteenth green, Major Brewster laid his mashie on the close-cropped sward while he walked to the far edge of the green to put. This breach of etiquette was too much for Oswald who was chewing at a piece of willow branch nearby. He ambled over and without ado, pulled the mashie off the green and dropped it in the rough.

Animals are a source of entertainment and surprise on this famous golf course. In 1928, Irvin S. Cobb, playing with Bob Davis, drove from the tenth tee, hooked a shot into the trees and struck an interested coyote square on the snout and thereby transformed him into the only pug-nosed coyote in existence.

END PAIN—Soothe SORE HANDS by Rubbing in

A pleasant plan for YOU

Miss Business Girl

To pay you up to \$100 a month after you leave your desk for good— To enable you to provide for any dependents—a mother, an invalid relative—should you die unexpectedly— To give you a substantial return with perfect safety on your savings— To provide a reserve fund for unexpected demands at any time.

If your life plans do not include the above very reasonable provisions for your comfort and safety we invite you to discuss the matter with us right away. Every thoughtful woman knows that she will not be able to work all the days of her life. She knows how unpleasant it would be to be dependent on friends or relatives for support in her later years.

\$100 a month would be a very snug income to be sure of when you wish to retire. Enough to make a woman independent and able to come and go as she pleased.

And even a small sum, saved regularly, will provide generous protection under our Plan.

Doctor Pierces Body to Test Pain Sensations

ST. ANDREWS, Scotland, July 15—How a doctor suffered self-inflicted pain by piercing himself to the bone with a sharp needle was revealed at the James Macsawyer.

kenzie Institute for Clinical Research. This martyr to science, Dr. David Waterston, narrated to the Institute how he decided to make experiments on himself, as it was vitally essential to have training in the analysis of sensations.

His experiments were to discover to what extent pain was felt when different parts of the bodily tissues were irritated from the outside. Dr. Waterston pierced himself with a sharp needle until he reached the bone. He made observations as he reached muscle, veins and arteries, to discover the extent of the pain he felt.

At one point, when he had penetrated an artery in his arm, the pain was so acute and sickening that he almost fainted. Undaunted, he continued his experiments.

Dr. Waterston's conclusions bring a new theory for the solution of the problem which has perplexed mankind since the world was begun. Former theories stated that pain was due to over-stimulation of the nerves which existed for the purpose of sensing touch. Dr. Waterston claims that there is an entirely distinct branch of the nerve system, which exists solely for the purpose of perceiving pain.

PRODUCE

MONTRÉAL, July 16—Despite lighter receipts, prices of eggs, butter and cheese decreased on the Montreal dairy and produce market last week. Old potatoes were slightly higher while new potatoes held unchanged. General decreases in receipts as compared with the previous week were also recorded, the first general decline for some time. During the last few weeks the trend has been toward weekly increases in keeping with the development of production.

The greatest drop in arrivals was shown on the egg market, offerings being only half the quantity of the previous week. Last week receipts were 4,807 cases, as against 9,207 cases as a week ago. Egg prices eased from half a cent to a cent a dozen, ending the week with graded shipments in cartons or less at 19 cents a dozen for extras, 15 cents for firsts and 12 1/2 cents for seconds.

Old potatoes rose 10 to 10 cents per 50 pound bag. New potatoes offered on Prince Edward Island green mountains ended the week at \$1.15 to \$1.25 per bag, after closing a week ago at \$1.10 to \$1.15. New Quebec potatoes continued to be quoted at \$1.60 to \$1.75 per bag. Cheese exports from Montreal last week were announced as 30,319 boxes compared with 29,605 boxes the previous week and 20,645 boxes for the corresponding week of last year. Butter exports were only 37 cases, all to the West Indies and Newfoundland, whereas last year butter exports were 2,005 boxes, the bulk to the United Kingdom. There were no egg exports to the United Kingdom last week.

Miscellaneous

MONTRÉAL, July 16—Wheat, not 2 9/16; Barley, C W 2 5/8; Oats, C W 2 5/8; Oats, C W 3 4/8; Oats, feed 2 4/8; Oats, feed 2 4/8.

CURRENCY

MONTRÉAL, July 16—The pound sterling moved within a narrow range on Montreal foreign exchanges Saturday and closed with a small loss. The United States dollar was slightly higher.

The pound opened at 85.00 1/2 as compared with yesterday's close of 85.01 3/8-1/2. Later it advanced to close at 85.01 1/2, down 3-16 of a cent. The United States dollar was unchanged at the opening but mounted to 4 1/2-16 per cent premium where it finished the day with a gain of 1-16 of one per cent. The French franc held unchanged at 5.16 cents and other currencies were generally lower.
