**SEVENTY-EIGHT IN OCTOBER**—Reaching the mid-summer heat of seventy-eight degrees yesterday, the temperature attained a level for the month of October above that in the memory of most people of today. Fall coats were discarded over the week-end and the streets were crowded with pedestrians in summer garb, enjoying the return of the season just past. A warm southerly wind permitted of little variation in temperature. Beginning early in June with the heat often approaching ninety degrees, it seems as if the 1930 summer season will increase its almost unprecedented length by disregarding the time limit for its usual termination.

**BULLET EXTRACTED**—Mr. Keith Mann, son of Mr. William Mann of Indian River has just had a bullet very successfully and skillfully removed from his side. The lad was accidentally shot in the stomach about a year ago when shooting sparrows with his younger brother. He was taken to the Prince County Hospital where it was found that he had sustained a double puncture of the stomach. His wound was attended to and owing to the fact that he was doing nicely a further search for the bullet was not warranted. It has just become manifest above the left hip and was very skillfully removed as stated above. Mr. Mann is doing very nicely—S.

**Stubborn Coughs Ended by Recipe, Mixed at Home**

Here is the famous old recipe which millions of housewives have found to be the most dependable means of breaking up a stubborn, lingering cough. It takes but a moment to prepare and costs little, but it gives real relief even for those dreaded coughs that follow severe cold epidemics. From any drugist, get 2½ ounces of Pinex, pour it into a 16 oz. bottle and fill the bottle with plain granulated sugar syrup or strained honey. Thus you make 35 ounces of better remedy than you could buy ready-made for three times the cost. It never spoils and tastes so good that even children like it.

Not only does this simple mixture soothe and heal the inflamed throat membranes with surprising ease, but also it is absorbed into the blood, and acts directly upon the bronchial tubes, thus aiding the whole system in throwing off the cough. It loosens the germ-laden phlegm and eases chest soreness in a way that is really astonishing. Pinex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palatable form. Nothing known in medicine is more helpful in cases of distressing coughs, chest colds, and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

**SWIMMING OCT. 12**—Two visitors who are enthusiastic over the climate of P. E. Island are Mr. Ridout of Toronto and Dr. McDonald of Montreal, who thoroughly enjoyed a swim in the harbor on Sunday—a pleasure not often had in October.

**LOBSTER SEASON CLOSED**—The lobster season closed for the fishermen on the South Shore on Saturday, although not officially closed until Wednesday. The catch was up to the average in most places but in the vicinity of Summerside it was not so good. Owing to the poor market in Boston and New York more of the larger lobsters were canned. The price of both canned and live lobsters was low as compared with previous years. But the fishermen are optimistic and are looking forward to a better season next year—S.

**RECEIVES CONGRATULATIONS**—Commenting upon the election of Rev. R. Hensley Savert, Hunter River, as Moderator of the Maritime Synod of the Presbyterian Church, the Halifax Herald says that Mr. Savert is recognized among his clerical brethren as a loyal son of Presbyterianism, and a minister who merits this high office by reason of the finely effective work which has characterized his ministerial career. A splendid tribute was also paid to Mr. Savert by Rev. G. E. Knight in supporting his nomination at the Synod. If the Moderatorship is to be worked for, then Mr. Savert has earned it, he said. "If it is a gift he is worthy of it," Mr. Savert, since his return from Truro, is being congratulated by his many friends on the honor conferred upon him.

On Monday evening the country side in the vicinity of Union Road, was agreeably surprised by the appearance of one of the St. John Flying Club planes, piloted by instructor F. Hertzwick. Mr. Ira Clark, who is a student at the air club, in St. John, chose this method of visiting his people on his first cross country trip. The landing was made in Mr. B. C. Hardy's field, opposite Ira's home. Nearly the whole country-side "turned out" to witness the novel occasion.

Mr. Clark is taking a commercial course. The plane was under his control most of the trip. The distance was covered in 2 hours, 5 minutes. The Island, they said, looked particularly beautiful, while many forest fires were sighted while flying above the mainland. They intend, weather permitting, to return Tuesday afternoon. Mr. Clark anticipates visiting his home many times in this manner. His many friends will join us in congratulating him on his splendid progress. G.

The potato market locally continues dull with no sale for the commodity at present. Foreign markets are also dull, as hot weather and heavy shipments are not conducive to good sales. An analysis of the increase in potato estimates in United States for the month of September over that of August, according to information received by J. W. Boulter, secretary of the Potato Growers Ass'n, shows that the increase is made principally in Maine, Pennsylvania, Ohio and North Dakota, while there is a decrease in Wisconsin and some of the Western States. Figures received from the different states indicate that, in the states shipping the commodity there are between 12,000,000 and 14,000,000 bushels less than at this date in 1929. At least 7,000 more cars have been shipped to date than in 1929 during the same period. It is expected that the first movement in seed potatoes in the province will begin about Oct. 20.

Miss Perry was a very clever pupil and had obtained her license to teach at an early age. She had taught school at Ement Bay before ill health had forced her to give up. **CLAN MACLEOD**—Among those who attended the Baptist District meeting at Dundas on Monday and Tuesday last week was Mr. Benjamin MacLeod, of Tryon, brother of Mr. William MacLeod (Deacon William) of Bridgetown, at whose home he was entertained during the meeting. Mr. MacLeod travelled by automobile with Rev. M. O. Brinton. During the journey he recalled incidents of sixty and seventy years ago as he passed through the familiar scenes of his youth in King's County. At the district meeting it was a pleasing sight to see those two brothers, physical giants, intellectual giants, yes, and spiritual giants, one over eighty years of age, the other over ninety, and to hear them speak of the things that lay nearest to their hearts. The MacLeods are nephews of Rev. Samuel MacLeod, a Baptist Minister, who came out from Scotland when Prince Edward Island was young, one who was a power for righteousness and whose genuine goodness was so generally recognized that a school boy on being asked where he would like to be on the Day of Judgment replied, "Inside Rev. Samuel MacLeod." The MacLeods of the present day are walking in the old paths and may Prince Edward Island never lack MacLeods like Deacon William and his brother Benjamin.
