All-Out Search Begins For Missing R.C.A.F. Plane With 20 Aboard

WINNIPEG, Aug. 22 —(CP) — The R.C.A.F. geared its Search and Rescue arm to full pitch tonight in search of one of its aircraft missing on a far northern flight from Churchill, Man., with 20 persons aboard.

The twin-engined amphibious Canso was last reported Sunday night, two hours out of Churchill on the 600-mile return flight to Winnipeg. It is believed down in the timber-studded bushlands of Northern Manitoba.

Three search flights today failed to find any sign of the missing craft. R.C.A.F. officials reported low clouds and rain made it almost impossible to make an adequate check.

The Canso took off from Winnipeg's Stevenson Field last Monday on a northern swing that included a stop inside the Arctic Circle. Its original mission was to replace outpost Weather Bureau personell due for a home furlough from Baffin Island nearly 200 miles inside the Arctic Circle.

On the outward trip it picked up seven hospital-bound Eskimos and an attendant nurse at Chesterfield Inlet, 400 miles north of Churchill.

The 20 persons were listed as seven crew members, seven hospital-bound Eskimos, a Canadian Press reporter, four Meteorological Department men, and a woman physiotherapist.

Among Those Aboard

Names of all those aboard have not been released but among those identified were.

Flt. Lieut. Frank Rush, pilot;

Miss Constance Beattie, 24, of Brockville, and Toronto, a physiotherapist with the Indian Affairs Department;

Jack Aveson, 31, Canadian Press staff writer from Winnipeg who joined the flight to gain first-hand knowledge of the Arctic Areas.

A. B. Neill of Glencoe, Ont., a Transport Department radio operator.

Five of the Eskimos aboard were reported to be stretcher cases. They come from an area which was swept last winter by poliomyelitis.

The plane believed about 200 miles out of Churchill toward Winnipeg was last heard from about 8 p.m. MDT (10 p.m. ADT) last night.

As part of the over-all search plan, the Air Force prepared a parachute rescue team. An official said 14 planes are available immediately to press into the search. Additional planes will be employed as the need arises.

Air Force officials said the search now is concentrated on the Oxford House area about 300 miles north of Winnipeg. The Canso carries fuel sufficient for 10 hours flight although the Churchill- Winnipeg run is completed normally in 4 1-2 hours.

DIES AT 101

HALIFAX, Aug. 22 —(CP)— Funeral services were held today for Mrs. Ellen C. Fulton, oldest resident of Halifax who died Saturday at the age of 101. She was a native of Economy, N.S.

Coming Events

**Harrington Tea, August 24th, 5 o'clock.

**Chicken Supper, Forest Hill Hall, Wednesday, August 24th.

**Legion Dance, Belfast Hall, Wednesday, August 24th.

**Mail your Films to Garnhum Photo Studio, Charlottetown.

**Dance, St Teresa's, Wednesday, August 24th. Webster's Orchestra.

**Dance, Tracadie Hall, Monday, August 29th McKenzie's Orchestra.

**Show Morell every Tuesday, Friday and Saturday. Show starts 8:30 P.M.

**Annual chicken supper Harrington Hall, August 24th, at 5 o'clock.

**Dance, Corran Ban Hall, Wednesday, August 24th. Melody Boys Orchestra.

**Ice Cream Social and Dance, Long River Hall, August 24th. Proceeds for school.

**Come to St. Andrews Church supper Wednesday, August 24th, 5 to 10 p.m.

**Chicken Supper, St. Charles Hall, Wednesday, August 24th. Dance after.

**Regular Dance at the "Sea Breeze", Victoria, each Wednesday. Dancing 9 till 1.

**Baseball and Open Air Dance, at Tracadie Cross, Tuesday, August 23rd. Good music.

**Ice Cream and Cake at New London School, Tuesday, August 23rd. In aid of Institute.

**Cake Sale at Rogers Hardware Friday, August 26th, at 2 o'clock, by Brackley Women's Institute.

**Dance every Friday night at the Gordon Lodge. Good music. Dancing from 9 till 1.

**Dance, Morell Rear School, August 25th. Good music. Hot Dogs, Ice Cream, Refreshments.

**Come to the Lawn Party at Brookvale School, Thursday night, August 25th. MacNeill's Orchestra.

**Old time Dancing at the Bright Spot tonight. Dancing from 9 to 1 o'clock. Admission 35 cents. Canteen service.

**Don't miss the open air dance at Hunter River Rink every Tuesday night. Dancing from 9 till 12.30. Canteen service.

**"Outlaws of Boulder Pass, featuring George Houston as "The Lone, Rider" at Bradalbane tonight at 9 o'clock. Dance after.

**Regular dance, East Royalty Rink Hall, Tuesday, August 23rd. Music by Eastern Rhythm Boys. Bus leaving I.M.T. at 9.15 and 10.

**See Gregory Peck and Joan Bennett in The Marcombe Affair at MacDonald Bros. Theatre, Mt. Stewart, tonight. Show time 8.30.

**Annual Legion Field Day, Morell, August 24th. Chicken Supper, Bowling Alley, Canteen Service, Amusements, Dance. Rollie McKenzie Orchestra. Supper starting at 5.30 P. M.

**Wm. Martin Fund entertainment and Dance in C. M. B. A. Hall, Vernon River, 8.30 Thursday, August 25th. 17th R.E.C.C.E. Band in attendance Rev. T. E. MacLennan, guest speaker. Reserve seats for sale at local stores. Admission 50c. Auspices Vernon Branch Canadian Legion.

**Buying pigs, all kinds and sizes, and poultry, Monday at Fredericton. Buying young pigs Tuesday 9 a.m. at Brookfield; 10, Milton; 1 p.m., York; 2, Bedford; 3, Mount Stewart; 4, Watervale; 5, Vernon River; 5.30, Pownal. Wednesday, 9 a.m., New Glasgow; 10; Wheatley River; 11, Holmes' Corner; 1 p.m., New Haven; 2, Bonshaw; 3, Kelly's Cross; 4, Emerald; 5, Clifton; 5.30, Kensington. Paying $24.00 per pair for good pigs over 30 lbs. each. Will also buy smaller ones, Knud Jorgensen.

Discusses British Market For P. E. I. Farm Produce

"British markets for Prince Edward Island is a question of the dollar and the question of the dollar is simply what we can sell here from Britain," stated Mr. A. N. Duckham, agricultural advisor to the United Kingdom High Commissioner at Ottawa and Agricultural Attache to the British Embassy at Washington, in an interview with The Guardian last evening.

"Every British car bought on the Island, every piece of farm machinery manufactured in the United Kingdom that finds its way here, will make dollars available in Britain to buy Prince Edward Island farm products," he continued. "Among the products we have available for your use are cars, farm machinery, fungacides, insecticides, pesticides, woollens and men's suitings."

On his first visit to the Island, Mr. Duckham was impressed with the seed potato industry's methods, control of disease and high yields. He said that Island potatoes certainly live up to the high

Danger Of War Seen In Soviet-Yugoslav Fight

British Sources Concerned But Think Little Danger Of Shooting War.

By ALEX H. SINGLETON

BELGRADE, Yugoslavia, Aug. 22 (CP) — The hardboiled struggle between Yugoslavia and Russia appeared today to be reaching beyond the name calling stage to a threat of war.

Coming to the fore is the dynamite-laden question: what would Britain and the United States do if Joseph Stalin sent the Soviet army to overthrow Yugoslavia's independent Communist, Marshal Tito.

No one knows for sure—outside the Kremlin — what is coming next. But the effort which began 14 months ago to unseat Tito when the Cominform read him out of the party developed long ago into frequent shootings along the satellite borders.

The situation has the diplomatic corps here wondering and worrying.

As an example of the jitters one embassy thought it had a sound inside tip on an "invasion" date recently and hustled its staff off to Northern Yugoslavia.

Other diplomatic missions are studying a flood of rumors—most of them from unresponsible sources — about troop movements beyond the Yugoslav borders.

Such rumors are not unusual in the Balkans. But they are not set at rest by the threat voiced in a note from Moscow Saturday night to take "more effective measures" against Tito for protection of Soviet citizens who allegedly are being mistreated here.

British View

(British newspapers Monday said the Russian note sounded like the worst threat of war since 1939.

(British officials in London said they believed the Russian threat was only part of a war of nerves, however, and ruled out the likelihood of a shooting war.

(The Conservative Daily Telegraph said the threat was "the very language of Hitler's exhausted patience". The Conservative Daily Mail also recalled Hitler's words, "My patience is exhausted, I must march to restore order" and commented that the Russian threats "fall upon our ears like a sinister echo across a decade."

(In Bucharest, Mrs. Anna Pauker, Romanian Foreign Minister, wrote in a newspaper article that "the time is not far off when this gang (the Tito Government) will have to give an account for its crimes to the people of Yugoslavia.")

Hurricane Alert In Bahamas

MIAMI, Fla., Aug. 22 —(AP) —A small but growing hurricane with winds up to 100 miles an hour was within 440 miles of the Florida coast tonight.

The first tropical storm of the season has caused an alert to be sounded for the Northeastern Bahamas.

At 6 p.m. EDT, the storm was centred about 440 miles east of Miami. It was travelling between 15 to 17 miles an hour on a west-northwest course.

Military planes riding in the centre of the doughnut-shaped eye of the storm reported that violent rains and extreme turbulence was found on all sides, "indicating that the storm probably will continue to grow both in size and intensity."

U. M. W. Says Present Coal Obsolete Product

SYDNEY, N.S., Aug. 22 — (CP) — The coal industry is headed for permanent decline unless it switches to an oil-from-coal industry, the Dominion Coal Board was told today.

In an 8,000-word brief the United Mine Workers (C.C.L.) district 26 said the coal industry now is showing signs of decline because of the tremendous growth in the use of oil by industry, railways and residential consumers. The board is holding Maritime sittings to hear various views on the industry.

The U.M.W. maintained that "coal in its present form, burned as it is, is an obsolete product." It levelled criticism at the industry for what it termed "price competition" as the means to meet competition from oil.

The brief said the industry was trying to sell coal by keeping it cheaper than oil. This had resulted in the coal miner "subsidizing" the industry.

Development of more efficient and more convenient ways of burning coal and conversion of coal into oil were the two basic problems to be faced, the union said.

First step should be construction in Cape Breton by the Federal Government of a demonstration or pilot plant for experimentation. The Union estimated it would cost about $7,000,000 annually to build a plant and operate it.

It presented figures to show that in 1947 the Maritimes consumed oil equivalent to 1,000,000 tons of coal — about one third of present Nova Scotia production — and that since 1943 oil consumption in the Maritimes had increased by the equivalent of 350,000 tons of coal. During the same period coal consumption declined 600,000 tons.

The brief contended that the major, long-run problem no longer was finding markets in Central Canada because both the Mari-

Sir Harry Lauder Reported Critically Ill

STRATHAVEN, Scotland, Aug. 22—(AP)—Sir Harry Lauder, the famed Scottish comedian, was reported critically ill today at his home near Strathaven.

Sir Harry celebrated his 79th birthday Aug. 4.

The little, bandy-legged Scotsman who entertained millions all over the world has been in poor health for some time. Doctors said he had grown weaker during the last month and took a turn for the worse during the week-end.

At the end of last year, Sir Harry cancelled plans for a visit to the United States because of his health.

His niece and companion, Miss Greta Lauder, is maintaining a constant bedside vigil, friends said.

Communist Strike Front In Finland Shows Signs of Break

HELSINKI, Aug. 22 —(AP) — The Communist strike front showed new cracks today.

A walkout of transport workers, called for today, made little impression on the country.

The Shoe, Leather and Rubber Union notified the Trade Union Federation and employees that their strike, scheduled to begin Tuesday, had been postponed.

These were the sixth and seventh walkouts called in a strike offensive which the government has charged was intended to set the stage for a Communist coup in Finland.

This was the day that strikers were to have numbered 100,000, according to Communist calculation. But employees estimated the idle had dwindled to 27,000 from a peak of 45,000.

Smallwood Catches Season's Best Trout

ST. JOHN'S, Nfld., Aug. 22—(CP)—Premier Joseph Smallwood returned to St. John's tonight after a tour of Labrador mining developments.

He set a mark far removed from mining and politics by landing a 4 1-2 pound trout, largest reported so far in Newfoundland this season.

Shift In Wind Aids Firefighters In Tough Battle

TERREBONNE HEIGHTS, Que., Aug. 23—(Tuesday)—(CP)— Army and civilian firefighters won a last-ditch touch-and-go battle against a racing, five-miles-wide forest fire early today and saved the Laurentian foothills villages of Terrebonne Heights and Pincourt from threatened destruction.

"Pincourt and Terrebonne Heights have been saved, at least for now," said Col. E.D. Elwood, commanding the Ordnance Corps soldiers, who were rushed in to fight the fire from Montreal.

He attributed the firefighters' success largely to a shift in the wind prior to midnight.

Driven before a blistering northeast wind, the crackling fire has already consumed more than a dozen summer cottages in the south of this town.

The fire was sweeping along a three mile front, travelling in a southeast direction. But fire can be seen ringing the whole village.

Heavy, yellow smoke has blanketed the area and caused fire fighters to work under considerable handicap.

The army fire fighters were estimated at about 400 but no figures could be given for the number of civilians assisting.

It was roughly estimated by the army that nearly 150 square miles of bush land had been burned out in the Laurentian foothill area.

Four Reported Missing

As evening came down there was no elaboration on an army report earlier that four people were miss-

(Continued on Page 7 Col. 3)

Annual Convention Of Catholic Women's League

The 27th annual convention of the Catholic Women's League of Charlottetown Diocese opened Monday afternoon when Benediction of the Blessed Sacrament was given by Rev. J. W. McCardle in St. Dunstan's Basilica at 4 p.m.

At 6.30 p.m. the convention banquet was held at the Charlottetown Hotel and was attended by a large number of delegates and visitors. The guest of honor was the national president of the Catholic Women's League, Mrs. T. E. Durocher of Windsor, Ont. Mrs. James Blake, hostess president of the Charlottetown sub-division presided and extended greetings.

The toast to the King was proposed by His Honor Lieut. Governor J. A. Bernard who paid high tribute to the work of the Catholic Women's League.

Civic greetings were graciously extended by His Worship Mayor B. Earle MacDonald. He congratulated the national president, Mrs. Durocher, on her election to this high office and presented her with the keys of the city and offered the delegates the freedom of the city.

A toast to "Our Guests" was proposed by Rev. J. W. McCardle, who paid a high tribute to Mrs. Durocher's work in the Diocese of Windsor, Ont., and the various offices held by her in the national organization. He extended to her and the delegates a hearty welcome and expressed best wishes for the success of the convention.

National President's Address

Mrs. T. E. Durocher, national president of the Catholic Women's League responded and said her visit to P. E. Island was a dream come true. She referred to the new constitution of the Catholic Women's League and asked the members to bring with them to our organization the gifts of humility, faith and zeal. She repeated a blessing received by her for the Catholic Women's League from the Apostolic Delegate of Canada.

The guest speaker, Sir W. J. P. MacMillan, K.C.S.G., O.B.E., as

Says Huge Oil Reserves In West

LAKE SUCCESS, N.Y., Aug. 22—(CP) — An American scientist said today oil deposits in Northern Alberta may prove at least several times greater than present world estimates of petroleum reserves.

A.I. Levorsen, dean of the School of Mineralogy at Stamford University, Palo Alto, Calif., said there may be other comparable deposits hidden under the Dominion's western plains.

He spoke before some 450 experts from 45 countries at the United Nations scientific conference on conservation and utilization of resources.

Daughter Born To Lady Tweedsmuir

BRAEMAR, Scotland, Aug. 22—(CP)—Lady Tweedsmuir, 34-year-old Conservative member of Parliament, today gave birth to a daughter at her Braemar Castle home.

Lady Tweedsmuir, regarded as one of the handsomest women in the Commons, was married in July, 1948, to Lord Tweedsmuir of Elsfield, 38, son of the late author and statesman who was Governor-General of Canada from 1935 to 1940.

Lord Tweedsmuir, who sits on the Conservative bench in the House of Lords, served as a Canadian army infantry officer during the Second World War.

Lady Tweedsmuir has two other daughters, aged 12 and 14, by a previous marriage.

AMETHYST GOING TO U. K.

LONDON, Aug. 22—(Reuters)—The Admiralty announced today that the 1,490-ton sloop Amethyst, which made a dramatic escape from the Yangtze River July 30, is expected to reach Britain Nov. 1. She will sail from Hong Kong Sept. 9.

"Lonely Hearts" Killers To Die

NEW YORK, Aug. 22—(AP)—Two convicted "Lonely Hearts" killers stood mute today as they were condemned to die in Sing Sing prison's electric chair during the week beginning Oct. 10.

Mrs. Martha Beck 29, and Raymond Frenandez, 34, were calm as Justice Ferdinand Pecora read the sentence.

Sing Sing custom provides for executions before midnight on Thursday of the week designated.

Three killings were charged against the defendants, two in Michigan, where they were arrested, and one in Valley Stream, N. Y., for which they were tried here.

Little Damage From Canada's Biggest Quake

VANCOUVER, Aug. 22 — (CP)— Little damage and no deaths resulted from the biggest earthquake Canada has ever recorded.

Seismographs thousands of miles away popped early today while their keepers pronounced the shock and consequent waves as larger than the recent Ecuador quake that claimed thousands of lives or the one that levelled San Francisco in 1906.

While chimneys tumbled and furniture shifted, west coast residents could thank their stars that several hundred miles of sea lay between them and the epicentre of the disturbance.

Brunt of the waves was borne by the Queen Charlotte Islands 500 miles upcoast and west of the mainland port of Prince Rupert. There, trees tumbled in spots and some earth fissures appeared.

However, waves struck out fanwise as far north as Petersberg, Alaska, and as far south as Portland, Ore.

A two-foot tidal wave washed the shore around Prince Rupert but no further after-effects were noted following the final aftershocks this morning about 7 A.M., PDT.

The quake started about 9 p.m. reports from Terrace, B.C., said, and this was corroborated by readings taken at Victoria and elsewhere. The disturbances continued for some four to six hours before dropping off to culmination in the after-shocks.

Taller buildings swayed slightly in the large southern-situated cities of Vancouver, Seattle and Portland but that was about all.

In Victoria, the Dominion Astrophysical Observatory said the earthquake was one of the strongest recorded here, and probably centred about 650 miles from Victoria in a westerly direction.

New Docks At Sydney Will Cost $2,900,000

OTTAWA, Aug. 22 —(CP) — New docks and terminal facilities to be built at Sydney, N.S., will cost an estimated $2,900,000, official sources said today.

The work is being undertaken by the Public Works Department and the Canadian National Railways, and O.J. McCullough, Montreal consulting engineer, has been appointed by the Works Department to undertake the design of the new facilities.

Cabinet approval for the work was given last March when it was seen that the entry of Newfoundland into union with the Dominion would mean more traffic at the Cape Breton Island port. Now an order-in-council has been issued launching the project.

VEHICLES ENTERING CANADA

OTTAWA, Aug. 22—(CP)—The Bureau of Statistics today reported the number of foreign vehicles entering Canada on traveller's vehicle permits—excluding points of entry into Newfoundland—in July was 453,200 as compared with 407,900 in July, 1948.

Coast Guard Cutter Saves U.S. Trawler From Sinking

HALIFAX, Aug. 22—(CP)—The United States Coast Guard cutter Casco reported tonight she had pumped dry the American trawler Magellan and was towing her to Gloucester, Mass.

Earlier reports said the Gloucester, Mass., fishing craft had sank after the cutter took off her six-man crew.

The crew abandoned ship as water overcame the pumps. The men took to the dories and were picked up shortly after by the Casco. The cutter said she expected to reach port tomorrow afternoon.

The Magellan's near sinking capped a long week-end of trouble along the Atlantic seaboard that came in the wake of a gale that struck Friday.

The tiny fishing vessel Miss Quoddy III, missing since Aug. 12 out of Ship Harbor, N. S., put in safely late today at Sheet Harbor on Nova Scotia's eastern shore. She carried a crew of two. An R.C.A.F. Lancaster had barely got off the ground to start a sweep of the area when it was recalled.

Two other U. S. Coast Guard cutters were busy. The Snohomish went to the assistance of the trawler Pauline Bolland off Maine after towing the fishing vessel Rhode Island into Rockhead, Me.

The Unimak ended a 22-hour towing job about 200 miles off Halifax and handed the crippled Baltic refugee ship Amanda over to the R.C.M.P. cutter French.

The Amanda, carrying 31 refugees from Communism, was expected here sometime tomorrow in tow of the French. The Unimak, which picked up the Amanda late Saturday, asked to be relieved of her towing job and the French, on regular patrol off Sydney, N. S. answered the call. It was believed the Unimak was running low on fuel and provisions.

New Communist Party Lines Up With Tito Gov't

By Carter L. Davidson

BERLIN, Aug. 22 —(AP) — A German Communist faction formed a new party today and quickly leagued itself with Yugoslavia's Premier Tito "to fight the imperialist Bolshevism" of Russia.

Its leaders said they already are collecting guns to resist arrest by Russian forces in Eastern Germany if necessary.

The chief spokesman and co-leader, 41-year-old Karl-Heinz Scholz, claimed his free Communist Party (F.K.P.) has a growing membership now counted at 4,000 in the Soviet sector of Berlin and 600 in the western sectors.

Scholz said a well-organized underground operation is spying on the Russians and smuggling weapons for the party.

Scholz, a wartime anti-Nazi underground fighter who had been imprisoned four years in the 1930s, lives in the French sector behind steel doors and barred windows which make a fortress of his third-floor flat.

Soviet-sector authorities have outlawed him and put a price of 10,000 each marks (about $700) on his head.

The other leader elected at the F.K.P.'s organization meeting is Paul Szymanski, a head man in the Socialist Unity (S.E.D.) Party formed in 1946 by a Soviet-dictated merger of Communists and Socialists.

They said the F.K.P. is laid out on the pattern of the original German Communist Party of the early 1920s. It began publishing today a semi-weekly newspaper, Die Rote Rahne (The Red Flag), using the name of the Communist organ circulated in the days of the Weimar Republic.

F.K.P. joined Tito's bitter feud with the Kremlin by sending a telegram to Belgrade carrying assurances of sympathy and support.

The Kremlin considers both ideological heretics; both proclaim devotion to Communism and independence from Moscow dictatorship.

"We are Communists, always have been Communists and always will be Communists," Scholz said in proclaiming the new party.

Western-zone authorities, however, have refused to license he F.K.P. as a political party. The Socialist Unity Party calls it an outlaw organization.

Report 230 Dead In Forest Fire In France

BORDEAUX, France, Aug. 22 — (Reuters) — Tired, smoke-blackened firefighters and troops battling France's greatest forest blaze today found more charred bodies in the smouldering ashes of trees and undergrowth, bringing the death toll in the Landes region to an estimated 230.

Refugees from flame-swept villages around Bordeaux told of the fire rushing forward "with the speed of a galloping horse, leaving behind a desert of ashes."

Others saw resinous trees blaze up like torches.

Pierre Combre, prefect of Girronde Department, who set the death toll at 230, said many of the dead were fire-fighters trapped by the flames as they worked.

Indo-Chinese troops from a nearby garrison found 30 bodies in the scorched brush. Some 10,000 soldiers are helping stamp out the main blaze, which began in a log cabin accidentally fired by two sawmill workers.

The fire was being put under control in most areas tonight, but in the Bressac region the flames spread and priority forces were switched there this afternoon to meet a threat on Callon.

A fire at Saucats was said to be getting worse.

Police announced they had arrested nine youths on arson charges. Two 14-year-old boys and a 16-year-old girl were arrested in the Landes department. Police caught two brothers lighting a fire "for fun" in the Bois de Boulogne in Paris and extinguished the blaze without damage.

Fires continued to break out in other parts of France. About 250 acres of forest were burned yesterday near Poitiers, 100 acres near Limoges and more than 700 acres in the central department of Correze.

Careless campers set fire to the entire forest covering the Causse Mejan, a mountain overlooking the Tarn River in Southern France. Three fires broke out within 24 hours near Orleans. Five fires were started near Nantes by the sparks of a Paris-bound train.

TORONTO, Aug. 22 — (CP) — Minimum and maximum temperatures: Vancouver 55, 70; Edmonton 54, 74; Regina 54, 87; Winnipeg 60, 81; Toronto 56, 83; Ottawa 51, 87; Montreal 63, 83; Quebec 56, 86; Saint John 54, 76; Moncton 47, 85; Halifax 56, 80; Charlottetown 54, 79; Sydney 49, 80; Yarmouth 56, 71; St. John's 48, 71.

HALIFAX, Aug. 22—(CP)—Official inland forecasts issued by the Dominion Public Weather Office in Halifax and valid until midnight Thursday.

Synopsis: It is clear in Nova Scotia, Prince Edward Island and Southern New Brunswick tonight. North of this the regions are cloudy, with widely scattered showers reported north of the Gulf of St. Lawrence. This band of cloud and showers will move slowly southeastward into the Maritime Provinces on Tuesday.

With increasing cloud in most regions, temperatures are not likely to climb to the warm levels they were on Monday afternoon, but should reach the high seventies in the southern regions.

Regional forecasts:

Prince Edward Island: Clear becoming cloudy in the morning. Widely scattered showers Tuesday. Not quite so warm on Tuesday. Light winds becoming west 15 during the daytime. Low early Tuesday morning and high in the afternoon at Charlottetown 56 and 74.

High tide today at 9.12 A. M. and 10.57 P. M.

Sun rises this morning at 5.23 and sets at 7.07.

Summerside tide eighteen minutes later than Charlottetown.
