...*NEW OPTICAL PARLORS.—Mr. H. J. Mahon has opened up new optical parlors at his drug store.—*

...*PAINTING HOUSE.—Messrs. Joseph and Lawrence Paquet have accepted the contract of painting the residence of Dr. A. A. McDonald.—*

...*PRODUCE SCARCE.—Produce in the country is very scarce, especially hay and oats. However, butter and eggs are rather plentiful.—*

...*SUBSCRIBERS should renew a week or two before the time they have paid for has expired and thus not miss an issue, as all papers are discontinued promptly on expiry date.

...*A BEAR.—It is reported that a bear was seen in the Norris Pond woods last Sunday evening. One young gentleman stated positively that he saw the animal. Some state that it is only the tame bear owned by a Mr. McDonald.—*

...*SUCCESSFUL FESTIVAL.— The ice cream festival in aid of the Baptist Church which was held at Georgetown on Thursday was a decided success. Although the evening was cold the festival was very well attended, and the ice cream was delicious. The financial results were also gratifying. —G.

...*ENJOYABLE PICNIC.—The annual picnic of St. George's Lodge, R. O. G. T., was held to-day at St. Andrew's Point. The day was ideal and the trip to the Point by motor boat was immensely enjoyed. The time was pleasantly passed with croquet, baseball and other games until a sumptuous supper was served; and all returned to Georgetown after having had a delightful outing.—G.

WEEKLY REVIEW OF FINANCIAL SITUATION

(F. B. McCurdy & Co's. Weekly Review of the Financial Situation.)

MONTREAL MARKET

The chief visible influence in the market this week was the anxiety which prevailed in all European capitals regarding the possibility of a fresh outbreak in the Balkans. During the greater part of the week it was feared that Austria might take action to avenge the murder of the Archduke Francis Ferdinand, heir to the Austrian Throne. The climax was reached on Friday when it was announced that the Austrian Government had sent a note to Servia demanding punishment of all Servians concerned in the assassination plot.

CANADIAN PACIFIC.

The week's developments in Canada were not important and the market was governed almost entirely from Europe. Canadian Pacific, which sold at 186, at the beginning of the week, strengthened to 186½ on Tuesday but after that steadily weakened touching 180¼ on Friday being the lowest price since 1910. Canadian Pacific is the first Canadian issue affected by the unrest in Europe and both Berlin and Vienna were sellers of the stock this week. Reports from the West regarding the crop continue to be conflicting but all the railways have issued encouraging statements and it is hoped that the wheat crop will be well up to last year.

BRAZILIAN.

The market for Brazilian is at the present time dependent upon the negotiations for the Brazilian Government Loan which are now proceeding in London. Towards the end of last week it was announced that the loan had been arranged, but a denial of the report was issued in London on Saturday. Following this statement, Brazilian Traction steadily weakened to 70¾ on Friday morning. Many brokers were of the opinion that the talk about the loan had been greatly overdone and that Brazilian is not likely to be seriously affected, even if the Government has to pay a point or two more for the money it requires.

N. S. STEEL & COAL.

Scotia was the most active of the Iron and Steel issues in the early part of the week, folowing General Manager Cantley's optimistic statement of Saturday. Towards the close of the week there was a reaction and the market touched 50¼. There is a considerable short interest in it in Toronto and it is understood that the bear crowd took advantage of the general weakness of the market at the close of the week to hammer Scotia.

LAURENTIDE.

The Toronto shorts also turned their attention to Laurentide Pulp, claiming that the price was out of line with other 8 per cent. stocks. Laurentide, which was selling at 180½ last week, was forced down to 177 today.

Toronto Railway was fairly prominent in the week's trading, After closing last week at 124¾, it developed weakness and sold down to 122¼. The company is now fighting an order of the Ontario Railway and Municipal Board, which will entail an expenditure of $3,000,000 on new equipment. The probability of an adverse decision has caused the weakness in the market this week.

The bright spot of the market towards the close was the firmness in Canada Cement Preferred which sold at 91 on active investment buying.

PULP & PAPER CO'S.

One of the firmer issues of the week was Spanish River which sold up to 10.

Apoarently all the Canadian Pulp and Paper Companies have been doing well this year, in spite of the somewhat lower prices ruling at present. The annual statement is expected any day and it is thought that it will make a good showing.

TRAM POWER.

Tram Power was again this week, the feature of the unlisted department. About the middle of the week it sold up to 47½ following a report that Mayor Martin had expressed approval of a 38 year franchise for the Tram Company. Later this report was generally discredited and the market reacted to 44.

NEW YORK MARKET

The heaviness of the market noted in our last letter has continued throughout the past week, though there have not been as many sharp declines and the average price is not far from the level of the preceding week. There has, indeed, been very little in recent developments to stimulate an advance. Despite the successful flotation of the French Government's loan, affairs abroad have not improved sufficiently to affect prices here; indeed Europe has continued a seller in our market and the Home Rule difficulties in England, with the strained relations between Austria and Servia, seem to keep everything unsettled. With us, apart from the splendid crop prospect; current events are not very cheerful. Last Saturday our bank statement showed an improvement in reserve which induced somewhat easier money rates and has been promptly followed by resumption of gold exports, $2,500,000 being engaged for that purpose to-day. Owing to the various delays which have occurred, our Federal reserve bank system cannot well get into operation this year and therefore, our money markets must meet the autumn requirements for the movement of the crops under the same condition as heretofore. In

Three of Canada's Most Prominent Men

—who have recently died appointed trust companies to act in the capacity of trustee and executor. In each case their wealth had been accumulated by consistent hard work.

By appointing a reliable trust company to administer their estates they secure, usually at less expense and in a much more efficient manner for their dependents and relatives, a greater return than if handled by the average individual executor.

Comparatively few people realize the importance of making their wills nor are they conversant with the laws affecting the estates of persons dying without having made a will.

The Dominion Trus Company's officers are at all times glad to enlighten anyone on the subject of wills, executorships, etc.
