WHOLESALE To the Trade

During the past few years we have asked our customers to accept prices ruling on date of shipment, to protect us against costs that were advancing faster than we could ship the order placed with us. We now stand ready to offer the same protection to our customers which they so generously extended to us when costs were advancing. After this, orders will be accepted at price in force when placed. If at date of shipment we are able to sell at a lower price than in effect when orders were placed, customers will be given the benefit of this decline—Our prices are reduced as fast as manufacturers reduce theirs. Our customers are therefore getting the full benefit of the market.

SUCCESSFUL SALE.—The sale of the stock, crop and moveable effects of Mr. William Carney at Murray River last Saturday proved very successful, horses, cows, etc., all bringing excellent prices. Mr. J. A. McDonald was the auctioneer.

A BELATED DESPATCH.—Dr. John Pringle, of Sydney, C. B., who served as chaplain overseas during the whole period of the war, has just received the much-belated word from the secretary of war, that he was mentioned in a despatch from Sir John French, dated November 30, 1915, "for gallant and distinguished service on the field." The message concluded with a "command from the king to re-ward his majesty's high appreciation of the services rendered." Dr. Pringle is a native of this Province.

RICE PT. NOTES.—A very enjoyable evening was spent on the night of the 31st of January at the Rice Point Schoolroom, which proved most instructive as well as a great pleasure, and was from start to finish an excellent success. Miss Elsie Brown, teacher of the school presented her pupils for examination. A goodly number of the rate payers, including the trustees Messrs. Cowher and Currie, and visiting teachers Miss McDougall and Mr. N. McCannell and also a large number of friends from the district were present. At sharp 7 p.m. Grade 4 was called to the floor and nobly underwent an examination under the efficient criticism of Mr. Neil McCannell and the other classes followed. English, Arithmetic, History, Geography, Mathematics etc. were well recited and the pupils made a most creditable showing. Others who examined the classes were Miss McDougall, teacher of New Dominion and Miss McCannell of St. John's School. But this was not all, upon a motion, Rev. W. A. Wood was asked to act as chairman and there was placed in his hands a list of numbers which proved to be a programme consisting of choruses, Ma-riettes, recitations and duets. Especially the little ones of the school won great appreciation from the audience. At the close the trustees and others thanked Miss Brown for her splendid tutoring of their children. Much credit being due both teacher and scholars. About 10.30 p.m. quantities of fudge began to gladden the hearts of the young and the older ones were not forgotten. After an enormous vote of appreciation and three cheers for Miss Brown the evening closed with the National Anthem.

EVERY OIL THAT IS PRIZED

Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized through the continent. There is nothing equal to it.
