The 5th and 8th Siege Batteries, together with the Halifax and St. John Batteries, leave England April 24, and are due at Halifax on or about May 1st. These two batteries will be the first to return as a unit, and so fitting arrangements should be made for a popular demonstration of their homecoming to Charlottetown. It is understood Colonel Campbell is due at the end of this week or on Monday. The Colonel also deserves a particularly enthusiastic reception, as he volunteered as a Lieutenant at the age most men considered a good excuse to "Let George do it." The Colonel's son preceded him overseas as a Captain; he himself volunteered as a Lieutenant, was raised to Captain Major, and then Lt. Colonel before leaving for Valcartier. He reverted to Major on going overseas. When the 196th regiment was broken up the Major on account of his age and rank was offered the opportunity of returning home, but he preferred to revert to the rank of Lieutenant in order that he might get to France. He became attached to the Engineers and crossed to the firing line and was there until the armistice was signed. Very few in this war have exhibited their patriotism and devotion to the cause of the allies as has Colonel Campbell and he deserves all honors due to a returning hero. The school teachers should see he gets the reception he is justly entitled to. THEY ARE MADE right and right priced throughout. Prowse's Clothing, Hats and Caps. 5025. Your opportunity to see our complete line 1919 models Chevrolet and McLaughlin in our Showrooms, Kent St., open evenings 7 30 to 9 A. Horne & Co. 5008-4-11M21.

A special invitation is extended to everyone to make the services a source of spiritual blessing. THE WAR PICTURES. Unfortunately owing to the inclement weather yesterday many were prevented from seeing the war pictures now on exhibition in the Prince of Wales College Hall. It is hoped however that, no matter what the weather may be, everybody who can get out will make it a point to see them today. They are not only the only photographs of their kind ever seen here but they portray as nothing else could the actual conditions on the battlefield. They are actual photographs taken in the midst of bursting shells, of blazing guns of actual war with its horrors and its horrors. These pictures will never be seen here again and those who miss seeing them will miss an opportunity of a life time. They have been specially praised by returned men, many of whom recognized scenes in which they had taken part, dugouts in which they had lived and wire entanglements through which they crept painfully. Don't miss seeing them. As pictures alone they are well worth seeing; as depicting scenes in the greatest drama and the greatest tragedy in the history of the world, it is a duty as well as a privilege to see them.
