

WILL ESTABLISH 3500 FAMILIES.

VICTORIA, B. C., March 25.—C. K. Berry, representing some Boston capitalists, approached the British Columbia government seeking half a million acres of agricultural land on which it is proposed to establish 3500 families in farming communities.

BROKEN SLEEP—TIRED NEXT MORNING

Sleep not only rests, but builds up the body. Cut down the hours of sleep, and you cut down health in the same proportion. Rebuilding then ceases, nerves go to smash, you grow tired, weak and wretched.

To restore sleep you must get more bodily strength, more nutritious blood, healthier nerves. Ferrozone solves the whole problem, makes you sleep soundly, gives endurance, vim, ambition. No more morning weakness—instead the fire of youth will run in your veins, supplying abundance of energy and vigor. Witchery expresses the instant effect of Ferrozone; try it.

WEAR HAIR

Most people, we believe, prefer hair to a highly polished scalp as a head covering. Those who do should remember that the time to cure baldness is before all the hair leaves.

Elite Dandruff Cure and Hair Tonic

may occasionally cure baldness but we only recommend it to prevent baldness. Stops falling hair by removing the cause which is dandruff or other scalp affections. Gives the hair life and lustre.

RECRUITING

In the Royal Canadian Garrison Artillery.

Readers have noticed from time to time advertisements for recruits to join the Royal Canadian Garrison Artillery, at the Citadel Quebec.

Evidently the young men of Canada, are not aware of the advantages of joining the Permanent Artillery, or these advertisements would not be required. Perhaps a brief description would not be out of place.

A man wishing to enlist, must be a British subject between the age of 18 and 45 years, 5 feet 6 inches in height, and must pass the doctor as physically fit for service. He should write to the Adjutant Royal Canadian Artillery, Citadel, Quebec, or apply to the officer commanding the District in which he lives, when arrangements will be made for his conveyance to Quebec, where he enlists for a period of three years.

He receives three suits of uniform, shirts, underclothing, socks, boots, razor, brushes, &c free and a similar issue annually, except regimental necessaries. The whole of his clothing should not cost him more than \$12.00 per year. If a man keeps his uniform carefully, and makes it last over the regulation time, he receives the full value of the articles in cash.

His pay commences at \$15.00 per month, with board and lodgings, and increases to \$23.25 per month while a gunner, the only stoppage being 2c. per diem for washing. If he is fairly well educated, well conducted, and attentive to his duties, he may soon become a non. Commission Officer when his pay will run from \$18.00 to \$65.00 per month according to rank.

The fact that the Artillery is likely to be increased in the near future, will greatly aid to rapid promotion.

There are also a number of employed jobs, such as artificers, clerk cooks, fittermen, servants, grooms, waiters &c which bring from \$100 to \$1000 a month extra, with various privileges. If he is a musician, he may join the Band which also brings extra pay and privileges.

For this man must keep himself, his kit &c, clean and tidy, be sober, punctual, and obey orders. He has three hours drill or fatigue in the forenoon and two hours in the afternoon, except Saturday, half holiday, and Sunday morning Church Parade. From 4.00 p. m. until 6.30 a. m. he has to himself, unless on guard or other duty, which occurs about once in 10 days.

He has the free use of the Library, Reading room, Billiard room, Gymnasium and Canteen. In the Library and Reading room, he will find all the leading illustrated papers, magazines, books, &c, while in the Canteens are kept any extras he may want such as drinks, tobacco, eatables, cleaning material &c, all of which he can get at lowest rates.

Non-Commissioned officers above the rank of Corporals have their own Mess room, Billiard Room &c.

About two months each year is spent in Camp, for gun practice &c, during which men receive extra pay.

Any well conducted man can get a month leave during the year, to spend at home.

After 20 years service a man may leave with a pension of, from 35c. to \$1.25 per diem for life. If he leaves at the end of three years he gets \$32.00 and at six years \$78.00 cash as deferred good conduct pay. In any case he will have the satisfaction of knowing he has served his Country in an honorable and manly profession.

INDIAN CHILDREN EATEN BY WOLVES

A Tragedy of the Lake Athabasca District, Told in the Diary of Sergt. Field of the Northwest Mounted Police.

OTTAWA, March 26. The Mounted Police report, just issued, contains a tragic "Babies in the Wood" story. It gives the details of the cold-blooded abandonment in the wilds of the northwest, near Lake Athabasca, of two young Indian children, who, deserted and unprotected, were eaten alive by wolves.

A young Indian girl of fifteen, also abandoned, narrowly escaped death from starvation. The story, taken from the diary of Sergeant Field, in command of the police detachment at Fort Chipewyan is as follows: "A half-breed arrived here from Fond-du-Lac, on Lake Athabasca, and reported that an Indian, Paul Izo Azie, living at Black Lake, near Fond-du-Lac, had deserted his adopted children in the bush some time last September. The particulars of the case are: This Indian, Paul Izo Azie, was camped on an island in Black Lake, where he intended fishing and hunting during the fall and winter. One day he sighted four or five canoes, with a number of men on board, coming towards his camp. He fired two shots in the air, as is customary amongst Indians, as a sign of friendliness. They did not reply or take any notice of his shooting, but paddled off in another direction and landed on the main shore of the lake. This man being very superstitious, as most Indians are, concluded that these were bad people, and intended killing him and all his family. He became frightened, so he got his wife, sister and the two little children and himself into his canoe and paddled ashore, leaving his camp outfit and all belongings behind him. When he landed on shore he started off on foot for Fond-du-Lac, followed by his wife and sister, leaving the two little children behind without food or protection. One a little boy, the other a little girl, aged two and three years respectively. It being an eight days' trip, or about 120 or 140 miles, from his camp to Fond-du-Lac, his sister, a young girl about fifteen years old, got fatigued after the first or second day's travel. He left her behind also on the road, without food or protection. This poor girl wandered about the woods for several days in a dreadful state of starvation, until she was picked up by some Indians that were camped in that direction. She told them her story, how her brother had deserted these two little children on the lake shore. Some of these Indians started back to search for the children. When they got there they found the camp just as the Indian had left it, nothing taken or stolen. They tracked the little children along the shore, and where they went up into the bush. They followed their tracks up into the bush, fired two or three shots and called out as loud as they could, but got no reply. They then went on a little farther, and there they found a little dress all blood-stained and torn, and wolf tracks all around where the little girl had evidently been eaten by wolves. They could find no trace or sign of the other child anywhere. There is no doubt that the little boy has been devoured also." The report adds that the Indian guilty of the

A CAUSE OF HEADACHE

One Very Common Cause, Generally Over-looked.

Headache is a symptom, an indication of derangement or disease in some organ, and the cause of the headache is difficult to locate because so many diseases have headache as a prominent symptom; derangement of the stomach and liver, heart trouble, kidney disease, lung trouble, eye strain or ill fitting glasses all produce headaches and if we could always locate the organ which is at fault the cure of obstinate headaches would be a much simpler matter.

However, for that form of headache called frontal headache, pain back of the eyes and in forehead, the cause is now known to be catarrh of the head, and throat; when the headache is located in back of head and neck it is often caused from catarrh of the stomach or liver.

At any rate catarrh is the most common cause of such headaches and the cure of the catarrh causes a prompt disappearance of the headaches.

There is at present no treatment for catarrh so convenient and effective as Stuart's Catarrh Tablets, a new internal remedy in tablet form, composed of antiseptics like red gum, blood root which act upon the blood and cause the elimination of the catarrhal poison from the system through the natural channels.

Miss Cora Ainsley, a prominent school teacher in one of our normal schools, speaks of her experience with catarrhal headaches and endorses Stuart's Catarrh Tablets as a cure for them. She says: "I suffered daily from severe frontal headache and pain in and back of the eyes, at times so intensely as to incapacitate me in my daily duties. I had suffered from catarrh, more or less for years but never thought it was the cause of my headaches, but finally became convinced that such was the case because the headaches were always worse whenever I had a cold or fresh attack of catarrh.

"Stuart's Catarrh Tablets were highly recommended to me as a safe and pleasant catarrh cure and after using a few fifty cent boxes which I procured from my druggist's I was surprised and delighted to find that both the catarrh and head aches had gone for good."

Stuart's Catarrh Tablets are sold by druggists at fifty cents per package, under the guarantee of the proprietors that they contain absolutely no cocaine (found in so many catarrh cures) no opium (so common in cheap cough cures) nor any harmful drug. They contain simply the whole-some antiseptics necessary to destroy and drive from the system the germs of catarrhal disease.
