The wagon was demolished.

Important details such as the area of cultivation, nature of soil, distance from railway, price and terms of payments, are given regarding each farm. It is expected that the information will prove of great assistance to prospective purchasers or those interested in inducing settlers to locate in the province, likewise individuals wishing to lease a farm. The list may be obtained free of charge upon application to the Natural Resources Intelligence Branch of the Department of the Interior of Ottawa.

**HORSE NOTE.**—Another good one that is training on the Summerside track, and a son of the fast sire (Major Todd) is a colt owned and driven by Mr. Philip Sullivan, Cardigan Head. This is a perfect gaited trotter of good quality and bids fair to make a great racer. In his work out stepping the half easy in 1.14 without boots of any kind. This is the kind horsemen admire. We congratulate Mr. Sullivan on his owner.

**SUCCESSFUL ISLAND STUDENT.**—Her friends in Charlottetown will be pleased to learn of the success in Halifax of Miss Marjory Kennedy, daughter of Mr. and Mrs. Joseph D. Kennedy, formerly of this city. Miss Kennedy in the examinations held at the "College" was the winner of the Governor General's medal for all-round proficiency in her studies for French. She intends entering Dalhousie next year.

MacDonald of the Royal Canadian Mounted Police, McLeod, Alta., who have been attending Notre Dame Academy for the last five years, leave this morning to join their uncle Major A. A. Pare of Montreal. **DELIGHTED WITH ISLAND.**—Mr. Aaron Stone, of St. John's, Newfoundland, who is on a short visit to the province for the first time, is very favorably impressed with the natural beauties of the Island, and with Charlottetown as a residential city. Mr. Stone is a prominent business man of St. John's and is a contributor to some of the leading newspapers there. It is his intention to "write up" the Island on his return home, as he is convinced that not half enough publicity has been given to the attractions of this province, as a summer resort. Driving by car through Montague and vicinity last Tuesday, Mr. Stone was privileged to see the beauty of the country in all the rich colors of sunset. In Charlottetown he was particularly impressed with the cleanliness of the streets and with their breadth and design. "You must have a wide-awake City Council here" he informed the Guardian. Mr. Stone believes that closer relations should be established between Newfoundland and this province, and that a direct passenger steam ship service between St. John's and Charlottetown would draw many additional visitors here.

**Which?**

ARE you the farmer who is continually battling against the weeds which grow and breed in the "fence corners" of snake, stump or other wooden fences, wasting valuable time and money?

Or are you the farmer who gets rid of the fences which require attention several times a year by erecting a Frost Wire Fence which is slightly, neat and occupies much less space?

A Wire Fence really adds acres of productive soil to your farm, reduces the weed menace and increases the value of your property.

See the local dealer or write for catalogue.

**FROST FENCE FIRST**

THE wire used in Frost Fence is all drawn and galvanized in our own mills. Our reputation has been gained because of the full gauge and well galvanized wire we put into our fence. It is tough and will give substantial service even under severe usage.

The Frost Tight Lock used in the weaving is immovable under the severest strains.

You can profitably tear down your rail fences, sell the wood, and replace them with permanent Frost Woven Wire Fences. So we emphasize again—Poor fence or Frost Fence—WHICH?

One of the prettiest of June weddings was solemnized yesterday at high noon in St. James church, this city, when Miss Helen Hyndman Bagnall, daughter of Dr. J. S. and Mrs. Bagnall, became the bride of Mr. W. H. V. Dunbar, assistant manager of the Bank of Nova Scotia here. The church which was most artistically decorated for the occasion by the girl friends of the bride, was well filled by the friends of the young couple, in addition to about sixty invited guests. The bride and groom were unattended and the ceremony was performed by Rev. G. C. Taylor. The bride was dressed in a travelling suit of navy blue tulle with grey hat, gloves and shoes and carried a bouquet of white roses with streamers of lilies of the valley. The ushers were Mr. Manning Bagnall brother of the bride and Mr. Reginald Williams, nephew of the groom. Mr. F. T. Watkins presided at the organ. After the ceremony the invited guests were entertained at the home of the bride's parents where dainty refreshments were served and a most enjoyable hour was spent. His Honor Lieutenant Governor MacKinnon, in a felicitous speech proposed the health of the bride while Rev. George C. Taylor in a characteristically humorous speech proposed the health of the groom. Both toasts with all their attendant good wishes being heartily reciprocated by the guests and modestly responded to by the groom who expressed for himself and bride their appreciation of the many kindnesses from the

**FRIDAY**

The Signal Company has settled down to a very business-like syllabus of training, including foot drill under Q. M. S. I. Johnson of the R. C. R's and visual signalling under Sgt. Instructor Kemplin of the permanent Signal Corps. The recruits are showing a marked aptitude for the training, and Major Rogers is confident that inspection day will find a very efficient Signal Company on parade. Many new N. C. O's have been appointed, and a first class sergeants mess has been organized.

The more advanced signallers are doing lamp signalling in the evenings and it is proposed to commence instruction in cable work tomorrow. In this line a miniature field exchange, as used in brigade headquarters in the C. E. F. will be installed. The training will be

They have the best wishes of a host of friends.

**ROTARY LUNCHEON.**—Rotarians held their regular weekly luncheon at the Country Club yesterday, with Secretary Percy W. Turner presiding, Rotarian H. R. Rogers, Superintendent of Education, addressed the Club on the development of story telling in early times, how stories grew about the persons of national heroes, and how they were added to and varied from time to time. The story of King Arthur and the Knights of the Round Table was given as an example. The outline of these tales was handed down from Geoffrey of Monmouth in the reign of King Henry 1st in his history of the Kings of the Britons. Additions were made by Wace, who introduced the account of the Round Table and by Map, who added the legend of the Holy Grail. William Caxton, the first English printer, published, in the latter part of the 15th Century, Sir Thos. Malory's work which remains as the most important source of the Arthurian legend. In the Victorian age Lady Charlotte Guest with the assistance of Welsh scholars translated the Welsh manuscript giving further details of the exploits of Welsh heroes under the name of the Mabinogion. Tonyson drew from these sources in writing the Idyls of the King. Early in his liter-
