INTERNATIONAL STRIFE BLAMED ON LEADERS

Prelate And Clergy of Roman Catholic Church Accuse Politicians of Fostering Trouble.

(A. P. by Guardian's Special Wire)

CLEVELAND, Sept. 24—A Prelate of the Roman Catholic Church and a cleric of lesser rank addressing pilgrims to the seventh United States Eucharistic Congress, scored today leaders of Governments whom they accused of fostering international strife.

Most Rev. John T. McNicholas, Archbishop of Cincinnati, labelled them "proud leaders, insane in their own conceits."

Rev. James M. Gillis, New York, editor of the Catholic World, described their activities as "high-handed autocracy."

The Archbishop, delivering the sermon of the inaugural solemn Pontifical Mass, said the "proud leaders, insane in their own conceits, strutting up and down the nations, speaking as if not answerable to any higher authority, disregarding the dignity of human nature and the eternal destiny of man, have no compassion on the multitude."

He said if Christ himself were to address the world He would pay scant attention to the so-called statesmen and politicians and their nefarious work."

Father Gillis, speaking before a sectional meeting of journalists, said:

"Take the case—imaginary or actual—of a Catholic editor who was quick to recognize and equally quick to castigate the high-handed autocracy of Mussolini, but who was blind and inarticulate before the high-handed autocracy of Hitler.

"Is a distinction to be drawn between demagogy in Italy and demagogy in Germany?"

Patrick Cardinal Hayes of New York, Papal Legate to the religious festival, celebrated a solemn Pontifical Mass to open formally the religious program of the gathering. Officials estimated 20,000 persons witnessed the Mass.

Moncton Rovers Default Title To St. Pats

(C. P. by Guardian's Special Wire)

AMHERST, N. S., Sept. 24—Management of Moncton Rovers, New Brunswick junior baseball champions, tonight informed officials of Amherst St. Pats, Nova Scotia titleholders, they would not challenge the Nova Scotian team for the Maritime title under any circumstances and forfeited all claim to the series.

St. Pats thus became Maritime champions by default unless the New Brunswick Baseball Association allows St. Stephen juniors, runners-up in New Brunswick playdowns, to challenge.

The Nova Scotians were Maritime champions last year.

Six Bears Seen Near Millville, N. B.

MILLVILLE, N. B., Sept. 26—The bears which have been paying social calls to various towns and villages throughout this county did not forget this district. Last night two old bears with four cubs were seen in a field beside a vacant farmhouse about 2 1-2 miles from this village. The animals were seen by Douglas Brown who fired at them with a rifle and succeeded in killing one of the cubs, which was about the size of a dog. He believed he could have shot more if he had not run out of shells. The bears took to the woods for cover. They showed no signs of resisting, young Brown said. He believed he struck one of the full-grown bears as he saw blood on the ground nearby and today he planned to search the woods for her in the event that the wound had proved fatal. Farmers in the vicinity were in a state of anxiety, after hearing of the incident, for six cattle belonging in the district had been pastured in the fields and woods near where the bears were seen.

Blacksmiths For Clerks Reporters As Smiths

NEW YORK, Sept. 26—Is it possible for a blacksmith to efficiently handle a clerk's position? This was the problem before York Township Council recently.

"You wouldn't ask a blacksmith to do a clerk's job, would you?" inquired Deputy Reeve Noble, himself a blacksmith, as Coucil dickered over the appointment to the relief staff.

"Sure I would," countered Reeve R. J. Stuart. "I know a Cabinet Minister whose father was a blacksmith. And a good one at that. We have some very fine men who once weilded the sledgehammer."

Still refusing to accept this evidence of the ability of a blacksmith, Deputy Reeve Noble offered, "You wouldn't ask these newspapermen," he said, looking in the direction of two sleepy-eyed reporters, "to do any strenuous labor like blacksmithing."

What the other members replied was inaudible, but their expression implied something uncomplimentary.

King Leaves For Edmonton

(By C. P. Staff Writer)
(By Guardian's Special Wire)

PRINCE ALBERT, Sask., Sept. 24.—After three days among his own constituents, Liberal Leader Mackenzie King moved westward tonight to continue his election campaign and deliver his first speech in Alberta.

He will arrive in Edmonton tomorrow morning and address a meeting tomorrow night.

Mr. King's visit to Prince Albert's rural areas was accompanied by the whirr of dozens of threshing machines. Farmers were taking advantage of a period of good weather to rush their threshing and harvesting to completion.

While in the constituency he addressed two meetings, one at Leask and one at Prince Albert and held an informal reception.

A Conservative rally tonight followed closely on the heels of Mr. King's meeting last night. Hon. Sam Gobeil, Postmaster General, was the speaker.

Former Russian Princess Found In Factory

(A. P. By Guardian's Special Wire)

LENINGRAD, Sept. 24—Pre-revolutionary photographs showing her in the fine clothes of the daughter of a Czarist family today betrayed a member of the Communist party as a former princess.

The report of Red investigators also accused her of having participated in the execution of Bolshevist soldiers in the Civil War of 1918-19. Her name was given as Kuklina.

She was found working in a Leningrad rubber factory, a job she obtained by posing as a peasant woman. The investigators found she and her husband had served the White Guards.

Party leaders promptly expelled her, but no further action against her has been announced.

British Children Coming to Canada

OTTAWA, Sept. 25.—With the Prince of Wales as their fairy godfather, forty-one British children are coming to Canada this weekend to make homes for themselves.

In the party on board the Duchess of Atholl there are twenty-seven boys and fourteen girls ranging from 6 to 13 years. They will disembark at Quebec and will go straight through to Vancouver Island, where two hostels have been provided on a 1,000 acre farm for them.

The movement is under the auspices of the Fairbridge Farm School scheme, which is sponsored by the heir to the throne and other influential and wealthy people in the United Kingdom.

The farm at Duncan, British Columbia, on which they will be trained is known as the Prince of Wales Fairbridge Farm School.

The children come mostly from good homes, but many of them, unfortunately, are orphans.

Ample money is provided by the Fairbridge Farm School to see that they are well trained and educated. Recently the Prince of Wales sponsored an appeal for $500,000 and the money was quickly oversubscribed.

Similar schools have succeeded admirably in Australia. Captain L. R. Lumley, M. P., is chairman of the society.

Cotton Japan's Largest Import

Japan's largest single import is raw cotton, accounting for 36 per cent. of the total imports. The United States supplies approximately 51 per cent, British India 40 per cent and Egypt the balance. Iron and steel is the next largest item with the United States supplying over half, Belgium and Germany about 10 per cent each and Great Britain aproximately 8 per cent. Sheep's wool is the third largest item with pretty near the whole supply coming from Australia and small quantities from New Zealand and South Africa. Machinery ranks fourth, the United States supplying aproximately 40 per cent, Germany 30 per cent and Great Britain 20 per cent. Crude oil takes fifth place, the United States accounting for nearly the whole supply with small quantities from the Dutch East Indies and British Borneo. The largest import from Canada was lumber followed by wheat, pulp (paper and rayon), aluminum, newsprint, lead, zinc, fresh beef, iron and steel, copper, automobiles and parts, machinery, according to the Industrial Department of the Canadian National Railways. Canada was the principal source of supply for aluminum, newsprint and zinc. Japan's largest exports to Canada are raw silk (via New York); pottery; toys, rice, tea.

Don't Endure Slipping

FALSE TEETH

Do your false teeth drop or slip when you talk, eat, laugh or sneeze? Don't be annoyed and embarrased a minute longer FASTEETH, a new powder to sprinkle on your plates, holds teeth firm. Seek British Immigrants To Dominions

(C. P. By Guardian's Special Wire)

NEWCASTLE, England, Sept. 24—(C. P. Cable)—Representatives of the Dominions and government migration experts from all parts of the Empire attended the first provincial conference on immigration opening here today.

The conference decided to telegraph Malcolm Macdonald, Secretary for the Dominions, pressing for immediate steps to bring about settlement of the Dominions by immigrants from Great Britain.

The Lord Mayor of Newcastle declared, "It is remarkable that while Italy seeks new colonies for her surplus population we are not making use of our own colonies."

Await Verdict Of Film Child

(By The Canadian Press)

HOLLYWOOD, Sept. 24—All the way from Cape Town, South Africa dark haired Sybil Jason, six years old, is a contemporary of Shirley Temple's in the screenlight of child parts.

Sybil is engaged in her second movie, a smaller role than her first "The Little Big Shot." The present venture is to fill in the time while public reaction to her first appearance determines whether she is to be launched as a star in her third feature.

Her sister, Nita, 21, and her uncle, Harry Jacobson, 25, who brought her to Hollywood, are not sure that the good fortune so far distinguishing her brief career will continue, and Nita describes their future plans as "at sixes and sevens, all depending."

On the set, where Sybil likes to stay whether she is working or not, she labors on what she calls "scenarios." With little provocation one of them, done in pencil in a notbook, will be brought from a black suitcase for display. Sybil's suggested cast includes Sister Nita and Uncle Harry in important roles while such stars as James Cagney and Dick Powell are relegated to minor assignments.

Dominion Coal Co. Declares Dividend

(C. P. By Guardian's Special Wire)

MONTREAL, Sept. 24—Directors of Dominion Coal Company limited today declared a dividend of 75 cents a share on the six percent preferred stock for the six months ending Sept. 30, payable Oct. 15, to shareholders of record Sept. 30.

It was the second dividend announced on this $25 par stock and brought payment up to date. The initial 75 cent dividend was paid Aug. 10.

The stock was issued for old $100 par preferred in the ratio of eight shares of $25 each for each share of $100 par, dividend arrears being eliminated by the exchange.

Claims Altitude Record For Light Seaplanes

(A. P. By Guardian's Special Wire)

WASHINGTON, Sept. 24—A new world's altitude record for light seaplanes of around 16,000 feet was claimed here today by Benjamin King, Washington sportsman-pilot.

Flying a tiny one-place seaplane having a total dead weight of only 524.5 pounds, King far exceeded the old record of 11,355 feet made by a French pilot in 1930. His mark will not be official until the barograph of the United States Aeronautics Association which he carried can be calibrated by the Bureau of Standards.

(By The Canadian Press)

LONDON, Sept. 24—Sir Thomas Beecham, famous conductor, has made his appearance in a new role—that of actor.

In a chronicle play, "The Holy Maid of Kent," performed at Lympne Castle, near Hythe, owned by Sir Thomas and his brother Henry, he took the part of Thomas Cromwell in a cast of about 100 amateurs.

Mrs. Henry Beecham, author-producer, was Elizabeth Barton, the "Holy Maid," in the play. The "Holy Maid" was executed for treason in 1534.

France Greatly Interested In Canada

(Special to the Guardian)

HALIFAX, N. S., Sept. 24—Returning from France, where he went in connection with a competition sponsored by the Alliance Francaise for essays written by students in other lands, Professor Francois Rene Gautheron, head of the Department of Modern Languages, Dalhousie University, here, arrived on the Maritime Express of the Canadian National Railways tonight.

There were many entries from the Maritime Provinces and Quebec, Professor Gautheron stated, others from farther West and several from the New England States where there are many people of French descent. The papers submitted were generally of a very high standard, particularly one from Cheticamp, Nova Scotia. Judging was completed before he left but results have not yet been announced.

Professor Gautheron referred to the increasing interest in Canada and especially the Maritime Provinces which he found in France as a result of the visit of the French delegations last year in connection with the Jacques Cartier celebrations. It would have the effect, he thought, of directing more travel to Canada.

Speaking with regard to the controversy between Italy and Ethiopia, Professor Gautheron was of the opinion that war would probably be avoided but that Mussolini would press forward for the attainment of his purpose in Africa.

Professor Gautheron was formerly a member of the faculty of the University of Montreal, and during the war was with the French army in France.

Kiwanis Club Score Degrading Literature

LONDON, Ont., Sept. 26—(CP)—F. P. Dawson, K.C., prominent Sarnia lawyer, was chosen Governor of the Ontario-Quebec-Maritimes district of Kiwanis International. The election of officers came as the concluding act of the business sessions of the 17th annual district convention. The delegates selected Quebec as the convention venue for 1936.

A protest against "degrading and filthy" literature, said to be circulated among high school children by some private lending libraries, was registered in the dying hours of the convention.

Choice for Governor of Mr. Dawson makes it the second successive year in which a western Ontario man will head the important Eastern Canada district. F. G. McAllister of London, the retiring Governor, was chosen at the Halifax convention a year ago.

The retiring governor was recommended to Kiwanis international as the international representative. Charles Fowler, of Halifax, was selected as his alternate.

The lieutenant-governors for the five divisions were elected as follows:

Western: Dr. A. A. Hicks, Chatham; Northern: Harry Coll, Noranda; Central: Dr. Otto Neimeir, Hamilton; Eastern, Douglas Bremner, Montreal; Martimes; Clifford De Couteur, Sydney.

The new governor, F. P. Dawson, joined the Sarnia club in 1929. He was president in 1930 and lieutenant-governor of the western division in 1932.

"High School children are reading literature that is filthy and degrading," W. R. Willard, of Toronto, said as he asked the convention to pass a resolution of protest. The delegates agreed to the resolution asking a check on the types of books distributed through private libraries.

The convention was asked to deplore, by formal resolution, the "sensationalism" in the press, radio and motion picture, as characterized the trial of Richard Bruno Haupmann n the Lindberg kidnapping case. But when delegates questioned the advisability of "censoring the Canadian press, which has its dignity" and when it was stated that sensationalism originated in the Unitet States, the convention refused to pass the resolution.

Instead, it passed the question to the international convention, which has power to act for Kiwanis Clubs in both countries.

FAITH IN HER SON

In a small village in Ireland, the mother of a soldier met the village friend, who asked her if she had bad news. "Sure, I have," she said. "Pat has been killed."

"Oh, I'm very sorry," said the village friend. "Did you receive word from the War Office?"

"No," she said, "I received word from himself."

The friend looked perplexed, and said: "But how is that?"

"Sure," she said, "here is the letter! Read it yourself." The letter said: "Dear Mother—I am now in the Holy Land."

Henry—Mom, did you ever hear a rabbit bark?

Mom—Rabbits don't bark, darling.

Henry—Yes they do, mom. My book says they eat cabbage and bark.

9th ANNUAL SWINE SHOW and SALE

In the Agricultural Hall

TUESDAY OCTOBER 15th

Auction Sale begins at 1.00 p.m.

20 carefully selected young boars, all ready for service, and 25 young sows, some bred, will be offered to the public. Every boar is out of a dam qualified in Advanced Registry. Orders by mail or wire will receive careful attention.

Box 39,
Charlottetown, P. E. I.

British Planes Map New Guinea

(By The Canadian Press)

LONDON, Sept. 24—Belief that oil and gold deposits of vast extent will be found in the Dutch-owned western section of New Guinea has inspired an expedition in three British airplanes to undertake an exploration of 25,000,000 acres of practically unknown area in the East Indies island, late in September. The work will take 18 months.

Landing grounds and base camps have been established to aid the party which, it is expected, will make the preliminary flight from England to Java in 14 days. From Java the planes will proceed almost immediately to New Guinea to start the job. G. M. Cox, a British flier of 20 years experience, is leading the flight formation to the East Indies.

At present about the only geographical feature of the district fairly well-known is the general course of the large rivers. Aerial photography will provide data for the compilation of accurate maps which will provide indication of sites where oil and precious mineral deposits may be found. The maps will also give information of great value to the Netherlands government for development of forestry and agriculture and tracing of native population.

In all, 50 men will take part in the expedition under the leadership of R. N. de Ruyter van Steveninck half of them Europeans and half natives. The three British biplanes have been specially equipped for the work. Each carries a vertical electrically-operated camera and latest radio equipment.

THE NEW 1936 DE FOREST CROSLEY RADIOS

THRILL to their TONE! THRILL to their SIMPLE, COMPLETE CONTROL!

Super-Performance, you'll say. And rightly so, because the new 1936 De Forest Crosley Radios of the King's Jubilee series bring you higher standards of performance and control than have ever been known before.

One of the merchants listed below will gladly demonstrate De Forest Crosley's new Six-Point Super-Control, and scores of other features available—now—for the first time, *only* in the De Forest Crosley.

Prices as low as $49.95

The DE FOREST CROSLEY "King's Jubilee" Series

Liberal allowance for old radios as part payment. Balance on Easy Terms . . . Custom-Built All-Wave Noise Reducing Aerial designed especially for operation with these sets, complete with all parts, attachments, etc., $8.50.

New-Type Dual-Purpose Guaranteed METAL SPRAY TUBES

You get a guarantee of superior performance, of longer life, with the new and revolutionary Metal Spray Tubes used in the 1936 De Forest Crosley radios.

They give quieter, smoother, clearer reception—no noise or vibration. They have been the sensation of the radio industry for more than 3 years. Now they are in a new and even more advanced "dress"—with a heavy metal protective coating that provides better shielding than ever before.

A REVELATION

New features fairly tumble over each other, in these De Forest Crosley "King's Jubilee" Radios. You'll find them a revelation. For instance — the simple, new "Ray-Dial," the convenient Sloping Dial Panels, the High-Fidelity Speakers that give a greater range of magnificent Tone than ever before, the distinctive Moderne and Neo-Classique cabinet models, etc. Inspect them. They live up to De Forest Crosley's finest traditions.

The King's Jubilee Model De Forest Crosley 1936 Radios are ready for your inspection
