## JUDGING UNDERWAY IN BORDEN FOX SHOW

### Show Is Opened By Mayor Leard Much Interest Taken In Pelting Demonstration By Mr. J. S. Wright.

The Borden Fox Show which was officially opened by Mayor Leard of Borden yesterday attracted a good many visitors, especially in the afternoon. A feature of the afternoon program was a pelting demonstration put on by Mr. J. S. Wright, of the Dominion Fur Sales, followed by an illustration of how to place pelt on board. Mr. Wright then gave a short talk on preparing pelts for market.

There was a very large number of exhibitors and the task of classifying the record number of entries was not completed until late on Wednesday. This work was done by Messrs. Hancock and Finney. All classes were well filled. Major Victor Travers was superintendent of the show.

Judging was commenced yesterday morning and by late afternoon the majority of classes were judged. Mr. Clifford Rogers is doing the judging, with the assistance of Mr. Brenton Clark, and they are highly pleased with the quality of the animals.

#### Class 1—Black and Extra Dark

Section 1, adult male—1. George Warren; 2. Roy Woodside; 3. Geo. Warren; 4. John A. Lea; 5. Geo. Warren; 6. John Heffel.

Section 2, adult female—1. Robert Baker; 2. Roy Woodside; 3. J. C. Baker; 4. W. D. MacNeill; 5. John A. Lea; 6. John Heffel.

Judging will be continued this morning at 8.30.

#### Class 2—Dark Silver

Section 1, adult male—1. J. W. Lecky; 2. Roy Woodside; 3. & 4. George Warren; 5. Harold Woodside; 6. Theodore Gallant.

Section 2, adult female—1. J. & C. Baker.

Section 3, year old male—1. Dr. Bell.

Section 5, male pup—1. P. G. Clark; 2. J. A. Ramsay; 3. Roy Woodside; 4. J. & C. Baker; 5. J. C. Mountain.

Section 6, female pup—1. J. O. Mountain.

#### Class 3—Dark Medium Silver

Section 1, adult male—1. G. E. Lockerby; 2. H. C. Clark; 3. Percy Miller; 4. Compton & Mills.

Section 2, adult female—1. Robt. Baker; 2. J. & C. Baker; 3. R. B. Campbell.

Section 3, year old male—1. Roy Woodside; 2. Geo. Warren; 3. Roy Woodside.

Section 4, year old female—1. L. K. Lockerby; 2. Robert Baker.

Section 5, male pup—1. J. C. Mountain; 2. Roy Woodside; 3. Roy Woodside; 4. J. & C. Baker; 5. Roy Woodside; 6. Geo. Warren.

Section 6, female pup—1. Harold Woodside; 2. Roy Woodside; 3. L. K. Lockerby.

#### Class 4—Medium Silver

Section 1, adult male—1. Percy

### Claimed Money For Liberal Party Fund

(C.P. by Guardian's Special Wire) HAMILTON, Ont., Nov. 26—Testimony that he was told by one of three alleged hotel license racketeers that he would have to pay \$2,000 "which would go to the Liberal party campaign fund" before he was granted a license was given by William P. Hamilton in magistrate's court here today.

Hamilton was a witness at preliminary hearing of Earl Wright, Hamilton, and Fred Gardner, Toronto. The three are charged with conspiracy to obtain money on the representation that they could get hotel liquor licenses from the Ontario Government, and with false pretences.

"Wright told me I would have to pay \$2,000 which would go to the Liberal party campaign fund before I could obtain a license for the Parkway Hotel," said Hamilton. The hearing was adjourned.

#### WIN WINTER FAIR PRIZE

TORONTO, Nov. 25—Reyma, owned by Raoul Raymond of Charlottetown, was declared junior champion among thoroughbred mares at today's judging at the Royal Winter Fair concluded.

Mr. Ern Bell led in the sing song. Following the meeting club members enjoyed the usual hour of bowling.

Miller; 2. Roy Woodside; 3. David Mousse; 4. & 5. George Warren; 6. Dr. Bell.

Section 2, adult female—1. J. R. Sevik; 2. & 3. Geo. Warren; 4. Leslie Woodside; 5. Robert Baker; 6. P. G. Clark.

Section 3, year old male—1. J. W. Lecky; 2. Roy Woodside; 3. Percy Miller; 4. Roy Woodside; 5. Elmer Davidson; 6. F. J. Lockerby.

Section 4, year old female—1. J. W. Lecky; 2. Roy Woodside; 3. Roy Woodside; 4. J. W. Lecky; 5. Percy Miller; 6. Robert Baker.

Section 5, male pup—1. L. K. Lockerby; 2. Lester Woodside; 3. Roy Woodside; 4. & 5. J. W. Lecky; 6. J. A. Ramsay.

Section 6, female pup—1. Lester Woodside; 2. J. W. Lecky; 3. Robert Baker; 4. Becher MacDonnell; 5. Harold Woodside; 6. Dought Bell.

Section 1, adult male—1. George Warren; 2. J. W. Lecky; 3. Lester Woodside; 4. John A. Lea; 5. Geo. Warren; 6. John Heffel.

Section 2, adult female—1. Robert Baker; 2. Roy Woodside; 3. J. C. Baker; 4. W. D. MacNeill; 5. John A. Lea; 6. John Heffel.

Judging will be continued this morning at 8.30.

Mixes in the Best Company

When the boy leaves the case of Sussex Pale Dry on the floor, the evening's entertainment is ready. For it pleases everyone, is no trouble to prepare, and its invigorating tang revives flagging spirits after a long evening at the bridge table or on the dance floor. Delicious by itself, Sussex Pale Dry adds sparkle to fruit punches and is an excellent mixer with other beverages. You can add distinction to your hospitality by serving this recognized leader in Ginger Ales. Order it in the economical 28 ounce size—each bottle serving five glasses.

Sussex—the Supreme in Ginger Ale!

### Champion Case Continued In Supreme Court

The Champion case was continued yesterday in the Supreme Court, Summerside, Chief Justice Mathieson presiding. Four witnesses were examined.

The first one called was Corp. MacDonald who gave evidence that he was notified by Leslie MacNutt that four pups were missing from his ranch. Corp. MacDonald together with Corp. Cordwell investigated the matter and the investigation led to the discovery in Champion's ranch of pups so closely resembling the pups alleged to have been stolen from MacNutt's ranch that the man was arrested and the pups seized. Corp. Cordwell corroborated the evidence of the previous witness.

Lorne Read testified to taking pictures of the pups just after they were taken from Champion's ranch. John J. Jack of the Experimental Fox Farm gave evidence with regard to the relative age of the pups found in Champion's ranch. Several witnesses gave evidence on Wednesday as to the number of pups Champion had in his ranch previous to May 31st.

The case will be continued this morning when the court opens at 10.30.

### T.B. 5 YEAR PLAN OUTLINED BY SPEAKER

(Continued from page 1)

prevent the spread of the disease in their home and community. As conditions are at present they can not be admitted to the Sanatorium for at least six months. Tuberculosis is the only disease for which all persons can receive hospitalization in the province.

There are 60 beds in the Sanatorium and six beds used for members of the staff, which should not be housed in the same institution as the patients. The nurses, too, are crowded in their quarters. The number of patients could not be increased without increasing the staff, Dr. Creelman said. A few years ago there were but 45 patients and since then the staff has been increased but very little.

New quarters for the help and staff is the first move in the five year plan, the speaker declared. That would release the space necessary for at least ten more beds, bringing the accommodation to 70, which would be probably as large a hospital as would be needed. At the present time, however, the one institution is not only hospital but convalescent home—both serious cases and up patients mixed together. The treatment of tuberculosis is highly specialized and cannot be efficiently carried on under such conditions.

The second step therefore would be a convalescent home for up patients that are not able to return home. After a patient has had tuberculosis for two or three years and leaves the Sanatorium to compete in the open labor market he is faced with very great difficulties. Employers fear that he might have another breakdown, or that he might be a menace to other members of the staff. Some sort of aid is often necessary if the patient is not to receive a serious setback.

Dr. Creelman then described an institution in England where everything is included from hospital to factory. He did not look for anything of that nature here but hoped to see a workshop in connection with the Sanatorium where both men and women could have confidence in themselves, restored and know what they could do before they were dismissed from the institution. He envisioned mechanical work for the men and probably sewing or something of that nature for the women.

There are, too, certain patients such as mothers of large families, or fathers, who are worried because of financial difficulties after they are released from the Sanatorium, should have a special allowance provided them at least until they are able to re-establish themselves. Such a plan is carried out in most of the provinces of the west.

At present the government is contributing \$27,000 a year to the Sanatorium, Dr. Creelman said. When the question of human life is at stake the monetary question should not enter too largely into the calculations. "The Government will do exactly what the people want it to do," Dr. Creelman concluded.

A hearty vote of thanks was tendered the guest speaker, moved by Mr. Raoul LePage and seconded by Mr. Stuart Scrimgeour.

Mr. Edwin Johnstone was chairman and Walter LePage, son of Mr. Raoul LePage, was a guest.

### DISCOVER STARS CARRY "TAIL LIGHTS"

(A.P. by Guardian's Special Wire) OXFORD, England, Nov. 26—The red "tail lights" of nebulae which are seen in far off space out near the seeing limits of the 100-inch telescope at Mt. Wilson, California, were given a new interpretation today by Edwin Hubble, the American astronomer.

The "tail lights" are the puzzling red color of the distant nebulae, star collections like the milky way. The color is attributed to motion away from earth. All resemble the tail lights of speeding autos disappearing down a roadway at night.

There are two interpretations of this red glow, said Dr. Hubble.

First—the tail light objects are out near an actual boundary of creation, and creation is so limited in size that the 200-inch telescope now building may identify the rim. This creation is finite, with a "positive" curvature making it resemble a vast sphere.

Second—There may be no outer edge to creation, and the "tail lights" are the discovery of a new principle in nature, unlike anything man now dreams, still too distant to be interpreted.

Dr. Hubble presented these new findings in the last of a series of Rhodes memorial lectures. The place where the tail light star bodies are seen is out to 500 million light years away from the earth.

This region is the distance away that light can reach in 500 million years, travelling at 186,000 miles a second. It is about three sextillion miles, or three followed by 21 ciphers.

Out there, Dr. Hubble said the heavens are different. The nebulae are no longer so numerous as in nearer regions of space. Out there they are no longer uniformly distributed.

If they are really as less numerous as they seem it may be a sign of man's approach to the outer rim.

### Business Trend Reflected In Coal Output

(C.P. by Guardian's Special Wire) TORONTO, Nov. 26—A spectacular story that vanished Ambrose Small was murdered 17 years ago, based on a confession ascribed to his wife, collapsed late today when Mr. Justice Nicol Jeffrey dismissed with costs an action to upset the Small wills, involving a \$2,000,000 estate.

"Incredible," the Judge called the case made out in an eight-day trial by witnesses for Mary Florence Small, sister of the long-lost millionaire, theatre owner. In an oral judgment lasting an hour and 10 minutes in non-jury Supreme Court, he asserted the purported murder confession of Mrs. Theresa Small was an "unquestioned fact."

The whole case against the dead Mrs. Small, in the Judge's opinion, was investigated by Patrick Sullivan, who spent years investigating the Small mystery and said from the witness stand this week that he watched Mrs. Small sign the confession in Toronto in 1929, six years before her death.

"I would put nothing past him," said Mr. Justice Jeffrey, referring to Sullivan. The case he called "a web of scandal and blackmail."

### French Chamber Debates Tax Bill

(C.P. by Guardian's Special Wire) PARIS, Nov. 26—(CP-Havas)—The city of "soak the rich" was raised in the French Chamber of Deputies today during a long debate on Premier Blum's new fiscal reform bill.

Communist Deputy Gresa declared the Government hitherto has not forced the wealthy to pay as much as they should in taxes, and denounced alleged tax evasion practices.

The Communist Party, he declared, will vote for the new bill.

Deputy Jammy Schmidt, reporting out the bill's 55 articles, said the law was divided into three sections—sales taxes, taxes, income taxes and acquired revised schedules are being introduced. Stricter tax control is necessary, he affirmed.

### Inquiry Into Textile Industry Is Concluded

(C.P. by Guardian's Special Wire) OTTAWA, Nov. 25—Following ten months of exhaustive inquiry into the Canadian textile industry the one-man Royal Commission headed by Justice W. F. A. Turgeon wound up its public hearings here today.

Organized in February, the Commission has been occupied almost continually with the exception of several weeks during the summer in probing the general affairs of the industry. The number of exhibits filed with the Commissioner was 1,246; evidence taken amounted to 4,250,000 words; today was the 100th day of public sessions.

The early financial history of Dominion Textiles Limited today engaged the attention of Justice Turgeon. J. G. Glasco, chartered accountant, shared the stand with C. Blair Gordon, managing director of the Dominion Textiles.

For the 31 years of the company's existence, the average total invested capital had been \$11,635,869, upon which the average annual earnings were \$1,060,713. This was equivalent, said Mr. Glasco, to an annual average profit of 9.12 per cent. These earnings, however, did not represent amounts paid out in dividends. Total profits amounted to \$32,800,000.

### Small Action Is Dismissed

(C.P. by Guardian's Special Wire) TORONTO, Nov. 26—A spectacular story that vanished Ambrose Small was murdered 17 years ago, based on a confession ascribed to his wife, collapsed late today when Mr. Justice Nicol Jeffrey dismissed with costs an action to upset the Small wills, involving a \$2,000,000 estate.

"Incredible," the Judge called the case made out in an eight-day trial by witnesses for Mary Florence Small, sister of the long-lost millionaire, theatre owner. In an oral judgment lasting an hour and 10 minutes in non-jury Supreme Court, he asserted the purported murder confession of Mrs. Theresa Small was an "unquestioned fact."

The whole case against the dead Mrs. Small, in the Judge's opinion, was investigated by Patrick Sullivan, who spent years investigating the Small mystery and said from the witness stand this week that he watched Mrs. Small sign the confession in Toronto in 1929, six years before her death.

"I would put nothing past him," said Mr. Justice Jeffrey, referring to Sullivan. The case he called "a web of scandal and blackmail."

### Eastern Interests Oppose Tariff

(C.P. by Guardian's Special Wire) OTTAWA, Nov. 26—(CP)—Eastern interests today opposed an application for tariff protection from western interests and drew comment from George H. Sedgewick, chairman of the Tariff Board, that he had often heard the allegation tariff protection for the benefit of eastern manufacturers worked to the detriment of Western Canada.

The situation arose in connection with the application of the British Columbia Fruit Growers' Association for more protection on cherries in brine and sulphured cherries. The application was opposed by eastern manufacturers who import these products from Italy and process them.

### Tormentine

Mrs. Philip Allen, Bayfield, is spending some time in Plaster Rock visiting her mother.

Miss Gwendolyn Allen was among those who took part in the Amateur Show held in Sackville under the auspices of the Fawcett Trumpet and Drum Corps Friday evening, Nov. 20. She was successful in winning the second prize.

Mr. and Mrs. David MacEachern spent Friday and Saturday in Moncton.

Mrs. Foster Allen spent Friday in Bayfield, a guest of her brother, Mr. Job Allen.

Mr. Edison Allen of Detroit, Mich., is spending some time here with his parents, Mr. and Mrs. William Allen.

Mrs. Murray Trenholm, Bayfield, was a recent guest of friends in Baie Verte.

Mrs. E. D. Mahoney, Malden, is visiting her daughter, Mrs. D. J. Brine, Port Elgin.

Mrs. Lloyd Hicks, Sackville, was a weekend guest of her mother, Mrs. Frances Allen.

Miss Irene Brenton, student at Moncton High School, spent the weekend at her home here, a guest of her parents, Mr. and Mrs. M.H. Brenton.

Captain J. Graham McLellan returned home from Toronto where he attended the investigation of the sinking of the Sand Merchant.

Mr. Lloyd Green, Sackville, was a week-end guest of his grandmother, Mrs. Barbara Allen.

Mr. and Mrs. Alex Cameron and Miss Edythe Oulton were Sunday guests of Mr. and Mrs. W. E. Oulton.—I.

### Employment For Women Sought

(HALIFAX, Nov. 26—Every avenue leading to possible sources of employment for women would be investigated by the Women's Advisory Board of the National Employment Commission, and important recommendations would be made, Mrs. Lorne Ferguson of Westville, N.S., said today.

The Maritime representative on the Board conferred with Premier A. L. Macdonald, Attorney General J. A. MacQuarrie, Agricultural Minister J. A. McDonald and relief officials.

"We are pursuing investigations of fields already overcrowded and we are seeking the cooperation of professionals and organizations already existing in an effort to open up new avenues of work for women."

### FOX MEN SUNGLO

FALL-FURRING RATION is now available thru your Sunglo Dealers. A SPECIAL RATION FOR DEVELOPING GOOD COLORED PELTS. MADE WITH AND WITHOUT BEEF MEAL.

### JAPAN-ITALY PACT SOUGHT

(A.P. by Guardian's Special Wire) TOKYO, Nov. 26—Japan turned to Italy tonight in efforts to extend her friendly relations with European Fascist Governments.

Following completion of the German-Japanese pact against Communism, the Domei News Agency announced diplomatic conversations were under way with Italy looking toward mutual recognition of Italian-Ethiopia and Japanese-sponsored Manchoukuo.

Giacinti Aurita, Italian ambassador, discussed an "important matter" at the foreign office today, but the News Agency said the recognition agreement was the only commitment sought at the present time.

Germany has recognized Ethiopia as part of the Italian Empire and joined with Italy recently in an accord against Communism and agreeing that the two nations will consult each other when acting in European situations.

Germany completed the agreement with Japan to combat Communism yesterday.

### Business Trend Reflected In Coal Output

(C.P. by Guardian's Special Wire) OTTAWA, Nov. 26—(AP)—Rising output of bituminous coal today afforded business observers another yard-stick with which to measure the acceleration of United States heavy industry.

Recent quickening of the output pulse brought production for the year to Nov. 21, to about 374,618,000 tons, compared with 326,438,000 tons in the like period of 1935.

Observers close to the industry, noting that recent gains followed substantial improvement in output rates in the late summer and early fall, attributed the faster pace in large measure to the gathering momentum in the durable goods divisions.

Improvement in these quarters, they held, has sluiced a good deal of business into bituminous coal channels.

The electric power industry, an important coal consumer, has whirled along to peaks never before touched, turning out energy or the booming motor industry and a host of miscellaneous manufacturing industries, many of which have also been direct users of coal.

The railroads, hauling more freight than in the past five years—much of it for heavy industry—have likewise given bituminous output a forward thrust.

The upswing in coal production, analysts said, also gives emphasis to the speed with which the steel industry has swept ahead.

Meanwhile the manner in which steel makers themselves have loosened purse-strings for new construction programs has served to highlight improvement in the heavy goods sector.

Recent recruits to the list of steel companies and proposed expenditures have been Bethlehem Steel—\$35,000,000, Youngstown Sheet & Tube—\$10,000,000, and Inland Steel—\$250,000,000.

### Eastern Interests Oppose Tariff

(C.P. by Guardian's Special Wire) OTTAWA, Nov. 26—(CP)—The first National Safety Conference today passed resolutions favoring stricter enforcement of laws dealing with drunken drivers, national uniformity in automobile license requirements and traffic laws and compulsory inspection of motor vehicles twice a year.

The conference, ending its sessions, deplored failure to check and punish adequately persons driving cars while under the influence of liquor or narcotics. It urged a proclamation be issued by provincial governments, under sponsorship of the Dominion administration, calling for observance of a national safety week in 1937.

Another resolution said the conference "views with alarm" interference with enforcement of traffic regulations and urged all organizations co-operate in backing law-enforcement agencies. The resolution did not enlarge on the point of interference but it was taken to mean "fixing" of court summonses for traffic law violations.

### Ancient Calendar Found In Jungle

(Canadian Press) NEW YORK, Nov. 26—The discovery of a huge stone calendar in the jungles of Colombia, believed to be the earliest known invention for telling time in the Western Hemisphere, was reported here by Prof. Hermann von Walde-Waldegg, curator of the University Museum of Boston College.

Dr. Waldegg returned recently from Colombia where for five months he conducted an expedition sponsored by Boston College and the University of Pennsylvania into the study of ancient Colombian culture.

The stone is semi-circular and measures about eight feet wide and about four feet high. Chiselled hieroglyphics divide the calendar into 80 solar cycles, 120 lunar cycles and into groupings of 14 and 20, which may indicate months. Dr. Waldegg said, "Further research will be needed before we can arrive at its true significance," he said.

Dr. Waldegg explained that the calendar apparently was used by an American civilization which existed in the third century, A. D. Under this civilization there existed a clan organization of stone statue builders extending from Peru and Ecuador across the Western, Central and Eastern Cordillera of the Andes. This culture was more or less contemporary with the Mayan of Yucatan, he said.

The statue builder were a branch of an ancient tribe of Indians who occupied northeastern South America before the Aztecs and long before the Incas, Dr. Waldegg said. Since the Incas did not appear until the 10th century there appears to have been in

### Bedeque And Vicinity

Mr. Duncan Murray, Chelton, has gone to New Brunswick to work in a saw mill.

Mrs. Norma Bears, Chelton, has been visiting in Bayfield and Little Shimogue N. B.

Thursday evening a large number of friends gathered at the home of W. T. Bowness to bid farewell to Mrs. Sharp and family, who have moved to Summerside.

Mr. and Mrs. Charles Schurman, Chelton are visiting in New Brunswick.

Mr. and Mrs. Percy Affleck, Lower Bedeque have returned from a short visit to New Brunswick.

A sad gloom was cast over Bedeque on Monday in the passing of Mrs. Dina Newsum, after an illness of only two days. For the past few years she had made her home at Mr. Sinclair Affleck's.

Mr. Frank Murray, Chelton, has gone to New Brunswick for the winter months.

Mrs. Gertrude Murray has returned to her home in Chelton.

Dr. H. W. and Mrs. Moyses have taken up their residence in the house formerly occupied by Mrs. Sharp.

### SCRIP ISSUE

(Continued from page 1)

increase in purchasing power and being issued to people on relief and on highways work would give purchasing power where it had not existed." We respectfully point out that there is no increase in purchasing power when the prosperity certificates are substituted for part of the legal pay of a civil servant.

### National Safety Parley Concludes

(C.P. by Guardian's Special Wire) OTTAWA, Nov. 26—(CP)—The first National Safety Conference today passed resolutions favoring stricter enforcement of laws dealing with drunken drivers, national uniformity in automobile license requirements and traffic laws and compulsory inspection of motor vehicles twice a year.

The conference, ending its sessions, deplored failure to check and punish adequately persons driving cars while under the influence of liquor or narcotics. It urged a proclamation be issued by provincial governments, under sponsorship of the Dominion administration, calling for observance of a national safety week in 1937.

Another resolution said the conference "views with alarm" interference with enforcement of traffic regulations and urged all organizations co-operate in backing law-enforcement agencies. The resolution did not enlarge on the point of interference but it was taken to mean "fixing" of court summonses for traffic law violations.
