French Ambassador To Italy Resigns

COUNT ST. AULAIRE, FORMERLY OF COURT OF ST. JAMES APPOINTED TO ROME

ROME, Oct. 12.—The resignation of Rene Benard, the French ambassador to Rome, has caused excited gossip here. Members of the French colony knew that Premier Polcare was irritated by incidents following the recent attempt to assassinate Premier Mussolini, but it had not been thought Benard would be replaced so soon.

The Fascist press stresses Benard's intense admiration for Mussolini and Mussolini's admiration for Benard. Charges made in Paris that the ambassador was hypnotized by the Duce's "charming manners and intelligence."

Count St. Aulaire, who succeeded him, earned an enviable reputation at the court of St. James during the Ruhr occupation and his appointment here is commented upon as proof that M. Polcare admits the great importance of the Rome embassy.

Housewives Conquer Rise In Milk Prices

(Canadian Press.)

TORONTO, Oct. 11.—An interesting feature in the discussion as to fixing of winter milk prices is the "canniness" of local housewives.

The situation so far as the distributors are concerned is that if the price of milk to them goes up they cannot in a considerable measure recoup themselves by passing the increase on to the consumer. The reason for it speaks well for the economy measures which the general housewife takes. She reads about a coming increase and immediately becomes a speculator in milk tickets. Perhaps she and a few of her neighbors form a pool. They buy possibly fifty or a hundred dollars' worth of tickets, enough to do them for two or three months. They pay summer or autumn prices, getting seventeen or sixteen tickets for a dollar. Distributors can beat this procedure by issuing different colored tickets only, which will be accepted under the higher price, but they dislike doing it. It causes work in the redemption of old tickets and doesn't improve the friendliness of the housewife.

The Same Superior Quality in Two Famous Products

Canada's Sugar Beets Seed Equal the Best

Investigation conducted by the Division of Chemistry, under the supervision of the Dominion Chemist, Dr. P. T. Shutt, M. A., D. Sc., F. I. C. for over twenty-two years establishes the fact that within the boundaries of the Dominion, sugar beet seed of the highest grade can be produced in his report for the year ending March 31st, 1926, Dr. Shutt furnishes particulars in summarized form of the investigation that is still being continued not only at the Central farm in Ottawa but also at a score of other Dominion Experimental Farms and Stations situated in each of the nine provinces of the country. The plan of work has comprised the growing under approved methods of well-recognized high sugar varieties at these widely distributed points and the analysis at Ottawa of representative beets from the harvested crops, seven of which were imported from Germany, France, Denmark, Russia and Holland, the eighth being the Canadian grown Kitchener variety. In his report, which can be had free of cost on application to the Publications Branch of the Department of Agriculture, Ottawa, Dr. Shutt notes a rather remarkable similarity of quality among the varieties under test. He also remarks that they indicate an excellent quality for factory purposes and are of especial interest when it is remembered that they are from points scattered across the wide Dominion. The Canadian grown seed has produced beets fully equal in sugar content and purity to the production from imported varieties. The results of the investigation, which also report on the states from Charlottetown, P. E. I., Kentville, N. S., Fredericton, N. B., St. Anne de la Pointe, Quebec, Lethbridge, Alta. and Summerland, B. C., stand out exceptionally high. (Issued by the Director of Publications, Dominion Department of Agriculture, Ottawa.)

Hamburg Apple Market Prospects

The prospects for the coming apple season are for a very much larger import of North American apples into Hamburg than during any season since the war, writes Trade Commissioner L. D. Wilgress, Hamburg, in the forthcoming issue of the Commercial Intelligence Journal. This year the apple crop has been short throughout the continent of Europe. It is roughly estimated that for the whole continent the crop is about two-thirds of an average crop and about one-half of that of last year.

Leading Hamburg fruit brokers anticipate a total import of overseas apples during the coming season of about 50 per cent. more than last year in the case of boxed apples and as 100 per cent. increase over last year in the case of barrelled apples. During the 1925-26 season approximately 620,000 boxes and 65,000 barrels of apples were imported into Hamburg, so that the coming season may witness an import of nearly 1,000,000 boxes, and over 100,000 barrels. Consignments from the United States will probably be large throughout the season.

Belgian Importers are Reporting an Active Demand for Canned Fish

Belgian importers are reporting an active demand for canned fish of all kinds, writes Trade Commissioner Y. Lamontagne, Brussels, in the forthcoming issue of the Commercial Intelligence Journal. The improvement in the demand is reflected in imports amounting to 16,346,660 francs in the January-May period of 1926, as compared with 10,687,444 francs in the corresponding period of last year. Canada's exports increased to 1,262,418 francs in 1926 from 345,894 francs in 1925, and imports from the United States almost doubled; this in the face of very adverse economic conditions in Belgium. Imports from the United Kingdom show little change; these include Canadian products re-exported to Belgium. For the fiscal year ended March, 1926, Canada's exports of canned salmon to Belgium were valued at \$269,127 as compared with \$287,080 for the previous year and \$422,475 for 1924, while exports of lobster show a similar decline in the same period due to the fall in the value of the franc and the corresponding rise in the price of tanned fish.

Rowntree's Take Over Cowan Company Plant

TORONTO, Oct. 12.—Following out their plan to establish branch plants in the Dominion, the Rowntree Company of York, England, cocoa and chocolate manufacturers, have arranged to take over the plant of the Cowan Company, Sterling road, on January 1st, 1927. This announcement was made today by Mr. Arthur Nelson, the managing director of the Rowntree Canadian company.

As soon as the transfer is made the new owners intend to make very extensive alterations and install considerable new equipment to enable them to increase the production of their goods.

The plant on Sterling road consists of three buildings valued at about \$1,000,000 and turnover is around \$2,000,000 and some four hundred people are employed.

The mother plant in York is over 200 years old and at present employs 7,000 hands. The factory there has not the ordinary appearance of such buildings but is approached through an avenue of trees shading well-trimmed lawns. For the recreation of the employees there are grounds of over 200 acres with swimming pools, bowling greens, tennis courts and fields for other athletics. Here the girls there is a dining hall seating 2,500 and for men a canteen with accommodation for over 500.

Mr. W. C. Robertson.

Dear Mr. Robertson:—In the natural course of events the time is near at hand when you shall take your departure from our midst. Some four months ago you came as a total stranger to labour among us the members and adherents of the congregation of Bradabane, Rose Valley and Tryon in the interests of the Master Kingdom. By your kindly and genial manner coupled with your strong and noble character you have found a deep place in our hearts. It was our delight to assemble from week to week on the Sabbath Day, and listen to your thoughtful and helpful sermons. We would have you know that you have won the admiration and the esteem of both old and young. And we wish to assure you that we will miss you when you shall have gone from us. Before saying farewell we would ask you to kindly accept a small gift as a slight token of the esteem in which you are held by us. We trust that you will value this not as much because of its intrinsic worth but rather because of the expression of admiration and good-will conveyed by the giving of it from us to you. And now farewell. May God's richest blessings rest upon you in the future in what ever part of His Vineyard you may be called upon to toil and should it be that at any time in the near or in the far distant future you should decide to come back again that among the friends of Bradabane, Rose Valley and Tryon, a hearty welcome will be found awaiting you.

Mr. Robertson although entirely taken by surprise made a very fitting reply after which dainty refreshments were served by the ladies.

The singing of the hymn "Blest be the tie that binds", brought the gathering to a close.

Signed on behalf of your many friends,

American Farmers Want Political Help

(Canadian Press)

WASHINGTON, D. C., October 12.—According to Senator Frazier of North Dakota, based on his observations in much of the northwestern and western agricultural area this summer and all, there is increasing demand in the farming states for legislation which will put the producer on a sound economic basis.

Senator Frazier, who is anti-Coolidge, and who insists the President is losing his grip in the northwest and west, declares the farmers are more determined than ever to seek relief through political channels. He describes the conditions among the farmers as spotted. That is, he says in some localities conditions are good but in others the farmer has been hit by entire failures of crops. He says they are without money or credit to buy food for this winter or seed for next year's crops. Unless relief is given them, Senator Frazier says they will have to leave the farm. To make matters worse banks in many instances are tightening up in loans.

Senator Frazier says a bill will be offered in the coming session of Congress for the purpose of aiding stricken farmers over until the next crop is harvested. This proposed legislation will be distinct from the permanent agricultural legislation which is talked of, such as the McNary-Haugen measure.

While Senator Frazier does not outline it, the impression is that emergency legislation intended to grant loans to farmers to buy feed for the coming crop season will be attempted. He asserts the attitude of the administration toward such relief legislation will be closely watched. He leaves the inference that the attitude of the executive toward farm relief action this winter will have an important bearing in 1928, although he does not say so directly.

Senator Frazier describes the sentiment of the farmer and farm organizations to secure relief through official channels is strong. The east in Iowa, North and South Dakota and Minnesota and some other states west of the Mississippi but as growing in Illinois, Indiana and Ohio. He says lack of organization by farmers in the older states is less marked than in the corn and wheat belt.

Scottish and Ulster Markets for Flour

(Canadian Press)

Stocks of flour in Scotland are small, but despite that fact buyers seem rather to have lost confidence in the market and will only purchase from hand to meet immediate needs. Perhaps she and a few of her neighbors form a pool. They buy possibly fifty or a hundred dollars' worth of tickets, enough to do them for two or three months. They pay summer or autumn prices, getting seventeen or sixteen tickets for a dollar. Distributors can beat this procedure by issuing different colored tickets only, which will be accepted under the higher price, but they dislike doing it. It causes work in the redemption of old tickets and doesn't improve the friendliness of the housewife.

Woman Has Narrow Escape From Drowning

(Canadian Press.)

MONTREAL, Oct. 11.—Hurled from her wagon when it was struck by an automobile, Mrs. Joseph Constant, aged 34, of St. Lambert, clung for several minutes to the railing of Victoria Bridge before she was saved from dropping into the swirling river waters below. Men hauled her to safety as her fingers were losing their grip on the wet rail. In order to escape death she was forced to drop her purse into the river. It contained \$35, the proceeds of a day's sales of farm produce at the market.

Percentages of Increase in Exports of Canadian Products

The total export trade of Canada for the period ending August, 1926, was \$1,323,150,712 as against \$1,130,753,557 in the period ending August, 1925, an increase of 17 per cent. The following figures, compiled from a report by the Dominion Bureau of Statistics, published in the forthcoming issue of the Commercial Intelligence Journal show the percentage of increase or decrease in Canadian exports to the principal countries. Increases for the period ending August, 1926, as against the corresponding period in the last fiscal year: Switzerland, 355 per cent.; China, 320; Italy, 111; Japan, 92; British East Indies, 87; Norway, 78; Australia, 37; United Kingdom 18; United States, 7 per cent. Decreases: Russia, 92 per cent.; Sweden, 16; Germany, 15; Newfoundland, 12 per cent.

Danish Market for Leather

The openings for the sale of Canadian leather to Denmark are chiefly confined to upper leather, such as box calf, patent sides and small skins and finished splits, writes Trade Commissioner L. D. Wilgress, Hamburg, in the forthcoming issue of the Commercial Intelligence Journal. There is not much opportunity for the sale of sole leather to this market as the Danish tanners supply 90 per cent. of the country's requirements and the balance is principally comprised of imports from Germany. Germany supplied nearly half of the total Danish imports of upper leathers in 1924. The United States was the next largest supplier while smaller quantities were imported from Great Britain and France. In patent leather, however, Great Britain shipped almost the same quantity as the United States. For fiscal years 1924 to 1926 Canada's exports of upper leather to this market were valued at \$35,024, \$29,364 and \$25,206 respectively.

evidence of which was the largely increased attendance which rumors concerning the probable program produced. The burlesque took place in Beethoven Hall, but the whole main floor, and the departments of Principal and Mrs. Ross were thrown open to the guests. The rooms and halls have been redecorated and are indeed greatly improved in appearance. Refreshments served in the reception and dining rooms brought to a close a most enjoyable evening and "1926 Welcome" was voted by all present in the best yet.

Lady Mond Likes Canadian Peonies

(Canadian Press.)

MONTREAL, Oct. 11.—Attracted first of all by the display of Canadian peonies at Wembley, Lady Mond during her stay in the city, took steps to ensure the planting of a bed of local peonies on her estate, Melchet Court, Ramseyes, Hants, where there is one of the finest gardens in England.

Address And Presentation

The home of Mr. and Mrs. Robert McLeod, Bradabane, was the scene of a very enjoyable gathering on Friday evening, Oct. 1st, when upwards of sixty members and adherents of the congregations of Tryon, Rose Valley and Bradabane in honor of Mr. W. C. Robertson, their student pastor who was shortly to leave for his home in Ontario to resume his studies in college.

Rev. R. H. Stavert ably acted as chairman. A suitable musical program was rendered and was very much enjoyed by all present. Mr. H. M. Chisholm from Tryon congregation read the following address. It was accompanied by a well filled purse, which was presented by Mr. Kenneth Graham.

Put Stomach In Order At Once

"Pape's Diapepsin" for Gas, Indigestion or Sour Stomach

Instantly Stomach corrected! You never feel the slightest distress from indigestion or a sour, acid, gassy stomach, after you eat a tablet of "Pape's Diapepsin." The moment it reaches the stomach all sourness, flatulence, heartburn, gases, palpitation and pain disappear. Druggists guarantee each package for correct digestion at once. End your stomach trouble for few cents.

DRESSED HOGS WANTED

We will commence to receive Dressed Hogs on Friday, 15th inst. Hogs should be killed on cool days only and allowed to hang twenty-four hours before shipping.

Mt. Allison University

SACKVILLE, N. B., Oct. 11.—The promise of novelty in the Freshman Initiation at the opening of Mount Allison University was amply fulfilled on Thursday, when the event took place. For some years the pettiness of the affair has been felt by the college men. As a result the sophomore class, under the leadership of its President, "Bubs" Wilson, of St. John, this year suggested a change which has met with an enthusiastic endorsement. On the afternoon of the initiation, an equal number from the freshman and sophomore classes, accompanied by upper-classmen, held a flag rush, the freshmen attacking and the sophomores defending a flag attached to a pole set in the campus. The freshmen pressed the defenders very hard at the beginning of the rush, but the sophomores rallied and when time was called were still in possession of the flag.

This rush was followed by a tug of war, between the two classes, across the Ladies' College pond; an event which furnished great amusement for the large body of onlookers, both town and gown. After several false starts due to the breaking of the rope, the tug began. Once again the rope failed, but this time it parted in the middle of the sophomore team, leaving only a portion of that team pulling. These were speedily dragged through the pond, the remainder of the sophomores voluntarily following them through. The freshmen, being the reason for their hollow victory, themselves plunged into the pond and waded across. Both contests were carried out in the spirit of good sportsmanship, and the best of feeling was evidenced between the classes.

In the evening, in the gymnasium a further novelty was staged in the freshman book rush. A book was put on the floor, in the centre of a circle of freshmen, who at a signal, rushed to get possession of it. The object of the winner was to put the book on a chair at the other end of the gymnasium. After a prolonged struggle, a whistle was blown, and all without a hand on the book were forced to fall out. Those left continued the fight for possession, each man falling on his back, or each man on the book, until but three were left. The affair here assumed an interprovincial aspect, as the three remaining were Nell Matheson, of Bradabane, P. E. I., James Frier, of Sussex, N.B., and Clarke Muir, of Shelburne, N.S. Frier was then eliminated and Matheson and Muir fought it out. The book, which was entitled "Fighting Blood" was won by Matheson, another being awarded to Muir, however, in recognition of his fine struggle.

Altogether a very fine spirit prevailed throughout the entire affair, and it is believed that a precedent has been established that will meet with the hearty approval of all and become one of the traditions of the university.

On Friday evening the annual "Welcome Reception" was given in the halls of the Ladies' College, and was also somewhat unique. In place of the usual promenades and musical numbers, a series of burlesques on student activities was given by the students of the Ladies' College, and one on the Ladies' College girls by the boys of the University. These proved very amusing and enjoyable to all, the best
