## Kentucky Derby Winner Will Annex Big Purse

(Associated Press)  
LOUISVILLE, Ky., Feb. 2.—A record number of nominations for the fifty-first renewal of the Kentucky Derby is expected by turf writers who, taking into account the large number of high-class colts being wintered at Louisville tracks and elsewhere, predict the 152 nominations of last year will be exceeded when the entries close Feb. 21.

The race for three-year-olds, at a mile and a quarter, will be run at Churchill Downs Saturday, May 16, the seventh day of the spring meet.

The purse with \$50,000 added by the Kentucky Jockey Club, may be the largest in the history of the half century old classic. Last year 10 of the 152 nominees accepted the issue, making the purse \$52,775 for the winner, Black Gold. The year previous when Zev, the Rancocas Stable's colt, won, 20 started, giving the race a net value of \$53,600. The starting fee, \$500, is added to the \$50,000 purse.

## Presidents Address To Western Grain Growers

REGINA, Sask. Jan. 9.—Directing a thunderous broadside against the tariff policy of the Dominion government, George F. Edwards, in his presidential address before the annual convention of the Saskatchewan Grain Growers' association here declared that continuance to such an "un-national and short-sighted policy" would inevitably lead to a definite break between Eastern and Western Canada.

He further castigated the federal government for not giving greater attention to the problems of the farmer. The unfavorable conditions of the basic industry of the country, he maintained, was well known to the government and all business interest in Canada, but a spirit of apathy and indifference seemed to be a more preferable course for these interests to follow.

"We in the West, believe that we have never been fairly treated by the governments of Canada, irrespective of party, with respect to the fiscal policy of the country during the past 40 years," Mr. Edwards said. The protective tariff he characterized as "one of those hampering disabilities," which had been raised particularly to foster manufacturing interests, without giving thought to the consequent hardships which is brought upon the agricultural industry.

"There never has been and apparently never will be, any advantage that will accrue to the farmer in the West by the

## SOFT SHELLED EGGS

Some farmers have trouble with hens laying soft shelled eggs. Sometimes this is caused by an overfat condition or a poorly balanced ration.

If any of your hens lay an occasional soft-shelled egg, make sure that they are getting plenty of green food and that they are made to exercise in the straw litter. If this is done and the balanced ration and oyster shell do not put a stop to the soft-shelled eggs, you may be sure that the trouble is due to some abnormal condition that prevents the fowls from manufacturing the lime as fast as it is needed. When this is the case the only cure seems to be to cull out any hens that are known to lay soft-shelled eggs frequently.

Such eggs are not only a frequent loss, but the breaking and eating of them by the other fowls encourage the habit of egg-eating.—N. P.
