The people of Kensington have been seriously considering the advisability of constructing a system of waterworks for their town. They propose utilizing the gravity system and it is the opinion of many that a reservoir can be constructed on the hill, about 700 feet from the town, which can be filled from a spring near by. H. R. Moore was in town Saturday and consulted Chas. Dalziel, Waterworks and Sewerage Engineer on the feasibility of the scheme. Mr. Dalziel gave such advice as would be of benefit and an engineer may be engaged shortly to make a report to the town interested.

A GOOD DEAL OF NONSENSE.

About "Blood Purifiers" and "Tonics." Every drop of blood, every bone, nerve and tissue in the body can be renewed in but one way, and that is, from wholesome food properly digested. There is no other way and the idea that a medicine in itself can purify the blood or supply new tissues and strong nerves is ridiculous and on a par with the fol-de-rol that dyspepsia or indigestion is a germ disease, or that other fallacy, that a weak stomach which refuses to digest food can be made to do so by irritating and inflaming the bowels by pills and cathartics.

Stuart's Dyspepsia Tablets cure indigestion, sour stomach, gas and bloating after meals, because they furnish the digestive principles which weak stomachs lack, and, unless the deficiency of pepsin and diastase is supplied, it is useless to attempt to cure stomach trouble by the use of "tonics," "pills" and "cathartics" which have absolutely no digestive power, and their only effect is to give a temporary stimulation.

One grain of the active principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of meat, eggs and similar foods, and experiments have shown that they will do this in a glass tumbler at room temperature, but of course are much more effective in the stomach. There is probably no remedy so universally used as Stuart's Tablets, because it is not only the sick and ailing, but well people who use them at every meal to insure perfect digestion and assimilation of food. People who enjoy fair health take Stuart's Tablets as regularly as they take their meals, because they want to keep well, prevention is better than cure, and Stuart's Dyspepsia Tablets do both; they prevent indigestion and they remove it where it exists. The regular use of one or two of them after meals will demonstrate their merit and efficiency better than any other argument.
