Chinese In 2-Pronged Offensive

By SPENCER MOOSA

CHUNGKING, Aug. 3 — (AP)—Chinese troops have captured Sinning and closed within 12½ miles of Chuanhsien in a double-pronged drive toward the former airfield at Lingling, Chinese headquarters said tonight.

The fresh advances toward Lingling, 370 miles southeast of Chungking, were disclosed after Lt.-Gen. Albert C. Wedemeyer, United States commander in China, predicted large - scale offensives soon by American - trained Chinese forces, including paratroopers.

Meanwhile, other struck to points, 12½ and 19 miles west of Chuansien, stronghold on the Hunan-Kwangsi railroad 40 miles from Lingling. The Japanese rushed in reinforcements and bitter fighting broke out, a communique said.

Chinese units pushing up the railroad from Kweilin, a late communique said, captured Ling-Chwan 15 miles north of the city, and pushed Japanese forces retreating toward Hingan, 32 miles northeast of Kweilin.

The Chinese command said the withdrawal by an estimated 20,000 Japanese in Kiangsi province had been stalled south of Siakiang, 70 miles south of Nanchang, goal of the enemy retreat. It also declared the enemy had suffered 1,100 casualties between July 25-30 in fighting around Kian, 110 miles south of Siakiang.

Gen. Wedemeyer, who also is chief of staff to President Chiang Kai-Shek, said the tonnage of supplies flown over the hump from India is increasing, but "our goal is sea communications."

Reallocation Of Areas Is Discussed

(By The Canadian Press)

LONDON, Aug. 3—The British and American chiefs of staffs discussed the reallocation of areas and command in the Southwest Pacific and Southeast Asia areas at Potsdam, the Foreign Office announced tonight.

The statement said:

"During the Berlin conference, American and British chiefs of staff held daily meetings to perfect details of the co-ordination of British and American forces in accomplishing total defeat of the Japanese military and naval forces and the unconditional surrender of Japan at the earliest posible date and to liberate Japanese-occupied territory.

"The British will bring to bear against Japan all of their naval, land and air forces which can be advantageously used.

"There was a discussion of reallocation of areas, and consideration was given to the employment in the war against Japan of forces of other Allied nations that are at war with Japan. The proposals of the combined chiefs of staff were approved by the President and Prime Minister."

Speculation has been that Admiral Lord Louis Mountbatten, southeast Asia commander, would be given the task of clearing the Japanese from by-passed areas such as the Dutch East Indies, now under command of Gen. MacArthur. The American General would thus be allowed to concentrate on the Japanese home islands. Lord Louis attended the Potsdam conference, fresh from conversations in Manila with Gen. MacArthur.

* * *

In Washington, it is expected that Admiral Mountbatten will be given a greatly enlarged command area embracing the bulk of the territory over which Gen. MacArthur originally had control. That is the area of the Southwest Pacific which includes Australia, the Solomon Islands and the Dutch East Indies. The area, it is believed, will extend from the Solomons north and west to a line running just south of the Philippine Islands. It will give the British leader the task of liberating the Indies, the Malay States and Singapore.

Island Boy Not Guilty Of Mutiny

(By The Canadian Press)

ALDERSHOT, England, Aug. 3—A Canadian general court-martial today ended hearings of charges against three Canadian soldiers arising out of last month's riots here.

Two of the accused men—Pte. I. L. MacIntyre of St. Avards, P.E.I., and Sgt. Emmanuel Schuler of Burstall, Sask.—were declared not guilty of major mutiny charges, but findings in two lesser charges against MacIntyre and three against Schuler will be promulgated later.

The court previously had thrown out a charge of having caused mutiny, laid against Pte. Lloyd States, negro, of New Glasgow, N. S., and announced findings in five lesser charges against him would be promulgated later.

All three men had pleaded not guilty. Two others will be tried by a separate court-martial.

Schuler made no testimony in his own defence and called no witnesses during the early part of today's session. McIntyre denied any connection with the riots other than having tried to quiet an unruly crowd of Canadian soldiers milling about this garrison town the nights of July 4 and 5.

The court found MacIntyre not guilty of causing a mutiny and Schuler innocent of not suppressing a mutiny. Still to be promulgated are findings in the following charges.

Against MacIntyre: Endeavoring to persuade others to join a mutiny; interfering with civil and military traffic.

Against Schuler: Joining in the mutiny; using violence to a superior officer; using threatening language to a superior officer.

Against States: Endeavoring to persuade others to join in a mutiny; causing riotous damage the nights of July 4 and 5; inciting others to do property damage both those nights.

Potsdam Conference Discussions Hailed By Soviet Press And Radio

By EDDY GILMORE

MOSCOW, Aug. 3 — (AP) — The Russian people, press and radio enthusiastically hailed today the Big Three's decisions at Potsdam, including the agreement in principle to place the ice-free port of Koenigsberg and roughly 5,400 additional square miles of East Prussia in Soviet hands.

The army newspaper Red Star declared that the East Prussian Capital for centuries "was an important springboard of Prussian-German aggression against Slavonic peoples."

Text of the Potsdam communique was read twice over the Soviet home radio. There was not a single note of criticism in any of the editorials or broadcasts on the conference.

Izvestia said the Potsdam conference "offers new assurance that the government and peoples of the three great democratic powers, together with the other United Nations, will provide the creation of a just and lasting peace."

The government newspaper gave over its entire front page to the conference, and printed a three-column picture of President Truman, Premier Stalin, Prime Minister Attlee, State Secretary Byrnes, Foreign Commissar Molotov, Foreign Secretary Bevin and Admiral William D. Leahy, adviser to President Truman.

"The conference which has just ended in Berlin", Izvestia said, "is a bright confirmation of the firmness of the Anglo-Soviet-American coalition, the vitality of ideas and principles of which were proclaimed in the Crimea six months ago.

(By The Canadian Press)

OTTAWA, Aug. 3—Provincial Police today continued to search for a taxi driver whose car was found submerged Wednesday in the Lievre River, 50 miles north of Buckingham, Que.

The driver was originally identified as Herbert Tressider, but a telegram to his employers here from his brother indicated the family name was Ressider.

Duke Of Windsor Denies Accusations

WASHINGTON, Aug. 3 — (Reuters) — **The Duke of Windsor denied tonight that he had held secret political conversations in 1935 with Pierre Laval, former French Premier now in custody in Paris.**

Testifying at the Petain treason trial today, Laval said that in 1935 the then Prince of Wales talked with him concerning the Italo-Ethiopian crisis.

The Duke, now staying in New York, said tonight in a statement issued here through the British Embassy:

"The Duke has authorized the British Embassy to state that although he met Laval at a social function at the British Embassy at Paris in September, 1935, it is untrue that any conversation on political matters took place between them."

Will Press For Rights At Conference

HALIFAX, Aug. 3 — (CP) —The Nova Scotia delegation to next week's Dominion-Provincial conference at Ottawa will "stand firm" for the rights of the Province and the Maritimes as a whole, Premier A.S. MacMillan said today before leaving for the Capital.

The Premier said he was not prepared to relinquish any of the rights the Province now has, but was prepared to "press for certain things that we have been denied ever since confederation."

He said the delegation had made a complete study of questions likely to come up at the conference, but since he had no definite knowledge of the Dominion's proposals he could not make any comment at present.

LAVAL A WITNESS AT PETAIN TRIAL

(By The Associated Press)

PARIS, Aug. 3—Pierre Laval declared at the Petain treason trial today that he signed a secret military alliance with Mussolini after 1936 "to bind Italy and France together against German aggression which already had begun in Austria."

The Vichy chief of government, brought back to France in captivity two days ago, said Gen. Maurice Gamelin and Marshal Pietro Badoglio, who became the Italian Premier after Mussolini's fall, signed the secret agreement after negotiations in 1935 and 1936.

He testified also that the "Hoare-Laval" agreement to bind France and Great Britain in a secret compact "was known to Prime Minister Stanley Baldwin and the entire British Government."

Laval said his agreement with Sir Samuel Hoare (now Lord Templewood) was directed toward blocking the spread of German aggression. He said British authorities were informed of the secret alliance with Mussolini and said that he personally informed "The Prince of Wales"—who became King Edward VIII and the Duke of Windsor—of the pact.

He turned his back on the aged Marshal and leaned upon a chair as he spoke. Laval had been hustled from Fresnes prison after dawn, before Paris was astir, and protested at being awakened early.

"Loved" The Republic

"I am not a Fascist! I am not a Nazi! I love the republic," shouted the haggard, white-tied former chief of government of Marshal Petains Vichy regime.

After recounting numerous secrets of France in the days before and after the armistice, Laval was confronted by M. Pomaret, former secretary-general of the Senate.

M. Pomaret recalled the fateful July 10, 1940, meeting at which three constitutional acts were passed giving the Marshal full powers. He said Laval asked him to get the signature of Jules Jeannery, Senate president, commenting: "This is where we overthrow the Republic."

Nippon Harbors Plugged With Air-Sown Mines

Food And War Supplies Cut To Less Than Half Of Country's Needs.

GUAM, Aug. 3 — (AP) — Superforts have plugged every major Japanese harbor with air-sown mines and the strangulation ring was declared complete as nervous Nippon reported a great Allied fleet gathering at Okinawa for a possible homeland invasion move.

The 20th Airforce announced today that the Superforts had mined all important harbors of Japan and Korea to within 21 miles of Russia. It said only "shadow" shipping could move now.

Japan's flow of food and war supplies was declared cut to less than half the country's needs as a result.

Tokyo radio claimed 500 Allied warships, including battleships and cruisers, had recently concentrated in Okinawa waters.

Tokyo Attacked

The unconfirmed enemy claim was made in a Tokyo newspaper analysis of mainland invasion prospects, which offered the opinion that no more than 40 American divisions could be landed before 1946.

Tokyo also reported 100 American fighters and a few Superforts attacked the Tokyo area for 90 minutes Friday.

Superforts have been busy with the mine-laying operations during the last four months. They extended the missions to the most distant harbors in recent weeks while other Superforts and British and United States battleships were burning and blasting Japan with some of the greatest air-and-sea blows of history.

Whereabouts of the Allied fleet since it attacked southwestern Honshu Monday was still hidden by a security blackout.

In its three weeks of marauding up and down the coast of Japan the fleet did not lose a single ship and none was reported even damaged. The losses, as listed in communiques, were 116 American planes and 97 fliers and 13 British planes and three fliers. This was considered a small toll for the many thousands of sorties made.

A 20th Air Force spokesman said that the B-29's would continue dropping mines in the harbors as fast as the Japanese removed them or blew them up with suicide boats. He declared such boats were being used to clear the channels.
