OR SALE FORD CAR HAS BEEN overhauled, will take horse and wagon for past payment. Apply M. Martin 20 Douglas St. 2739-7-18-31

MILL VIEW SCHOOL
 The closing exercises of Mill View School were held on Friday, June 29, and, notwithstanding the heavy rain, a large number of ratepayers and visitors were present. The pupils were examined in the various subjects by their teacher, Miss Marion McSwain, assisted by Mrs. Charles MacKenzie and Miss Mary Hynes, and their prompt and ready answers, gave evidence of careful training on the part of their teacher. After the examination, a short program was rendered at the close of which the pupils presented the teacher with a beautiful ivory set accompanied by the following address:

Dear Teacher—Having learned with sincere regret of your intended departure from our midst, after a sojourn of but five months, the pupils of Mill View School desire to express in some small measure our appreciation of your kindness and good will towards us, and of your painstaking efforts in our behalf. You have ever placed before us the motto: "Honesty of purpose, and high ideals," and, dear Teacher, any progress we have made in this short term, we attribute entirely to your untiring efforts and careful training. We fully realize that at times we have been impatient, but, what did we receive in return?—"The bright sunshine of love and encouragement," and, in future years, we shall ever feel the cogency of the poet's words—

"When Time, who steals our years away,
 Shall steal our pleasures, too,
 The memory of the past will stay,
 And half our joys renew."
 As a mark of our esteem and affection, dear Teacher, we ask you to accept this small token, and with it our sincere wishes for a long and happy life.

(Signed)
 Ethel Grant,
 Goldie Macinnies,
 Marion Lea,
 Harold Dunphy,
 Ethel Hynes,
 Hazel Smith.

On behalf of the pupils of Mill View School.
 The teacher thanked the pupils for their gift, and assured them she would always remember the kindness of the ratepayers and pupils of Mill View School District. Complimentary remarks were made by several gentlemen present, congratulating both teacher and pupils on the splendid work done in the short time she was in charge of the school. Miss McSwain treated the over-populated and under-protected island of St. John's with the same strong Japanese need to care of their surplus population of these or the Philippines for a big naval base at St. John's, where ships could be sent to the Pacific, have been started. Work on the base is to be started. The Mediterranean fleet will keep open the route to it, and use the route to necessary Naval experts the United States with the United States powers to be another supreme in the Mediterranean. As to the Pacific, the experts are hoping for the best.

Powerful British Ships
 The ships are of 30,000 tons, 15-inch and fourteen 6-inch guns. They have a speed of 22 knots an hour, and are heavily plated. Speed in them has sacrificed to protection. The fleet is building up its Mediterranean fleet to what it used to be before Germany made the war-ocean, Great Britain preparing to develop her strength in the Pacific. Australia and New Zealand, unprotected and under-protected, are the over-populated and under-protected island of St. John's with the same strong Japanese need to care of their surplus population of these or the Philippines for a big naval base at St. John's, where ships could be sent to the Pacific, have been started. Work on the base is to be started. The Mediterranean fleet will keep open the route to it, and use the route to necessary Naval experts the United States with the United States powers to be another supreme in the Mediterranean. As to the Pacific, the experts are hoping for the best.

EMORRHOIDS
 Do not suffer another day with itching, bleeding, or protruding piles or hemorrhoids. No operation required. Dr. Chase's all relief will relieve you at once and will benefit the box; all examination to a close.

Eastern Guardian Spain Disturbed Over New Losses In Moroccan War

LONDON July 18.—Spain is facing a grave crisis over the Moroccan situation, says a Reuters Dispatch from Madrid. The problem appears every day to be farther from a solution. The situation is extremely delicate, and the abortive attempts which have been made to arrive at a bloodless settlement have only aggravated it. The Moroccan campaign is unpopular in many quarters, the correspondent continues, and the vacillating policy which has been the outcome of many recent changes of government has so far produced no definite results. The territory lost in 1921 has never been entirely reconquered and the civil protractate which was declared last February exists in little more than name, inasmuch as the Rif leader, Abderrim, is still in possession of a large portion of the zone and has been able to make his own terms with the Spanish in regard to the release of prisoners. The government's policy was to reorganize the army and make a determined bid for the conquest of the zone, but the recurring demands in the press for the cessation of hostilities and the punishment of those responsible for the former defeats forced it, for a time, to abandon the idea of further aggressive action. The army was, however, reorganized and newly equipped with tanks, aeroplanes and other modern instruments of war.

IN MEMORIAM

MRS. D. J. McNEILL.
 Death occurred after a lingering illness at Albany, Lot 27, of Mrs. D. J. McNeill. Mrs. McNeill was the daughter of Mr. and Mrs. Abraham Noonan, and was in her 36th year. She leaves besides her parents, sisters and brother, a husband and three children. The funeral took place from Albany on July 14, to St. Paul's Roman Catholic Church, Summerside, where a high mass was celebrated at 10.30 a.m. by the Rev. Father McKenzie. Her remains were laid to rest beside those of her three months' old son, who predeceased her a few years ago. May her soul rest in peace.

MR. ALBERT E. McNEILL.
 At Wellington on Sunday, June 24th, after an illness of nearly three months, there passed to his heavenly reward Albert Ernest McNeill, beloved son of Mr. and Mrs. John D. McNeill, at the early age of 15 years and four months. He bore his sickness with true Christian patience and fortitude, and never was heard to murmur against God's holy will. The deceased was kind, unassuming and loyal, and was a general favorite. He possessed all the qualities of a many youth, of him may it be truly said that he lived and died with an enemy, or a stain on his good character. In his last hours he was strengthened by the rites of the Roman Catholic church, administered by his pastor, Rev. F. L. Connelly. He leaves a sorrowful father and mother, four sisters and two brothers, to mourn the loss of a kind and loving son and brother. The funeral took place on the 26th to Saint Mary's church, where a large concourse of relatives and friends followed the remains to pay their last tribute of respect. A requiem high mass was celebrated by Rev. F. L. Connelly. The pall bearers were six of his comrades: David and Philip Lecky, Colin McDonald, John O. Bishop. May his soul rest in peace.

MRS. JOHN McNALLY.
 There passed peacefully away to her eternal reward on Tuesday, June 19th, Katherine Callaghan, nee of the late John McNally, Donagh, in the 74th year of her age. Deceased, who had a very strong constitution, always enjoyed good health, and was seldom, if ever, indisposed. Some four months ago she was stricken down with a severe attack of paralysis, and although after some time she recovered her senses, still she never regained complete control of her limbs, and gradually her strength declined away. Mrs. McNally was a hard-working, industrious woman, pleasant and sociable in her ways, but careful and economical in the management of her home. She leaves to mourn, her nephew, John McNally, his wife and family, with whom she lived, and who nursed her tenderly through her long illness. She was frequently visited during her illness by her pastor, Rev. A. J. McDonald, who administered to her the last rites of the Catholic church, and who performed the funeral services at the church and grave. May her soul rest in peace.

MRS. ALBERT ADAMS
 The many friends of Mrs. Albert Adams of Oleary were saddened by the news of her death which took place on the 24th June after a short illness in her 76th year. Mrs. Adams formerly Miss Sarah Woodside of Malpeque endeared herself to all by quiet unassuming manner, her generosity and kindness to those with whom she met, her hospitality was well known and her home from which she will be sorely missed had a welcome to all. There are left to mourn besides a sorrowful husband Mr. Albert Adams daughter Mrs. McKenzie of Knutsford, sons Nelson at home and George of Mount Royal. The sisters of the deceased are Mrs. Robert McKenzie of Malpeque Mrs. Joseph Dunning Clifton, Miss Margaret Woodside, Kensington, Miss Elizabeth Woodside of Summerside and Mrs. Christopher Gillis of Amherst N. S. The brothers are George Woodside of Oleary and Benjamin of Malpeque. A beautiful wreath from the family and Spray from the Ladies Missionary Society of which organization the deceased lady was a life member and active worker were among the floral offerings.

Warns Against Steam Boilers
 NEW YORK, July 18.—Steam power is taking the place of strong right arms and "elbow grease" in west and middle west farms, according to the Boiler Code Committee of the American Society of Mechanical Engineers. The use of steam for scalding milk pails, cream separators, churning machinery and other dairying apparatus is fast becoming general. Steam power is being used to pump water and saw wood. With the announcement of the increased use of steam on farms, the committee has sounded a warning that the application of safety laws to guard against explosion of high pressure boilers is needed. The high pressure boiler is as potentially dangerous as TNT the committee declares.

WILL REDUCE Inflamed, Strained, Swollen Tendons, Ligaments or Muscles. Stops the lameness and pain from a Splint, Side Bone or Bone Spavin. Germany Lost 187 Submarines The Invaders

WASHINGTON, July 18.—One hundred and seventy-eight German submarines were "lost in action" during the war, according to an official report just received by the Navy Department. The loss in personnel is given as 5,364, of whom 515 were officers. These figures are believed by officials here to be the first authentic information on this subject to be obtained. Four years were consumed, the author of the report said, in interviewing members of the navy, in checking official records (German admiralty who had charge of under-sea craft. Depth charges accounted for 37 submarines, fixed mines for 36, engine and other trouble 14, torpedo boats, destroyers and submarines 12, accidental ramming eight, armed fishing craft six, air plane (bombing) six, and submarine nets six. Twenty-one submarines were demolished or otherwise disposed of to prevent their capture by the enemy. Three were sunk by regular patrol vessels of the enemy, three by armed auxiliaries, two by cruisers and two by artillery fire from the shore. One was sunk by a liner at the entrance to the British main base of Scapa Flow, the famous U-29 under Capt. Weddigen. A chart accompanying the report shows that 56 of the under-sea boats were lost in the English channel, 26 in the North Sea, 16 in the Mediterranean, 16 on the East Coast of England, 12 off the Dutch Coast, three near Heligoland, two in Scapa Flow, and the remainder in far-separated spots in the world's oceans. Of the boats interned before the German fleet was delivered to the allies, the report says, five were sold to Spain and two to Holland while 14 were demolished. Inspection of the boats of ship building firms holding contracts showed that 281 submarines had been delivered and 197 were under construction when the armistice was signed.

AMERICAN Y. M. C. A. SCHOOL IN BERLIN LURES REFUGEES.

BERLIN, July 19.—Forty-two hundred Russian refugees, scattered all over the face of the earth, are taking course in the correspondence school which the American Young Men's Christian Association is conducting in Berlin. A hotel porter in Cairo is studying bookkeeping. Three Russians who have sought refuge in Tunis are studying farm organization. Eight refugees in Turkey are taking courses in stenography. A former Russian officer, who found work in France, oiling steam engines is taking a course in steam engineering. Down in the heart of China one Russian is taking a course in road building. Six Russians in Cyprus are studying radio telegraphy. A Russian in Brazil is taking machine drawing.

Bulgaria has a larger number of correspondents than any other country, 864 in all. Most of these are studying mathematics but there are also many there who are taking courses in farm organization and bookkeeping, and 127 Russians in that country are taking eight technicals.

Eight Russians in the United States are taking courses from the Berlin school, most of them mathematicians. But Bulgaria, Rumania, Jugoslavia, Czechoslovakia, Poland and Germany, the countries where the greatest number of Russian refugees are, lead all others in their enrollment. Poland is second with 810 male students.

The new Baltic states, Latvia, Lithuania and Estonia, are also well represented in the list, having from 150 to 400 students each. Algeria, Morocco, Syria and Palestine also are represented.

To Salty.
 If the ham or tongue seems particularly salty, change the water when it is half done and start again with fresh water. This will eliminate a great deal of salt.

FRECKLE-FACE

SUN AND WIND BRING OUT UGLY SPOTS. HOW TO REMOVE EASILY.
 Here's a chance, Miss Freckle face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clean complexion the expense is trifling. Sift get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine as this strength is 20 times guarantee of money back if it fails to remove freckles.

ABSORBINE

Royal Family Set on Policy of all British Marriages

(By Dominion News Service)
 LONDON, July 19.—The British royal family is now definitely set on a policy of "All-British" marriages, and no foreigners need apply. Such is the interpretation generally placed on the announcement of the betrothal of Princess Maud, daughter of the Princess royal and niece of King George, to Lord Carnegie, her ancient earldom of Southesk. The pre-wedding of Prince Arthur of Connaught to the Duchess of Fife (Princess Maud's sister) and of Princess Patricia of Connaught to Captain Alexander Ramsey, were regarded as interesting incidents, but not necessarily precedents. But since the war all British royals have taken British brides or bridegrooms greatly to the satisfaction of the British public. There have been no fewer than four such weddings. Princess Mary set the place by marrying Viscount Lascelles; Lord Louis Mountbatten King George's cousin, married Miss Edwina Ashley; the Duke of York "hitched up" with Lady Elizabeth Bowes-Lyon, and Lady Mary Cambridge, Queen Mary's niece, married the wealthy young Marquis of Worcester, heir to the dukedom of Beaufort. There may have been financial reasons for some of these matches, but the betrothal of Princess Maud has a double significance in that, although not one of the best known members of the royal family, she is an extremely eligible heiress. Her father, the late Duke of Fife, was of extremely ancient and almost royal blood and, moreover, he was a millionaire. Her mother is King George's sister and Princess royal of Great Britain, hence Maud was in every way the kind of girl to be quickly married off to foreign potentates for dynastic and diplomatic reasons. Not many kings have such eligible kinswomen to place on the marriage market. It is true that the princess royal kept away from court, diplomacy and foreign politics immediately she stepped outside royal ranks to marry the Duke of Fife, but she has a woman of considerable determination and by no means inclined to be made a pawn in the diplomatic game of dynastic chess. Princess Maud has selected the man she wanted, regardless of rank or money, and the fact that she was allowed to do so confirms the suggestion that hereafter royal marriages are not wanted in the British reigning family. Now the Prince of Wales—is the general cry.

MONTAGUE EAST SCHOOL EXAMINATION.

The semi-annual school examination of the pupils of Montague East School was held on Friday, June 29th in the presence of a large number of ratepayers and visitors. The pupils were examined in the different subjects by Rev. Michael J. Rooney and Mr. William McCody an ecclesiastical student and were found to have excelled in each subject thereby proving that the standing of this school has been raised to a high degree of perfection under the careful and untiring efforts of the teacher, Miss Mary Cavanagh during her two years of service there. After the examination was over Mr. Earl Gorman was called on to take the chair and a well prepared programme was given by the children, after which complimentary remarks were made by the examiners and chairman. After all were treated to a generous supply of candy the teacher

was presented with a sum of money by Miss McCabe and the following address read by Stanley Hughes:
 Dear Teacher:
 Another year has elapsed under your kind and efficient guidance and today we are all assembled at the closing of one of the most successful years in the history of this school. By your untiring labor you have raised us to the present standard and if we in any way fall short of the required perfection it is entirely due to our own neglect. As joy is always mingled with sorrow, so today the joys of our approaching holidays are mingled with the sad news of your departure. Your departure will not only be the breaking of the ties of a loving teacher but also the losing of a friend. As an appreciation of your work here and as an earnest of our best wishes for a prosperous future we ask you to accept this small token together with our heart-felt farewell.
 Signed pupils of Montague East School.
 The following is the prize list:
 Grade VII.—Pupils making highest aggregate, Miss McCabe.
 Grade VI.—Raymond Walsh.
 Grade IV.—Eugene Gorman.
 Grade III.—Gertie Walsh.
 Spelling in Grade VII.—Miss McCabe.
 Grade IV.—Spelling, equally merited by Eugene Gorman, Vincent Connolly and Mary Connolly.
 School leaving certificates were awarded Miss McCabe and Rose Connolly.
