ISLAND CYCLISTS.—In the entry list for the Wanderers' Sports to be held in Halifax this afternoon, and published in the Halifax Herald yesterday, a number of Charlottetownians are entered in the Bicycle events. Messrs. Wallace Scantlebury, Lawrence Moran and Nelson Winchester are entered in both the one and two mile bicycle races. These races will be practically between the Charlottetown wheelmen as there is only one other entry in each event.

THE SEED FARES.—Farmers when cutting their grain should bear in mind the seed fares. It is much easier to select the sheaves from the Field of Standing Grain than after it has been harvested. They have a chance then to cut full length of the straw as well as the best of the heads. It is also the proper time to collect the weed seeds, in a few weeks they will be gone and it will be hard to cut them when the Seed Fares are on.

FIVE PAIRS FOXES.—There have just been received at the ranch of the Upton Silver Black Fox Company, Ltd., five pairs of pure bred black foxes equal to the best produced in P. E. Island. This company offers the best proposition for fox investment in the fox industry. Its low capitalization and small expense for up-keep, etc., makes practically all the profits from the increase returnable to the shareholders. A few shares of this stock can still be obtained from the secretary, H. G. Jenkins, Charlottetown. 1489.

For a real good Fall tonic you should use Rexall Beef, Wine and Iron—a splendid all the year round tonic and sure builder. It acts as both a food and medicine, gives tone and strength to the system. Large bottle 75c. Money back if dissatisfied. MacKinnon Drug Co. Metl.

These fowls which are Houdans of different varieties, are some of the finest in Maritime Canada and they captured three first prizes at the exhibition just closed at Halifax.

CATHOLIC POPULATION.—A recent issue of the Catholic Register gives the Catholic population in each diocese in Maritime Canada as follows:—Antigonish is the largest with 80,000, Chatham is the second largest with a population of 73,155 and St. John Diocese third with 60,900. The Arch-diocese of Halifax has 55,000 while Charlottetown has a population of about 50,000.

A DEPARTURE.—The Public Works Department is making a departure with two culverts that are now being constructed. These culverts are being built entirely of concrete and are replacing wooden bridges which formerly existed. One is being erected near the starch factory at Murray Harbor, and the other at McLaughlin's bridge on the St. Peter's Road. They are to be built to dimensions of six feet square, and certainly will be more permanent works than the constructions that they are replacing. It is the intention to erect similar culverts, whenever the opportunity arises and wherever the soil permits, in the places of the present wooden structures.

DIVIDEND DECLARED.—A dividend of 45 per cent. has been declared and paid by the Spring Park Black Fox Company, Limited, of Charlottetown, and the directors recommend that a stock bonus of 100 per cent. be declared owing to the extremely low capitalization of the foxes in this ranch which are all of the Island's best production. The Directors of the Spring Park Black Fox Company are to be congratulated on the results of their first year. The Directors of this excellent company are as follows:—Dr. S. R. Jenkins, Vice-President; Messrs. R. S. Spillet, Managing Director; John O. Hyndman, Director; R. Harold Jenkins, Director. This company was promoted in 1912 by the late Mr. R. M. Johnson. The capable superintendent of the Ranch is Mr. T. B. Woodman.

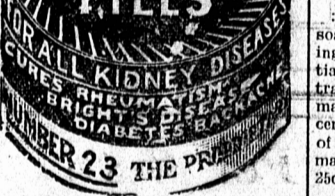

GAME TODAY.—The nine innings game of the play off of the Charlottetown Baseball League takes place today at the A. A. A. Grounds, likely draw a large crowd as the Abegweits and Connaughts are very evenly matched, the latter having won the last game by only one point. If the Connaughts win today they win the championship of the League and if the Abegweits win a tie will result, and another five innings game will have to be played. The Connaught players, McAleer and Fred Moore, who were hurt in the last game have almost entirely recovered from their injuries and will line up with practically the same Connaught team that played the last game. The Abegweits will have their usual strong steady team, which if anything will be improved. The game is scheduled to start at 4 o'clock and likely the same officials, that handled the last game will act today.

When seen by a Times representative at the Brunswick hotel last evening regarding his work he said that he had just returned from a trip through Nova Scotia and found excellent results. He is enroute to Fredericton to be present at the exhibition in the interests of the sheep industry. Utterly successful for the sheep breeders as well as a dipping plant which is now being installed. In reply to the query put by the newspaper man, Mr. McDonald stated that the underwriters contemplated raising the rates of fire insurance in this city unless their request for increased protection were complied with. BANGOR and Arostook railroad officials say their territory will yield a 100 per cent. crop, as compared with an average of 22 per cent. below normal in other potato raising States. The farm value of the Maine crop in 1911 was \$16,850,000. T. B. and A. at present is sending every effort toward making arrangements to handle the big crop during the coming nine months.
