Cuban Revolutionary Forces Routed

QUALITY OF FOXES AT SHOW UNSURPASSED

Fox Show Will Conclude To-day

Judging Will Be Completed And Trophies Will Be Awarded To Champions.

The judging of the various classified sections was completed yesterday at the Fox Show, and it is expected that the champions, grand champions, and other special winners will be selected before 1 o'clock today.

Yesterday forenoon the judging of the yearling female and male and female pup section in the light medium class was concluded. These sections were particularly heavy, and brought out some of the best foxes of the show. There were more than thirty animals in each of these classes.

In the afternoon the pale silver classes were judged. These were also exceedingly well filled. Following these the senior herd, yearling herd, junior herd, get of sire, and progeny of dam groups were judged.

There was a large number of people in attendance, and had travelling by road been favourable the judging pavilion would not have accommo-

dated the crowd. The enthusiasm among exhibitors and spectators was maintained at a high level. And all have agreed that the present show from the standpoint of smoothness of organization, quality of foxes shown, and the efficiency and despatch with which every detail has been attended to has been superior to any show previously held under the auspices of the Fox Exhibitors Association.

The judging for championships should provide a wonderful sight as the cream of the world's best foxes, all winners in their respective sections, will be brought together for final judgment. It is expected that judging will conclude at 1 o'clock and breeders will thus be allowed to remove their foxes during the afternoon. At the conclusion of the judging the trophies will be presented to the various winners.

BRIT. PREMIER DENOUNCES GERMAN ACTION

Ramsay MacDonald Deplores Further Attempt to Meet German Claims.

By Thomas T. Champion, Canadian Press Staff Writer. LONDON, Nov. 9.—(C.P. Cable)—Prime Minister Ramsay MacDonald tonight declared Germany's notice that she would quit the League of Nations "almost amounts to repudiation of the peace machinery of the world." The Prime Minister was speaking at the Guildhall Banquet in honor of London's new Lord Mayor, Sir Charles Collet.

Reduced Arms

"We have reduced our armaments to a point where we can rightly claim in the face of the world not a penny is being spent which is not necessary for defence in the light of present conditions," he said. "The British Government in the last 12 months repeatedly has come to the rescue of the Disarmament Conference. It is deplorable that, just at the moment another attempt was being made to meet German claims, Germany not only withdrew

"POPPY DAY" APPEAL BY SIR ARTHUR CURRIE

(Canadian Press) MONTREAL, Nov. 9.—When Canadians took Passchendaele Ridge, 16 years ago "they consolidated not only Douglas Haig's position, but far more than any of these things they consolidated the determination of British arms," said General Sir Arthur Currie, Commander-in-Chief of the Canadian corps in France, in an address tonight on the significance of Poppy Day. The address was read on behalf of Sir Arthur, who is seriously ill in hospital, by Col. Wilfred Bovey of McGill University.

Appeals to Hearers

Sir Arthur appealed to his hearers to purchase poppies made in the Vetreft shops for disabled veterans which will be on sale throughout Canada Saturday, anniversary of the Armistice which ended the war. But, said Sir Arthur, Poppy Day and

Brownlee Not In Agreement With Maritimes

(Canadian Press) EDMONTON, Nov. 9.—Disapproval of the suggestion of the Premiers of the Maritime Provinces as reported in a despatch from Amherst, N. S., that their governments should be consulted before the Dominion embarks on programmes of heavy expenditure is expressed by Premier J. E. Brownlee, of Alberta.

"I am quite sure," he says, "that the other provinces would strenuously oppose any such suggestion. Each province has its own particular problems, which have to be faced according to their individual merits."

Refrigerator Car Shortage

200 Additional Refrigerator Cars Expected Within Next Few Days From Montreal For Island Potato Shippers.

Island potato shippers have been handicapped during the past week by a shortage of refrigerator cars. It is expected, however, that this shortage will be made up within the next few days. About 200 additional refrigerator cars are being obtained at Montreal. Some of these should arrive here by the last of this week, and the remainder will all be here within four or five days thereafter. At the outset of the shipping season the railway had about 300 refrigerator cars available here. This was not enough to meet the demand caused by the sudden cold spell which set in much earlier than usual. Last year, for example, box cars were used extensively up till December for potato shipments. This year there has already been a heavy demand for refrigerator cars, not only in this Province but in New Brunswick. The latter province also is finding it necessary to obtain additional refrigerator cars from Montreal.

Canadian Dollar Is At Premium In N. Y.

Pound Sterling At New High Since 1914 Closed In New York At \$5.12 1-2.

(Canadian Press)

MONTREAL, Nov. 9.—Flight of capital from United States and France to London coupled with announcement of a new high price for newly mined gold by the Washington Government held up the dollar in the New York market. American dollars opened at \$4.98 1-2, closed offically at \$5.02 3-8 to sterling, and in after hours trading skidded to \$5.07 1-4 on the London exchange.

Sterling closed in New York at \$5.12 1-2 after touching \$5.15 compared to Wednesday's closing figure of \$4.97 1-4. U. S. Dollar on Skids Canadian dollars moved within a narrow trend closing at a premium of 1-16 of one percent over United States funds at New York after touching a premium of 1-8 of one percent.

So fast was the descent of United States dollars in London that the House of Commons, assured by Neville Chamberlain, Chancellor of the Exchequer, that the indepen-

dence of sterling would be maintained, could not keep up with it. Financial writers watch d. with great interest the movement of the dollar and the rise in American commodity prices but professed to see no cause for alarm.

Rise In Gold

Rising gold prices and a decline in international dollar rates caused a rally in stock in New York, checked somewhat by late profit taking. Inflationary sentiment predominated and the close was irregular.

Grain closed buoyant at Chicago, 3 3-8 to 3 3-4 cents above Wednesday's finish. Corn was up 1 5-8 to 2 1-8 cents; oats advanced 1 3-8 to 1 3-4 cents, and provisions rose 2 cents to 25 cents. Bar silver pushed up a full cent in New York to 42 7-8 cents an ounce, the highest in three years. Its rate compares with 24 cents a year ago, but was still less than the figure silver producers regard as satisfactory.

In Paris the New American gold

Twenty Six Year Old Youth Guilty Of Murder

(Canadian Press)

THREE RIVERS, Que., Nov. 9.—Defiant in the face of jury which today found him guilty of the murder by shooting of his father 26-year-old Didge Blais cried out in Court of King's Bench. "I have not obtained justice from this court; I am not guilty." And only a few seconds later Mr. Justice Aime Marchand sentenced him to be hanged on March 2, 1934.

—Hanged by the neck until death—the stereotyped yet impressive words echoed through a sparsely occupied court room and Blais coolly stooped down and began to put on his rubbers. He quietly offered detectives his frail wrists and the handcuffs were clamped on. Quietly he marched out of the court room to prison.

The shooting occurred November 3, 1932. The elder Blais was inquiring as to the whereabouts of his son who had been absent since morning. Witness stated the young man suddenly appeared on the scene and began shooting. A bullet struck Miss LaFontaine at the base of the spine and she is now a cripple for life, her legs being paralyzed. Adelaar Blais, according to evidence, attempted to wrest the gun from his son and was wounded. He died on November 10, in hospital.

Woman Without A Country New Empire Mystery

(By George Hambleton, Canadian Press Staff Writer)

LONDON, Nov. 9.—(Canadian Press Cable)—The woman without a country has created a new Empire mystery. It is this: Which Dominion are opposing full equality of sexes in nationality for women? Speakers in the House of Commons, puzzled over the question, today pressed the government for a definite answer. But after almost four hours debate, the mystery remained a mystery.

The question arose on a government bill which, among other things, would permit British women, who by marrying Americans or Russians, become without a state, to resume British nationality. Sir John Gilmour, Home Secretary, who has charge of the bill, admitted its scope was limited, but declared it was the widest on which members of the commonwealth could agree. He mentioned that Canada had taken the first step by passing a similar bill. The measure was given second reading tonight after a Labor motion of rejection had been defeated 179 to 43.

TRANSPORT COMMISSION APPOINTED

B. E. Mutch, Charlottetown, Named Island Representative At Convention.

(Canadian Press) KENTVILLE, N. S., Nov. 9.—Their annual convention concluded, members of the Maritime Board of Trade tonight had adopted a policy they hoped would help mitigate trade and economic difficulties in the Maritime Provinces and had set in motion the newly re-established Maritime Transportation Commission.

The Board also chose as its new President G. B. Oland of Saint John, N. B., to succeed N. T. Avard of Amherst, N. S.

Subject to approval of the Provincial Governments the Board named members of the new Commission as follows:

Prince Edward Island: R. E. Mutch of Charlottetown. Nova Scotia: D. R. Turnbull of Halifax, Col. A. N. Jones of Halifax and Mayor C. H. Read of Amherst. New Brunswick: A. P. Patterson and J. D. McKenna of Saint John, and N. E. Hester of Sackville.

(Continued on Page 3)

DRASTIC ARMS CUT POSTPONED

LONDON, Nov. 9.—(C. P. Cable)—Drastic disarmament proposals are embodied in the labor motion of censure of the Government to be moved in the House of Commons Nov. 13. The motion requests the Government to submit proposals for complete abandonment of all air bombing and the general abolition of all weapons now forbidden Germany under the Versailles Treaty (tanks, heavy artillery, capital ships, air-craft carriers, submarines and naval and military aircraft).

Furthermore Labor, which is in an overwhelming minority in the House would have international control of civil aviation, immediate reduction of the expenditure on armaments by all nations, supervision of the private manufacture and trade in armaments, international inspection and control of armaments, the creation of an "international police force" and an international definition of "aggression."

Derailed Car Delays Limited

(Canadian Press)

MONCTON, N. B., Nov. 9.—Through the breaking of a journal on the car of a northbound C. N. R. fast freight near Rogersville, N. B., on the I. C. R. main line early this afternoon, the two crack Ocean Limited trains bound for Montreal and Halifax respectively were delayed for some three hours. Outside of the damage occasioned the derailed freight car, no other was caused and no person was injured.

The scene of the accident was close to the place where three rail-ways were killed in a rear-end collision during a snowstorm on January 29th last.

TRANSFERRED

(Canadian Press)

YARMOUTH, N. S., Nov. 9.—Vincent Fraser, teller in the Bank of Montreal here for several years, has been transferred to the Charlottetown Branch. He is a son of Mr. and Mrs. A. H. Fraser, Main Street.

Loyal Govt. Forces Bombard Rebels From Stronghold

Backbone Of Rebellion Believed Broken—Veteran Rebel Leader, Juan Blas Hernandez, Among Killed.

(By John P. McKnight, Associated Press Foreign Staff) HAVANA, Nov. 9.—Cuban rebel forces late today surrendered the ancient Atares Fortress, their last main stronghold, in a bloody two-day rebellion, with an estimated 40 to 50 of their number killed by furious bombardment from land and sea.

Among those killed was Juan Blas Hernandez, veteran rebel leader who yesterday joined revolutionary forces seeking the return of Manuel De Cespedes to the Presidency.

With the surrender of some 1500 rebels, the backbone of the uprising was regarded as broken. Brilliant lights flashed from the capitol tonight signifying the government's victory.

For six hours today a steady stream of three-inch shells and machine-gun and rifle bullets poured into the fortress before the rebels ran up the white flag at 4.07 p.m.

Survivors said the walls had begun to crumble. Among the casualties were about 100 wounded rebels.

A preliminary check of hospitals and the morgue tonight showed 56 dead and 184 wounded in today's engagement, in addition to 52 killed yesterday. Morgue officials said they believed 40 to 50 more dead were still lying within Atares Fortress and elsewhere.

Confusion Reigned

With the fall of the fortress utter confusion reigned in the capitol, making it impossible to compile an accurate list of casualties. The rebellion started in the early morning hours of Wednesday.

At nightfall snipers were active and scattered rifle and machine-gun fire burst forth throughout the city. Later the sniping died down and comparative quiet fell.

(Continued on Page 3)

Strange Sickness Proves Fatal

(Canadian Press)

ANTIGONISH, N. S., Nov. 9.—What is described as "thrashing mill sickness" has resulted in at least one death and has stricken farmers throughout the country. Allan MacDougall of Verdon is dead and his brother-in-law, Leo Sullivan, is not expected to recover from pneumonia, induced by a congestion of the lungs from the strange ailment. It was believed the malady is caused through inhalation of spores in grain, stored while still damp.

During the last few weeks, with mill thrashing in full swing, cases have been reported throughout the country and it was thought workers' lungs became congested from inhaling spores which developed in the grain during a long spell of damp weather.

Former Speaker Of N. S. Married

(Canadian Press)

TRURO, N. S., Nov. 9.—Daniel George McKenzie of Malagash, former Speaker of the Nova Scotia Legislature, was married in St. James' Presbyterian Church here today to Miss Julia Anderson, R. N., of Stellarton. Mr. McKenzie is 73 years of age, his bride 27. Following the ceremony they left by motor for a wedding trip to California.

Mr. McKenzie, a wealthy farmer, sat in the Nova Scotia Legislature from 1920 until this year. He was elected Speaker in 1929 and continued in the chair until the House was prorogued last spring. He did not offer for re-election in the provincial elections last summer.

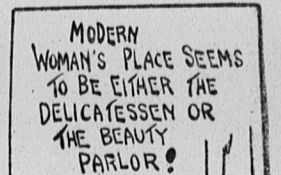

Expect Early Decision On U.S. Soviet Relations

(By Sam Bledsoe, Associated Press Staff Writer)

WASHINGTON, Nov. 9.—Preliminaries apparently over, an early decision on Russian recognition was foreshadowed by a conference arranged for tomorrow between President Roosevelt and Maxim Litvinoff, the Soviet State's Foreign Minister.

Litvinoff met Secretary of State Cordell Hull and other government officials today at the State Department. Secretary Hull said before Litvinoff's arrival the President would deal directly with the matter which brought the latter here—recognition—after an understanding had been reached on important details.

The Weather, Etc

Fresh to strong winds; cloudy with some snow or rain.
