MOORE & McLEOD LIMITED

Western Guardian

—FOR LATE WESTERN NEWS—Page 3 is available.

—GUARDIANS ON SALE at the Guardian's Western Office in the McNeill Building, Summerside every day.

—FOR SALE.—Schooner Pacific with all her gear now stranded on Summerside Bar. Sampson Grady, Summerside. 8585-7-31

—PIE SOCIAL.—The pie social and dance held in St. Pauls Hall, Summerside last night under the auspices of the St. Pauls Athletic Club was a most enjoyable affair. The large crowd which attended had a splendid night's entertainment and a good sum was realized for the club.

—GUARDIAN OFFICE.—The Guardian's Western Office is now located in the McNeill Building Water St., Summerside, where subscriptions, news or advertising will be received. The phone number is 233.

PERSONALS

—Mr. Leonard J. Gay, of the Royal Bank of Canada, Sussex, N. B., spent Easter at his home in Summerside.

—Miss Minnie MacLean, leaves for Charlottetown today after a short visit to friends in Kensington and Summerside.

—Miss Adele Read who has been visiting friends in Summerside, returned to her home in Borden Saturday afternoon.

—Stanley J. MacKay, who has been visiting his old home in New London, has been the guest of Mr. A. Stirling MacKay for the past few days. He left on Saturday morning to return to his home in Edmonton, Alta.

—SUCCESSFUL AFFAIR.—The Annual Easter High Tea and Bazaar held by the ladies of St. Mary's Anglican Church, Summerside, took place on Monday evening and was the most successful of the long list of these affairs already held the sum of \$504.50 realized. The ladies are to be congratulated upon their great success.

—LATE SEASON.—At this date last year the Summerside harbor was open and clear of ice and the edoque Ferry Boat Prince Albert made her first trip on April 10. The harbor ice just now is the finest it has been this winter and is in splendid shape or travelling. The road on the ice is real good and everyone drives over the ice practically "the going" being so good.

Robbery Trial

(Continued from Page 2)

were produced on when prisoner was arrested. The old rubbers are home. Can produce them. (Mr. Johnston, "then we would like to have them as they were used for the measuring.") James Stewart on being sworn, said he worked at Farquharson's Livery Stable. Was there on March 28th. Saw prisoner there. He had some money in bills. He did not have very much. Just seen a five and a ten. There were more than two but could not say how many. He had more than one handful. Had no idea how much was in both hands. He was betting a dollar with some young fellow.

Cross examined by Mr. Johnston: Do not know who the young fellow was. Was busy at the time. It would be about 11 o'clock on Monday morning. Saw one ten and one five.

Edward Lynds on being sworn said he was a grocer. He knew the prisoner. He has been working with witness since Feb. 22nd. His hours were from 8 a. m. until 5.30. Every second night 9 o'clock. He is a clerk. Pay him \$4.00 per week. Paid on Saturday, March 27th. Paid him \$4.00.

To Mr. Johnston: He said he was saying to go to Boston.

This concluded the evidence for the Crown.

Miss Kilfoy on being sworn said she knew the prisoner. On Sunday, March 28th saw prisoner. First saw him about 1 o'clock. Went to Falconwood Hospital. Four went out. Returned after 5 o'clock. Saw money with him. Witness was holding money for prisoner and he was giving her some Sunday. Witness thought these were all ones. He was saving up to go to Boston. Some American bills. When they returned they left prisoner at his house. Witness did not take the money from him.

(To Attorney General): Have been keeping money for him about two months. He gave witness some at a time. He gave some about three weeks ago. She had about \$15.00. Did not take the money he offered on Sunday. Ernest Flynn, on being sworn, said he had been away. Arrived home about five weeks ago. Saw the money the prisoner had on Sunday. Mostly one dollar bills, American and Canadian. Was with Fardy and Miss Kilfoy to Falconwood.

Mr. Fardy, on being sworn said: Remember March 28th. The prisoner came home about 5.30. He had supper home. Fanny was at the table there and he was fooling with them. After supper, he remained home until about ten minutes to six. He left house before witness. Officers did not knock that he heard. Tore the back door off and were in his bedroom with a flashlight before he saw them. Officers Doyle and Higgins. They then were in the prisoner's room. Witness asked what they wanted and they said they had a warrant for prisoner. He went down stairs and seen the hamp broken on the back door. When he came back to bedroom they were talking to prisoner. I told him to tell them nothing.

To Attorney General: I heard no knock. If they knocked on the front door I would have heard them. When they went into prisoner's room I went into the room and told him to tell them nothing—it would come against him.

Mr. Conway on being sworn, said he lived next door to Fardy's. He remembered the Sunday. Seen prisoner in his party around about 6 o'clock. Fanny was at the table. Witness left about 6.25 for church. Did not see him again.

Lorne Dolron, on being sworn said he lived on Chestnut Street. On Sunday, March 28th had supper about 5.30 after which he went around town until 7.30 when he went to Queen Hotel. Gordon McLeod was with him. They were in the kitchen. Saw witness there between 7.30 and 8 in the kitchen playing cards, (named others present). Ten o'clock when witness left. He was there when witness went in. Prisoner remained there until 10 o'clock. Witness was not at church that night.

To Attorney General: Prisoner was at hotel when witness got there. Was there until after 10 o'clock. Prisoner remained after witness left. Was speaking to prisoner yesterday.

Gordon McLeod, on being sworn said he went to the hotel between 7.30 and 8 o'clock. The prisoner was there. Left him there when he and Dolron left. Prisoner was there all the time. (Named others who were there). We had been there before.

To Attorney General: We were in the kitchen. Fardy was there when he got in. He had his coat on. He was on the side of the table. Don't know how long Fardy was in before he arrived. Went in by back door.

Mr. Johnston here asked for an adjournment to bring in evidence showing where prisoner was during the time not accounted for.

His Honor adjourned the case until Friday morning at 10 o'clock.

Before the large crowd left the court room His Honor again warned them they would not be allowed to stand and instructed the police officers to see this rule was obeyed.

Common Stock — Authorized and Issued	125,000 Shares

Descriptive circular, copies of which will be forwarded on request, contains a letter from Mr. W. N. Harbut, President of the Company, together with other particulars, from which the following is summarized:—

The Company has acquired from the Dominion Government 1,798 square miles of leasehold timber limits, estimated to contain not less than 2,500,000 cords of pulpwood, and has now in process of erection a complete paper mill, with a rated capacity of 250 tons per day of finished newsprint paper. The first unit of the plant is to be ready for operation in December, 1926.

The site of the mill is on the south bank of the Winnipeg River, close to Lake Winnipeg and about 60 miles in a direct line from the city of Winnipeg. The property is served directly by the Canadian National Railways and the Company also enjoys the advantage of deep water transportation from its own timber reserves and from all points on Lake Winnipeg. From the standpoint of availability of its raw material and distribution of its finished product, the Company's location is most advantageous.

In mechanical facilities, cost of raw materials and in general efficiency, the plant will not be excelled by any competing mill. The entire production of the mill will be marketed under contract of sale by The G. H. Mead Company, of Dayton, Ohio, the largest distributors of newsprint paper in the world.

The Company is owned by The Spanish River Pulp & Paper Mills, Limited, and Abitibi Power & Paper Company, Limited, and by financial interests immediately associated with these companies, so that the highest business and technical talent available will be at its disposal. These owners are well able from the point of view of experience and financial ability to protect their large investment.

These bonds are secured by first mortgage upon all the property now owned or hereafter acquired by the Company, including mills now in course of construction, together with valuable timber rights including (through deposit with the Trustee of the entire capital stock of its subsidiary power company) valuable power rights on the Winnipeg River.

Valuation of the Company's assets—including pulpwood limits and water power rights, townsite and millsite, pulp and paper mills and townsite development, and working capital—is \$9,835,200, as against \$4,000,000 of bonds now issued.

The balance of the authorized bonds is reserved for acquisition of additional fixed assets, including timber lands, at a rate not to exceed 50% of the actual cash cost or value thereof.

Estimated net earnings, after depreciation, are 5 times the maximum annual interest requirement of this bond issue and approximately 3 1/2 times the annual reserve necessary to retire both principal and interest.

We offer these bonds (except those maturing 1931 to 1934, inclusive) for delivery if, as and when issued and received by us, and subject to the approval of counsel of all proceedings.

week end with her daughter Mrs. Lodge Birt, Mt. Hillary.

The Misses Elizabeth and Alice Clark spent their Easter holidays at their homes in Mt. Stewart.

Mr. Scott McIntyre spent Easter here.

More than ordinary interest was taken in the Old Time Fiddlers Contest, a number attending it in person and by radio. Some of our citizens having loud speaker radios kindly opened their houses to the many not owning an outfit, and had

A number of passengers for points along the George branch of the P. E. I. R. had a lodging house Thursday last, owing to their train being cancelled here after arriving at 6 o'clock p. m.

We regret to learn that Mr. Daniel Birt is suffering from a case of blood-poisoning in his thumb. Mr. Birt cut his thumb while working in his shop, but thinking nothing of it he kept on, but found it so painful he called in Dr. Toombs who after examining it pronounced it a case of blood-poisoning.

Miss Carrie Grant spent her Easter holidays at her home in Mr. Peter Dwyer, blacksmith here, is confined to his home with a case of La Grippe.

Greatest Fence value ever offered

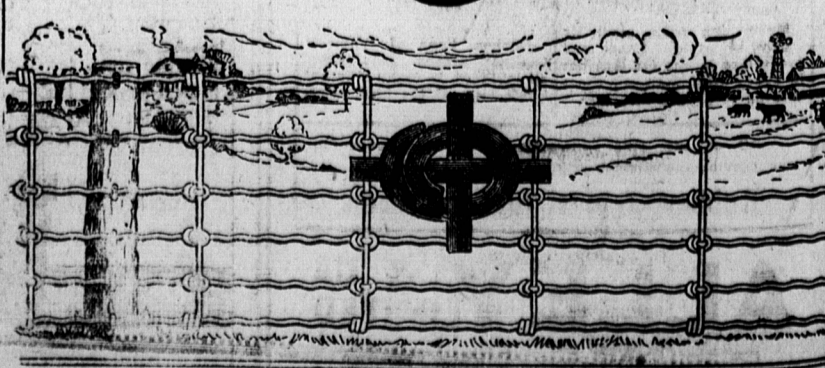

HERE is the fence that gives you far and away the longest service and therefore the greatest value you can possibly get in ringlock fence. It costs no more to buy but—it is FROST Fence, the strongest, neatest, tidiest fence ever built.

care of unusual strains, and the that holds fast, ensure a fence that stand up and save you money after "cheap" fences have to be renewed. Each wire stands strains up 1500 pounds, a real fence for wonderful service.

Its wonderful Frost made wire is so heavily galvanized it resists rust years longer. The waved laterals, taking the end.

Make certain you get FROST Fence if you want to save money.

Frost Steel and Wire Company, Limited, Hamilton, Canada

Dezeng Diagnostic Professional Unit
COMFORT FOR THE PATIENT EFFICIENCY FOR THE OPTOMETRIST

The Wellworth Unit presents a compact selection of scientific instruments that enables the Optometrist to cover completely his ocular examination, without the patient leaving the chair and with each individual instrument within instant reach.

An important requisite of a refracting outfit is absolute comfort for the patient.

This has been accomplished in the Wellworth Unit with adjustable seat, head rest and arm-rest. The chair can be reclined, raised or lowered and adjusted to the perfect comfort of any patient. A comfortable patient can be more quickly and easily examined.

Accuracy and efficiency for the Optometrist is accomplished with Dezeng diagnostic instruments of minute precision which are within instant reach and swing before the patient.

This Unit is used in all ocular examinations by

TIRED FEET
Bathe well with Minard's in warm water. It quickly soothes and draws out the inflammation.

The youthful frock above is a typical example of the smart Spring model. Crepe, in navy blue, is used for the upper part, while the finely pleated skirt is white crepe, on which fine crossing lines of white simulate a checked design.

For the frock to be worn later in the season, one might combine white crepe with crepe in red and white check pattern.

MINARD'S
"KING OF PAIN"
LINIMENT

Even These Small **Z Engine** Parts are Heat Treated

If you could see how all the units in the "Z" Engine, even down to the very smallest parts (such as the rocker arm, governor lever, exhaust bracket roller pin shown above), are given painstaking care in the manufacture, you would understand why the "Z" has a world-famous reputation for dependability and long life.

The "Z" Engine has fewer parts subject to wear, and these parts are carefully made, are drop forged and specially heat treated.

Write for prices and full particulars.

The Canadian Fairbanks-Morse Company Limited

INTELLIGENT PEOPLE ARE POOR HANDWRITERS

PITTSBURGH, April 6.—Persons who have been termed "scribblers" and "scrawlers" will find solace in the words of Dr. William T. Root of the University of Pittsburgh School of Education who expresses the opinion that "as a rule those of low mentality are good handwriters."

"Intelligent people" said Dr. Root in an address, "think twenty times faster than they can write and therefore muscular movement is so far behind the activity of the brain that the result is a poor scrawl. A person low in mentality has nothing else to think about but the shaping of his letters.

"But," continued Dr. Root, "it does not necessarily follow that if you are a poor penman you are intelligent, or vice versa."
