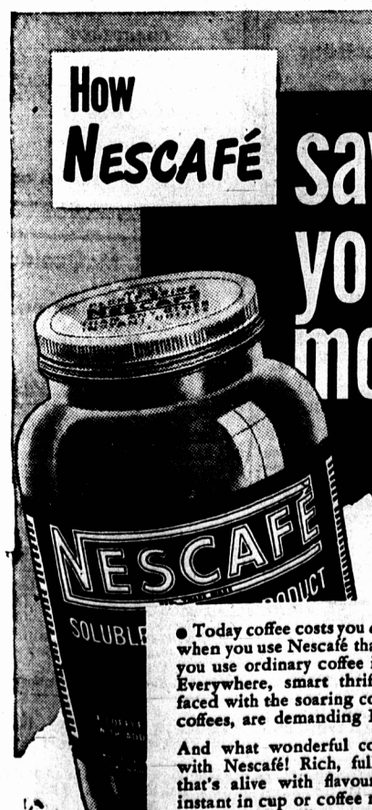
How NESCAFÉ saves you money



● Today coffee costs you *even less* per cup when you use Nescafé than it does when you use ordinary coffee in cans or jars. Everywhere, smart thrifty housewives, faced with the soaring costs of ordinary coffees, are demanding Nescafé.

And what wonderful coffee you make with Nescafé! Rich, full-bodied coffee that's alive with flavour. Made in an instant in cup or coffee maker. Just add one cup of boiling water to each teaspoonful of Nescafé. No waste. No messy grounds to dispose of.

Nescafé comes in powdered form in airtight glass jars—4 oz. and 12 oz. sizes. Try Nescafé today.

More people drink NESCAFÉ than any other instant coffee!

"Nescafé (reconnoeed NES-CAFAY) is the exclusive registered Trade Mark of Nestlé's Milk Products (Canada), Limited to designate its Soluble Coffee Product. It is composed of equal parts of pure soluble coffee and added carbohydrates (dextrins, maltose and dextrose) added solely to protect the flavour."

CHILDREN OF TODAY should be informed of the pioneer trail of their ancestors: How did these predecessors live? What did they wear? What kind of furniture did they have? How did they travel? If you have anything to throw light on the past, bring it to the Historic Exhibition at Clover Club November 3rd and 4th. History not essential.
