The "Besco" Reorganization

OUR May Market Letter tells how the reorganization plan of the British Empire Steel Corporation works out.

It describes at length how the various interlocking interests of the corporation have been simplified, and explains the corporate structure of the new operating and holding company, Dominion Steel and Coal Corporation.

A copy will be sent on request.

BRAZILIAN TRACTION

A discussion of the position and prospects of Brazilian Traction leads to the impression of firm confidence in the outcome of the remaining months last year, but the two following months showed increases. Unless something unusual occurs, the management believe that increases will be shown regularly from now on. The drop in January was due mainly to the decline in the mills. This, it is thought, will remain around current levels, which are practically the same as one year ago.
