**MOGUL OIL ENGINES**

(Grand Prize Winner at San. Francisco Exposition)

A Mogul oil engine will give you what you need—Reliable Power, on kerosene oil of any grade, or more power for less money, also will run on gasoline if so desired. Every adverse condition that an engine is liable to meet on the farm or in a power plant, has been taken care of in the Mogul line of engines. The crank case is completely enclosed to keep out grit or dust, the governor's is protected by a case, and of throttling type to insure smooth running. The oiling system is an automatic force feed, which absolutely prevents the main bearings running dry, as long as there is oil in on reservoir. The valves are mechanically operated on all sizes from 4 h.p. Every Mogul oil engine from 1 to 50 h. p., is equipped with a magneto to start without the aid of batteries, and will develop 20 p.c. more than the rated horse power, before it leaves the factory. To the CAREFUL BUYER, if you take all the best features of other engines and combine them in one engine, you still would not have the equal of a Mogul oil engine. For prices and free catalogue apply to the nearest McCormick agent.
