### ISSUE OF POSTAL SAVING BONDS

WASHINGTON, July 3 (Special)—The Government has begun issuing postal savings bonds in place of postal saving accounts. Interest to be paid at the rate of 2 1/2 per cent per annum; the bonds redeemable at the pleasure of the government one year after issuance.

### STOCKS AND BONDS ARE SOLD CHEAP

Stocks and bonds were going cheap in Charlottetown yesterday when at noon at the Court House, Mr. R. Beairto, auctioneer, put up at public auction, by order of the executors of the estate of the late Hon. D. Farquharson, a quantity of stocks in various companies. There was only a small number of bidders present.

The first lot of shares put up consisted of 17 1/2 shares at a par value of \$15, and these were knocked down to Mr. Pennell for \$400, which was in fact, the only bid. Next, 65 shares in the Charlottetown Fire Insurance Company, at a par value of \$15 per share, were offered for sale, and after some competition between Mr. Pennell, who started the bidding at \$200, and Mr. J. A. Farquharson, they were bought by the latter for \$245.

Ten shares in the New Glasgow Hall Company, at a face value of \$5 per share, were bought by Mr. Black for \$2.

After some competition, with Mr. Black, Mr. J. W. Regan became the purchaser of five shares in the New London Hall Company at a par value of \$5 each.

More competition, however, resulted when the next lot of stocks was put up. This consisted of bonds in the Sidney Land and Loan Company, at a par value of \$1,200. Mr. Black started the bidding at \$25, but after more keen bidding, Mr. J. Farquharson bought the bonds for \$175.

### Unmixed Fertilizers Are The Best Plant Foods

"If the modern farmer would only use fertilizers on his farm as the painter mixes his paints there would be much less heard of the so-called agricultural depression."—Marquis of Salisbury.

Don't expect to take a binner crop from your farm every year without paying back in some form the elements of fertility you are taking away each year.

### Give Your Farm a Chance Mr. Farmer?

Every bushel of potatoes or turnips, every hundredweight of hay—in fact every single vegetable that leaves the earth—takes away some quantity and some form of plant food and unless it is paid back your farm won't give you the good returns it should.

The only way to keep your farm in first-class condition is to use our English Unmixed Fertilizers, the best plant foods for any crop and any field. Can be applied in combination to suit every soil and crop. Write today for free booklets on farming and fertilizers—sent free to any address.
