Ten Rebels Are Killed In Battle

Gov't. Troops Battle Communists In Revolutionary Outbreak — Extremist Movement In Spain Is Checked, Authorities Declare.

By Rex Smith, Associated Press Staff Correspondent
MADRID, Jan. 9.—(A.P.)—A battle between Communists and a large force of civil guards was under way tonight at the village of Bugarra in the Province of Valencia.
The Communists had been driven out of the nearby town of Pedralba where earlier in the day there was a sanguinary fight in which 10 rebels and two members of the guard were killed.
All told, the extremist movement against the government, which has affected many parts of Spain, has resulted in the killing of 35 persons and the wounding of more than 100 in the last two days. Government officials announced tonight that they believed the movement had been quashed, although late reports

showed scattered firing and clashes in Barcelona and Cadiz.
Machine gun units were en route to Bugarra to reinforce the civil guard. The Communists had fortified themselves there. Only a few details of the conflict could be learned, but it was reported that at least one guard had been killed, as well as several other persons.
Although government officials announced they considered the movement stopped, they held police civil guards and troops in readiness to deal with any fresh terrorist outbursts.
MADRID, Jan. 9.—(A.P.)—The extremist movement against the government continued in many parts of Spain today, the most san-

INCREASED USE OF CAN. PORTS URGED

Adoption Of Canadian National Policy Advocated At Annual Meeting Maritime Division Of Canadian Press.

(Canadian Press)
HALIFAX, Jan. 9.—Advocacy of a national transportation policy for Canada was expressed unanimously today by newspapermen of the Maritime Provinces, gathered for the annual meeting of the Maritime division of the Canadian Press, presided over by Senator W. H. Dennis of the Halifax Herald.
At the completion of the meeting's business, a resolution was passed "that the Maritime division of the Canadian Press advocates the adoption of a Canadian National policy designed to ensure the greatest possible use of Canadian ports and Canadian transportation routes in the handling of all ocean-borne traffic exported or imported by Canadians."
The meeting also unanimously approved a resolution urging "a greatly increased use of Canadian coals by the railways operating in Canada and that the press of Can-

Count Kiyoura Of Japan

FORMER JAPANESE PREMIER IN RETIREMENT

A new study of Count Kiyoura, former premier, and one of Japan's leading statesmen, now in retirement, made as he picks the leaves of a dwarf tree that is several years older than he is in the garden of his Tokyo home.

Lack Of Snow Bad For N. B. Lumbermen

(Canadian Press)
FREDERICTON, N. B., Jan. 9.—With another week gone by without snow, lumber operators in the central section of New Brunswick are anticipating a general lay-off in the next few days, because of there being insufficient snow for hauling.
Operators who had considerable yarding to do are spinning this phase of the work out in order to keep the crews in the woods until the needed snow arrives. Some of the lumbering firms will keep their men at work the rest of the week. There are several operators, however, who have about wound up the yarding and in another day or so will have to take their workers out of the woods.

N. S. Premier Is Resting Comfortably

(Canadian Press)
HALIFAX, Jan. 9.—Gordon S. Harrington, Premier of Nova Scotia, was "resting fairly comfortably" at Victoria General Hospital tonight. The Premier underwent an operation for acute appendicitis on Saturday afternoon, and since then his condition has been described as satisfactory.

Senators Oppose Amendment

WASHINGTON, Jan. 9.—(A.P.)—A solid band of opposition ranging from Speaker John Garner of the House of Representatives to J. P. Sweeney, President of the Association against the Prohibition amendment, was raised today against the repeal resolution, newly laid before the United States Senate with the approval of the judiciary committee.
Though the Senators gave out assurances that the proposal would be taken until next Monday, 13th anniversary of prohibition, Garner asserted it does not conform with the Democratic platform and other House leaders predicted it would not pass them in its present form.
Henry Rainey of Illinois, the House Democratic floor chief, was among the first to denounce the resolution.
Shouse issued a lengthy statement in which he called for its defeat, asserting "it was infinitely better that the 18th amendment should stand."

TWO WOMEN SLAIN BY FOREIGNER

Police Are Now Searching For Love-Crazed Man Who Ran Amuck On Downtown Street Of Ontario Town.

(Canadian Press)
KIRKLAND LAKE, Ont., Jan. 9.—The eternal triangle is believed responsible for the slaying of two women and wounding of two men by a love crazed foreigner here today. In the dense brush outside this town, provincial and municipal police tonight are searching for Bill Antonovitch, believed to have been the man who ran amuck on a downtown street. Antonovitch came here from Winnipeg two years ago.

The dead are: Mrs. Annie Munda and Mrs. F. Banasuk, while wounded are Bill Munda, husband of Annie, and Fred Cunningham, who boarded at the Banasuk home.
Mrs. Munda, pretty vivacious Ukrainian, was married three weeks ago. For some time she had been friendly with Antonovitch, who for two years had not worked. According to friends of the man, he had been increasingly moody since her marriage and last week had searched for Annie and her husband.
Shortly after noon, Antonovitch is alleged to have hidden behind a store and waited for Mrs. Munda. When they came out witnesses said he opened fire immediately. Munda was hit first and fell, but Antonovitch's second shot went wild. His third struck the woman. Then he turned, Mrs. Munda screamed and shouted something at him, the witnesses said, whereupon he returned and fired another shot into her head, killing her.

Then the man rushed up an alleyway and entered the Banasuk home. Two shots struck Mrs. Banasuk, and a third struck Cunningham, a boarder. Almost immediately, the man ran from the house and disappeared in the burh, followed by police and dozens of townsfolk. The shooting took place on McCann Avenue, one of the town's busiest thoroughfares, and dozens of witnesses watched the dramatic events.

Escaped From Jail, Picked Up By Mounties

(Canadian Press)
FREDERICTON, N. B., Jan. 9.—Harold Bagton and Ray Fulton, who escaped from the Queen's County Jail on Saturday night were picked up last night by the Royal Canadian Mounted Police, while beating their way towards Minto.
The men were accused by Constable Hanson and Constable Love, of Minto, in the vicinity of Ripples, after enjoying a new found freedom of about twenty-four hours.
Barton was arrested in Minto about three months ago and sentenced to six months in the Queen's County jail and entered about October 12th. Charges against him were breaking and entering, Fulton, who also hails from Minto, was serving a four months sentence on charges of creating a disturbance.
The men escaped when they jumped from a second storey window of the jail after making their way to a bedroom. They evidently crossed over the ice in the Saint John River.

Three Corpses Discovered In Hull Of Ship

(Associated Press)
CEERBOURG, France, Jan. 9.—Three new corpses were discovered today in the hull of the burned passenger liner Atlantique, bringing the number found dead aboard to 10.
Experts believe the ship should be broken up, but action has been delayed pending receipt of advice from the British insurers of the Atlantique, which burned in the English channel last Wednesday with a loss of 18 members of the crew.

Police Take Charge Of Mine

GLACE BAY, N. S., Jan. 9.—(C. P.)—Rev. Father Ronald McDonald parish priest, thought it was time to take action when a "bootleg" mine—a pit illegally operated by men not holding a license to dig—threatened to undermine the glebe house and St. John's convent. He had the police take charge of 160 bags of coal taken from the pit.

PEACE REIGNS AT DORCHESTER PRISON

Convicts Shiver In Cells As Result Of Damage Wrought — Injured Are Recovering.

(Canadian Press)
DORCHESTER, N. B., Jan. 9.—Peace continued at Dorchester Penitentiary tonight in striking contrast to the feverish hours of Saturday when 300 of the 476 prisoners provoked fierce rioting that ended the same evening with five convicts wounded and two guards slightly injured. Tonight the wounded were progressing favorably. The prison doctor said the most seriously injured, a brawny negro who figured prominently in the uprising, would recover unless complications developed. He suffered a groin wound from one of the 20 shots fired by guards to quell the riot.
For the third night in succession the convicts shivered in cold cells as a result of the damage they wrought. The staff was busy all day repairing windows through which the enraged prisoners had rained upon the guards everything they could tear loose. As many windows as possible were covered temporarily with tarpaulin and the staff did all it could to protect the men, but the atmosphere in the cell blocks remained frigid.
A great deal of work also was required to restore the cupboards, lockers, chairs and plumbing equipment wrecked by the rioters.
The stable, farm, bakery and kitchen gangs carried on as usual today. Warden Goad expected the pipe, tailor, carpenter, machine and stone-crushing shops would resume operations later in the week. He said the utmost care would be exercised in proceeding toward restoration of the normal routine.
The usual menu was served today without any "bread and water" punishment. As a precautionary measure the men were fed in a group at a time. Yelling that continued spasmodically after the disorder was suppressed had ceased tonight.
Warden Goad's report of the disturbance had gone forward to Ottawa. Hon. Hugh Guthrie, Minister of Justice, said today that a decision as to whether or not an inquiry would be made depended upon a study of this report.

HALIFAX, Jan. 9.—No unusual precautions are being taken at Rockhead, the Halifax city prison, against the possibility of rioting, Governor George Grant said tonight. Rockhead houses about 80 prisoners, all serving comparatively short terms, and has had no difficulty since 1893, when rioting prisoners did considerable damage to property about the prison.

Minutes Questioned

Following the reading of the minutes, Councillor Doull asked if the minutes were complete. There had been a severe and uncalled for attack made on a councillor from the chair at the last meeting. Would it be sufficient to use the newspaper files for a record, he asked. A councillor had been accused of untruthfulness and malicious attack, statements which were absolutely false.
His Worship stated that the minutes were no place for speeches and further operations were stopped. The coal was distributed among needy families in New Aberdeen.

Discussion On Relief Problems

Resolution Passed By City Council Requiring Approval By Clergymen Of Requisitions For Relief Of Unemployed.

Discussion on the manner in which unemployment relief is being dispensed, and on the methods used in determining worthy cases for relief occupied much time at the monthly meeting of the City Council last evening. The entire board was present, and His Worship Mayor Stewart presided. The insistence of the finance committee that in future all relief grants be approved by a clergyman before payment brought before the Council the following resolution which was adopted after much discussion:
Resolved: that before any goods be supplied by the city for charity for the unemployed that a requisition for such goods be certified by a clergyman of one of our city churches also the dispensary, including the social service nurse, who, we request, shall make a thorough investigation of each application; and that such requisition be presented to the city clerk in order that he may be able to keep close check on prices charged for such goods furnished; that such purchases be made from the different dealers throughout the city in so far as their prices are within harmony; that before purchasing any such goods prices be obtained.

Councillor Hennessey objected to the resolution, and, after its adoption, moved that the committee on unemployment relief comprised of His Worship, Councillor Day, and himself be dismissed, as, he stated, there was no work remaining for this committee to do. The motion was not seconded.

Before the reading of the minutes, the city police force was inspected by His Worship and the Council. His Worship in addressing the officers referred to certain charges which had been made against the rank and file at the beginning of the year. No constable, he said, could be allowed to remain on the force if he indulged in alcoholic beverages while on duty. Intelligence, courage, faithfulness, honesty and truthfulness were essential requirements of officers, as to their care was entrusted the life, liberty and property of citizens. In dealing with offenders it was necessary to use firmness and impartiality. An inoffensive drunk should not be treated roughly. His Worship advised the officers that if any of the felt a desire to become a spy on any of their number, it would be well to discontinue from such a practice. Officers should be loyal to one another, as without loyalty there could be no discipline or effective work. The necessity for co-operation, efficiency and faithfulness, and of keeping clear of frivolous matters was stressed.

His Worship in referring to the menace of drunken drivers urged great vigilance, and remarked that severe penalties were provided by law for intoxicated motorists. The suggestion was made that in the future the chief include in his report a statement showing whether or not a convicted motorist had been previously convicted, and if the case were dismissed, why.

Minutes Questioned
Following the reading of the minutes, Councillor Doull asked if the minutes were complete. There had been a severe and uncalled for attack made on a councillor from the chair at the last meeting. Would it be sufficient to use the newspaper files for a record, he asked. A councillor had been accused of untruthfulness and malicious attack, statements which were absolutely false.
His Worship stated that the minutes were no place for speeches and further operations were stopped. The coal was distributed among needy families in New Aberdeen.

WAR DANGER IS CAUSE OF FAILURE

Only 93.7 Percent Of Industrial Programme Fulfilled, Says Stalin.

(Associated Press)
MOSCOW, Jan. 9.—Reporting to the country on the results of the first five year plan just completed, Joseph V. Stalin, head of the Communist party, admitted today that only 93.7 percent of the general industrial programme had been fulfilled.
He said the danger of war compelled the country to divert its energies to preparing means of defense and thus to neglect industrial production, which otherwise would have been more than achieved according to the plan.

"Accomplishment of our means of defense, then, is the general result of the five year plan in industry," he said. "Now you can see your own judgment about the shouting of the Capitalist press about the 'failure' of the five year plan."

Gallows Will Be Used First Time In 60 Yrs.

OTTAWA, Jan. 9.—(C.P.)—Out of use for more than 60 years the ancient gallows in the yard of the Carleton County Jail is ready tonight to end the life of William G. Seabrooke who is to be hanged tomorrow for murder.

The old gallows, a permanent structure, was rusted and stiff from the batterings of the weather and it took mechanics two days to get it into working order. It is expected Seabrooke who was found guilty of killing Paul Lavigne in a service station hold-up will take his last fatal walk some time before day-light.
Not since Hon. Thomas D'Arcy McGee, one of the Fathers of Confederation, was assassinated by a fanatic Irish patriot has capital punishment been inflicted in the capital city. Patrick James Whelan was hanged for the murder of the statesman and since then the old gallows has been without a victim.

Speaker Lauds Russian Plan

(Canadian Press)
HALIFAX, Jan. 9.—"I think we are foolish unless we keep our eyes on Russia, and study some of the ways the planned society there is working out, and be humble enough to take a lesson or two," said Professor King Gordon, son of "Ralph Connor" addressing the Canadian Club here today.
Professor Gordon visited Russia, a year ago, and he denied that visitors were taken around only to "show places" and shown only the most favorable aspects of life there. He had been absolutely unhampered.
Speaking of the general impression that in Russia individual initiative was discouraged, the speaker remarked that in place of this one found "definite controls directed toward the present and future welfare of the country."
Though Orthodox religious education was outlawed, it was not true that no religion existed in Russia. There is a dynamic religion in the country today," Professor Gordon said. "You need only watch the people at Lenin's tomb to see that."

*The Annual Meeting of Marshfield Presbyterian Congregation will be held in Church Thursday, January 19th at 8 P. M. 5779-1-10-31- *The Stanley Sporting Club will hold Annual Meeting at Stanley Garage, January 11th, 7.30. If stormy first fine night following. 7573-1-10-11
- *Coal—Car of Springhill Screened unloading Tuesday and Wednesday, January 11, 8 o'clock sharp. Admission 15c. If not fine, Thursday. 7597-1-10-21
- *The Annual Business Meeting of the New Glasgow United Church will be held in the Church, Wednesday evening, January 11th at 7.30 o'clock. 7594-1-10-21
