On Saturday evening, April 3rd, an entertainment was put on in Recreation Hall by Frank A. Brennan in connection with the long-awaited drawing of the lottery on the valuable guitar. Instrumental music and singing was featured before the highlight of the program, the drawing, took place. At Mr. Brennan's request the winning ticket was drawn from the hat by Charlie Trainor, President of the Student's Council. **Uncle William's
Ghost Story**

"Uncle William" Morrow was born at North Lake in the early part of last century. He was a strong, healthy young man when he met with a terrible accident, necessitating the ordeal of having a leg removed by an itinerant army surgeon, assisted by a local farmer. Neither chloroform nor ether was then known. Brandy was given the sufferer. To show that Uncle William had a "sound mind in a sound body" it is not necessary to record that when the limb was completely severed, he passed a local joke: "It was the last glass that did it." There were no hospitals nor trained nurses in those days, not at least on this Island but kind friends did all they could for him. He recovered and made an artificial limb which enabled him not only to walk but to do housework. He was a man making a good living as a farmer and writer, he was given the job of local postmaster. He was fond of children and was loved by old and young. He was a great hand to relate incidents and tell stories and we could rely on them as he was an honorable man in every way. We kids were

always interested in hearing him relate so clearly those old time incidents.

I shall never forget the dark night he told us the ghost story. There were a number of us boys in, and some grown persons. Some one mentioned about a ghost being seen some where "Pooh! said Uncle William, "I saw the woman ghost of Muns Road." We looked out and it was pitch dark! How were we to get home! But it would never do to go before the ghost story, for Uncle William would be offended and never tell us another story. So we had to trust to luck and good foot work to elude the claws of spooks or witches.

Mun's Road is a road that crosses the Island about 8 miles from the Point. In Uncle William's day it was a winter road mostly through a dense forest. It got reported that a female ghost had been seen standing by the wayside, and as a consequence, few travelled that way by night. Uncle William was coming home from Souris or some point on the South Shore and it being a cold night he decided to go by the sheltered road. "Pooh! said Uncle William, "I was a woman ghost, for no man or woman had anything against me." "But I kept a sharp lookout. When approaching the place where the object was seen, I was astonished to see the ghost sure enough! There she was by the road dressed in white!

Well to make sure, I got my whip and prepared to touch her as I passed. Here Uncle William picked up his cane and prepared to show us how he used the whip as he made a light strike at her, our hearts got into our throats and every hair on our heads pointed skyward. Horrors! striking a ghost! But the climax was reached. Uncle William's smile relieved the tension. Taking his pipe off the big Bible, he reached for a coal. "Pooh!" said he "that woman ghost was a big birch stump. Our courage revived we sped for home at a rate that may have broken all former records."
