BOWE—MacPHERSON—An attractive wedding took place at the Park Avenue Methodist parsonage, Somerville, Mass., on Wednesday evening, October 8, when Margaret E. MacPherson, daughter of Mrs. Thomas MacPherson, of Caledonia, Prince Edward Island, and George L. Bowe, eldest son of Andrew Bowe, of Boxville, Nova Scotia, were united in marriage in the presence of a number of friends. The ceremony was performed by the Rev. George E. Heath. The bride was attired in a dainty white crepe de chine dress, carrying a bouquet of white carnations and maiden-hair fern. Her bridesmaid, Lennie M. Balcom, wore a honey dew chiffon dress with a bouquet of pink carnations. The groom was attended by the brother of the bride, who acted as best man. A reception followed given at the home of friends where received. Mr. and Mrs. Bowe will reside at their home in Somerville.

BAPTIST CHURCH, Dundas at 11 a. m. and St. Peters at 3 p. m. Sunday, 26th Oct. C. E. Pineo, Pastor.

IN MEMORIAM

JOHN MCCAULL

At North Bedeque on the morning of Oct. 3rd inst., John McCaull, son of the late Henry McCaull, passed to his eternal rest. Mr. McCaull was ailing for the past seven or eight months until at last he became almost completely paralyzed. He bore his sickness with true Christian fortitude and never murmured nor complained. He was a member of the North Bedeque Presbyterian Church and a regular attendant at its services. He was a warm friend, a splendid neighbour. Kind and hospitable to all, and will be greatly missed in the home and community in which he lived. He leaves to mourn a sorrowing widow, Bina Cairns and two children, Norman Guy and Florence both at home, also three brothers and three sisters living. Artemas on the old home where his father settled in 1847, and Anthony at Ellerslie, Henry at Summerside. Mrs. Chas. McNevin, Ellerslie, Mrs. Fred Schurman of Calgary and Mrs. Mabon Stavert of Kelvin. The funeral of Mr. McCaull was held at 2 o'clock on Sunday, Oct. 5th and was very large. The service was conducted by Rev. H. Stavert of Hunter River, in the absence of the pastor, Rev. N. A. Whitman, assisted. The pall bearers were Ira Fraser, D. B. McDonald, W. H. Kelley, Erle McMurdo, A. Stavert and Jesse Schurman. Interment was at North Bedeque. We extend sympathy to the bereaved family and relatives.

CHURCH OF SCOTLAND — Rev. Ewen MacDougall will preach Saturday 25th, at Argyle Shore at 7 p. m. and Sabbath 26th at DeSable at 10.30; Cape Traverse at 2.30; and Summerside at 7 p. m.

PERSONALS
Mr. George Henderson, York, leaves Saturday for Boston.
Miss Alice B. Lamphie, is spending a few days at her old home at Pleasant Grove.

FOR BERMUDA—Mr. H. E. Outerbridge left on return to Hamilton, Bermuda, yesterday, taking with him a car of horses and a car of cattle and poultry. He has also loaded a schooner at Somers with produce which will sail shortly. Mr. Outerbridge has been visiting this province for the past forty years and on each trip makes large purchases for the Bermuda market.

VERNON CIRCUIT—Announcements for Sunday, Oct. 26th, Rally Day will be observed at Cherry Valley at 7 p. m. Splendid program of Pageants, solos, choruses, etc., and Miss Haslam who is travelling in the interests of the Bible Society will speak. Other services as usual.—E. A. Westmoreland, Pastor.

NORTH RIVER BAPTIST CHURCH—Services for Sunday, Oct. 26, as follows: Fairview at 11.00 a. m.; Clyde River at 3.00 p. m.; Long Creek at 7.30 p. m. Topic, "The Conflict of the Altar and the Grave". Preaching service at North River on Friday evening, Oct. 24, and a meeting at Fairview on Saturday evening. Commencing Sunday the Sunday School will meet at Kingston each week at 6.30 p. m., and a prayer meeting will be held fortnightly at 7.30 p. m.

The Guardian is pleased to learn that Miss Pearl Hardy, Pleasant Grove, is greatly improved in health.

Mr. and Mrs. Heath Vessey have returned to York, after a very pleasant visit to St. John, the guests of Mr. and Mrs. C. L. Bustin.

Miss Mabel MacDougall, returned yesterday to Worcester, Mass. after spending a pleasant holiday at her home, 321 Fitzroy St., and with friends in other parts of the Province who hope to see her return again in the near future. Miss MacDougall is one of our successful nurses in the U. S. A.

Canadian Apples For Folks and Friends In The Old Country

This year's Christmas for our folks and friends across the sea can be made happier by a small remembrance from Canada of a box of our Canadian Apples, hand picked and hand packed; their luster and taste tell of our beautiful Summer Climate. Your grocer can fill such an order. The Canadian National Express will transport and deliver by rapid express service including refrigerator storage on steamer to any station in Great Britain or Ireland from Montreal, Que., and Quebec, Que., up to November 15th and afterwards from Halifax, N. S. and St. John N. B., at a rate of THREE DOLLARS per standard box of apples not exceeding fifty pounds in weight. Consult any Canadian National Express Agent as to through express rate on your town. 292-10-23m Oct. 23, Nov. 15

POWER TRANSMISSION BY WIRELESS IN THE FUTURE, SAYS EDISON

NEW YORK, Oct. 22.—Thomas A. Edison has made his annual pilgrimage to the electrical show at the Grand Central Palace and visited all of the booths where devices made possible through his original discoveries and inventions with electricity are on display. It was just forty-five years ago that Mr. Edison invented the incandescent lamp, and this anniversary will be observed all over the country on Tuesday. As he viewed a collection of photographs showing the brilliant illumination of New York by night he remarked that the little Edison lamp had done a hundred times better than he thought it would do when he invented it.

Following his tour of inspection in which he took violet ray treatments, was massaged in the back by an apparatus that had a damp, seamy punch, and drank an electrically made cup of coffee, he expressed his gratification that electricity had at last reached the stage where it was capable of eliminating drudgery from the work of the home-maker, in this way bringing about a new emancipation for women and making the labors of servants more attractive.

Electric light and power transmission by wireless, he said, was surely coming in the future, but "there is no cause to believe that it is immediately at hand." He spoke of the tremendous advances in lighting, and with the scientific diffusion of light he declared the coming generations had a far better opportunity of enjoying normal eye health. He also praised the telephone system of the country, after viewing a telephone exchange demonstration and shaking hands with a group of pretty telephone operators, and declared that good telephone service was improving dispositions everywhere.

Cutting
A Scotch lawyer was well reproved when, seated by a lady fully aware of her own plain looks, having bowed to his hostess in a private box, "Honest Men and Bonnie Lassies," she rejoined, raising her own glass, "We may both drink that toast, since it refers to neither of us."

THAT CAR OF YOURS

BY HARRY E. PORTER

This is a series of articles pertaining to the maintenance and repair of your automobile. We will be glad to answer through this column questions regarding your car or its mechanism.

THE CARE OF YOUR CAR

The washing out of a radiator at this time, facilitates cooling, it also enables the owner to ascertain whether there are any leaks in the water tank, or hose connections. Scale will often cover a small leak, when vibrations will remove the scale and the leak will start.

Question—How can you tell when a Ford magneto is grounded?
K. L., New Perth

Answer—The only part of the Ford magneto that can ground is the field.

Concrete

(Continued From Page Ten)

"The highest monument to concrete's value is a great chimney in Japan, 15 feet higher than Washington Monument. It withstands frequent earthquakes. A Lorado Taft's towering statue, 'Black Hawk,' above Oregon, Illinois, is a true monument to concrete. The material is used for levees on the Mississippi. It is shot from guns for broad surfaces. Ships and barges have been made with it. Sky-scrapers find it a stout foundation. Farms alone use nearly one-fourth of the United States' cement for innumerable purposes. In 1914 it went into the front-line trenches, and much of it is still in the front-line trenches, to the sorrow of French farmers. But the most romantic incident of all occurred when the old British ships with cargoes of dry concrete sailed into the harbors of Zebrugga and Ostend and were sunk to make a concrete stopper to bottle up German submarines."

Hopes To Discover Secret Of Atomic Energy Very Soon

EASTON, Pa., Oct. 22.—Dr. Gerald L. Wendt, head of the department of physics and chemistry at the Pennsylvania State College, said here today that experiments he has already conducted give "reasonable grounds for the belief that he will be able to unlock atomic energy. Theoretically it is there but it is possible there may be something wrong with the theory." Dr. Wendt began his experiments when he was a member of the faculty of the University of Chicago. He resigned his position there to take one with the Standard Oil Company, and has, in turn, left his commercial employment to go to Pennsylvania state for the purpose of continuing his work in "radioactivity" to release the vast storehouse of power at present locked up in the infinitesimal atoms of which matter is known to be composed.

Dr. W. F. Hillebrand, chief chemist of the Bureau of Standards at Washington, and the discoverer of Helium, said that if Dr. Wendt were successful in his endeavors he would "unquestionably revolutionize life."

"At present it is possible to control the spontaneous disintegration of metals on an infinitesimal scale by means of the greatest forces at our command," Dr. Hillebrand said, "but the use of these forces is beyond the ability of most laboratories." "Assuming that Dr. Wendt could realize atomic energy, and do it cheaply," he said, "he would have found the source of all the heat and power that the world needs. But we must be able to get it cheaper than we can get coal and petroleum at present. It is possible today to operate a motor car with alcohol, but alcohol costs 75 cents a gallon, and gasoline is 15 cents. That, by the way, is one reason why we will never see 'dollar gasoline.'"

AUCTION SALE

ON MONDAY, OCTOBER 27TH, 1924

One of the most desirable properties in Charlottetown, No. 131 Water Street, known as "Harland House" consisting of one three story brick building, one of the finest in this city, in the best of condition from basement to attic (also a large barn). Smallest Book In World Is Located

VANCOUVER, B. C., Oct. 22.—What is possibly the smallest book in British Columbia is owned by Mrs. F. W. Crowther of this city. It measures three-quarters of an inch by half an inch and was printed in London by A. Schlofs, ations and enterprises. It is called the English Bijou Almanack and is "practically illustrated for, if atomic energy is found, I am inclined to think that the process will be a gradual one, rather than anything that has thus far been even imagined by the brain of man, and the discovery is not beyond the present trend of scientific thought."

DOUBLE DOLLAR DAYS FRIDAY AND SATURDAY

OCTOBER 24th AND 25th AT ALLEY & COMPANY'S

We have selected fashionable shoes from every department and place them on sale for the above two days. We mention just a few to give you an idea what we are doing.
