BECAME ALARMED.

Dundas Farmer Up in Time to Save His Life.

Donald George Ross, a farmer, near Dundas, was travelling down the road that leads to misery and death. For three years he had been on that road, slowly but surely making his way to the certain goal. Donald Ross had Dyspepsia. For three years his head had ached and his nerves had been racked because his stomach was weak and could not digest his food. And the less nourishment he got from his food the weaker his stomach as well as the rest of his body became, because the stomach receives its strength from the food we eat like every other organ and member. However, Mr. Ross did not finish his journey on that road. He pulled up in time. He cured his Dyspepsia—Dodd's Dyspepsia Tablets were the means of actually saving his life, for Mr. Ross himself says that nothing else would have cured him. Perhaps his own letter will state the case better than anything else.

"For about three years" he writes, "I have been troubled with Headaches and Nervousness caused by Dyspepsia. I could not get any relief. Doctors told me that I had a very bad case and that I would never get cured. I became alarmed and consulted one of the best doctors in Hamilton, but no use. I could get no help. Then I heard about Dodd's Dyspepsia Tablets. I tried them. I found them all they are claimed to be. They gave me a complete cure. I can highly recommend Dodd's Dyspepsia Tablets to any one troubled as I was."

If you have Dyspepsia try Dodd's Dyspepsia Tablets. They are only fifty cents a box. They will surely help you.
