MR. HERMAN DYING OF STONE IN THE BLADDER

Gin Pills passed the Stone

513 James St., Hamilton. "Four years ago I was taken down with what the doctors called a stone in the bladder. I was in pain, back and loins, great pain and difficulty in urinating. The pain was greatest in the region of the bladder, and the attacks, which became more frequent, amounted to unbearable agony, and I became so weak that I could not get up from the floor. Doctors could do nothing to help me. My wife read in the paper about Gin Pills and sent for a box. From the very first I felt that Gin Pills were doing me good. The pain was relieved at once, and the attacks were less frequent. In six weeks the stone in the bladder came away and the pain stopped entirely. I have had no return of the trouble and have not lost a day's work on account of it. I cannot express myself strong enough when I speak of what Gin Pills have done for me. When I remember how I suffered, and how now I am healthy and well and strong and able to do a full day's work, I feel I should speak and tell other sufferers of my experience and of the wonderful merits of Gin Pills."

JOHN HERMAN

HOW TO MAKE BABY SLEEP

The baby that cries half the night does not cry for nothing. It cries because it is not well, and has no other means of saying so. The chances are the trouble is due to some upsetting of the stomach or bowels, which would be speedily removed if the child were given a dose of Baby's Own Tablets. These Tablets make children sleep soundly and naturally because they remove the cause of the crossness and wakefulness. They are a blessing to children and a relief to worried mothers. Mrs. John Pickles, Douglastown, N. B., says: "If anything ails my little ones the first thing I give them is a dose of Baby's Own Tablets and they are soon well again." Sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

The new Chancery Act 1910 and the Trustee Act 1910 which were passed at the recent session of the Legislature created quite a needed reform in some of the different procedures in Chancery cases. The revisions made operate as a distinct convenience to the legal profession, allowing them to advise with much more certainty than formerly and act so that the suitors are now benefited by proceedings more equitable and of a shorter duration than formerly. Statutes, thirty-eight in number, relating to jurisdiction, partition, evidence, administration, trustees, executors, in infancy and lunacy, in junctions, mortgages, and other matters, have been consolidated into one act, as first stated. The most important changes are: sales of land in administration, partition, lunacy, and infancy, now being made under like proceedings; the prevention of the blocking of suits by persons holding a lien on a suit; certain steps taken in declaring the meaning of a will; executors released from the former risk of paying debts of deceased and of being responsible for unjust claims; the business of equal significance. The business of equal significance has rapidly increased in past years and at the present time a great deal of the practice of attorneys in this province is confined to the Chancery Court. The new rules and orders come into force at once having been signed by the Chief Justice and the Master of the Rolls and vice Chancery.

Special from Guardian Branch. SUMMERSIDE, April 13.—The Seed Fair Committee held a meeting in Summerside on Saturday last. The report of the Secretary, which was given in detail, was considered most satisfactory. The number of entries were 922, a decrease of 58 over last year. Although there was a falling off in the no. of entries, potatoes and oats, due to the fact that several kinds (considered undesirable to encourage) were cut out of this year's prize list. The cash prizes were larger than any previous year. The citizens of Summerside contributed \$137.50 being an increase of \$13.00 over last year. The Farmers' Institute contributed \$75.00 being an increase of \$38.00 over last year. The cash prizes paid in the Seed department amounted to \$322.45, the special cash prizes to \$16.75 and in the Household Science department \$123.09 was paid. \$62.62 of the \$129.09 was paid to Summerside ladies, the balance \$66.47 went to ladies in other parts of the Province. Although the expenses were large, the committee is pleased to the fact that two buildings (besides rent for St. Paul's hall for Educational meetings) had to be lighted, heated and otherwise cared for, there is a small balance for the benefit of the fair next year. The Secretary was instructed to collect contributions until the Provincial Seed Fair by the Secretary, D. I. Fowler. By his untiring energy and enthusiasm the fair has been built up and his carefulness in looking after the details has contributed largely to the success of the fair. Resolutions were also passed upon record our appreciation of the work of the President, Rev. Dr. Gauthier, for the deep interest he has taken and the great enthusiasm he has shown in connection with the fair. The Council also spent some time with the recommendations for the fair next year, which is to be passed on to the Committee who will be appointed by the Prince County Institute to manage the Fair of 1911. First—That an effort be made to secure an additional hundred dollars to be added to the prize list. Second—That the department award an increase of 25 cents to top prize. Third—That all first prize grain and seeds become the property of the management and sold at auction, as was the first fifteen in this year's list. Third—That the quantity of seeds for sale by Exhibitors be increased one hundred per cent. Fourth—That the prize lists be printed in time to distribute at the fall fairs.
