MUNICIPAL TELEPHONES

A recent article in the Municipal Journal and Engineer deals with the distribution of telephones about the world and the development of municipal telephones in Great Britain and on the Continent of Europe.

entire world. Luxembourg has one telephone to every 160; Switzerland 173, Denmark 211, and the United Kingdom 636.

The extraordinary development of the telephone in Sweden is brought about by state ownership and a graduated right of use. We, in this country, are accustomed to unlimited use of the telephone, in which every subscriber has the right to call any and every other whose name is on the exchange list, at any time during the working hours of the system.

You cannot avoid disease if you neglect to regulate the bowels and allow the liver and kidneys to become torpid, sluggish and inactive.

Mr. Geo. Benner, Warton, Ont. writes: "I don't like to have my name put in public print, but I feel it a duty to my fellow-men to recommend Dr. Chase's Kidney-Liver Pills."

More people use Dr. Chase's Kidney-Liver Pills than any other Canadian medicine. They are popular because they cure when other remedies fail.
