

A QUEBEC PAPER'S CANDID OPINION

L'Evenement Tells of the "Injustice and Fatal Isolation" into Which Laurier is Dragging Quebec at Dictation of Nationalists.

L'Evenement newspaper of Quebec says: "We stated yesterday that there were not more than a dozen frank Laurier candidates, and this within ten days of nomination, outside of the French-Canadian counts, and we affirm today that Sir Wilfrid will not have more than twenty-five of his old friends to defend his policy in the English-speaking provinces, and in a few days events will prove that we have been all along in the right. In the meantime one wants to form an idea of the complete disorganization which has fallen upon the Opposition party, we have to take a glance at the long list of Anglo-Canadian Liberal newspapers who are openly condemning the long, heavy and sad manifesto which the Rouge leader has inflicted upon us. Here they are: Halifax Chronicle, the St. John Telegraph, the St. John Globe, the Toronto Star, the Toronto Globe, the Hamilton Times, the Manitoba Free Press, the

KERENSKY'S ARMY ENTERS PETROGRAD

(Canadian Press Despatch) STOCKHOLM, Nov. 14.—Premier Kerensky has entered Petrograd, according to a despatch received from the correspondent of the Swedish News Agency at Haparanda, on the Russian border. According to these advices which were received in a cablegram filed at Stockholm at four o'clock yesterday afternoon, Premier Kerensky defeated the Bolsheviks at Tsarskoe Selo. The cossacks are reported to have destroyed the Red Guard. The telegraph lines are now in M. Kerensky's hands, the telegram bureau reports.

JAPANESE ARMY BEING MOBILIZED

(Canadian Press Despatch) TOKYO, Nov. 14.—Mobilization and possible utilization of the Japanese army is being increasingly considered as a result of Russia's collapse. Tokio press today maintained that the situation of the Allies was dark, agreeing that Russia from now on must be considered a minus quantity in military value, although unanimous in believing a separate peace

VICTORY LOAN HEADQUARTERS

A representative of the Guardian visited the headquarters of the Victory Loan yesterday and was agreeably surprised at the interest that is being taken by citizens generally, in Canada's great financial undertaking. Visitors were asking as to the progress of the subscriptions and expressed unfeigned pleasure at the success so far recorded; prospective subscribers were negotiating for bonds, many of them for considerable amounts and the whole atmosphere of the office spelled enthusiasm and activity. That the Province will take up the estimated allotment and even exceed it is anticipated by many.

LLOYD GEORGE SCORES LACK OF UNITY

No One to Blame for Wavering Policy and Lack of Concentration—Time Apparently of Secondary Importance.

PARIS, Nov. 13.—"A single front, a single army, a single nation—that is the programme requisite for future victory," said Premier Painleve at a luncheon today in honor of David Lloyd George, the British Premier who has just returned from the Italian war zone, and Signor Barenini, Italian Minister of Education.

WESTERN VETERANS GREAT WORKMEN.

Men Trained in M.H.C. Vocational Schools in Great Demand Among Employers.

In "J" Unit of the Military Hospitals Commission Command, out in British Columbia where fiction writers send all the black sheep to work out their salvation, the records of the vocational training schools for returned soldiers, run under the direction of the Commission to fit the disabled men to return to profitable work, show that only 12 out of the 1,500 men who have passed through the schools in the unit have failed to make good, and of those five failed because of the recurrence of their disabilities.

Shop Slogan.

The slogan of the schools posted in every shop reads: "The best way to kill time is to work it to death," and it seems that every man goes out with it pasted in his hat.

The greatest victory over prejudice which has come to the notice of the vocational officers concerns an employer of a large number of men in the province who took fourteen returned soldiers into his shop with acknowledged misgivings, but willing for patriotic purposes to give them a trial. They made good to the man's first choice on all occasions now, and he even goes so far as to say that he might post up a notice, "None but returned men need apply."

Province Will Profit.

Reports from Nanaimo, Prince Rupert, Victoria, and all the smaller British Columbia cities and mining districts are in the same strain, and there is growing evidence in every section that the province which turned her wealth of brains so generously to the service of the country, will reap a great reward in a returning army of skilled artisans to take the place of a great number of unskilled laborers.

ENGLAND'S PART IN THE WAR.

Those who have watched the record of British casualties in the war do not need to be told that England is doing her full share in the trenches. The generous praise given to the Canadian, Australian and New Zealand troops in the despatches from the front has helped spread the impression in some quarters—sedulously assisted by German propaganda—that the troops from the British dominions are doing all the fighting.

It is highly creditable for the British commanders to emphasize the magnificent part that is being played by the Dominion troops, but in doing this they did not consider the interpretation that would be placed on their despatches by those who would deny the English the possession or ordinary human courage. German newspapers in their accounts for home consumption of actions on the Western front, do not question the importance of the part played by British troops. The Lokalanzeiger, reviving the fighting on the Western front recently, said of the English soldiers: "Anybody who sees the bitterness with which he fights, the sacrifices which he makes in blood and money, and who knows the character of the English, knows with what iron toughness he holds to his ideas." It is only when the Germans desire to stir strife among the allies that they belittle the Englishman's fighting qualities.—Rochester Democrat-Chronicle.

No One to Blame.

"National and professional traditions of prestige and susceptibilities all conspired to render our best decisions vain. No one in particular bore the blame. The guilt was in the natural difficulty of obtaining of so many nations, of so many independent organizations, that they should amalgamate all their individual particularisms to act together as they were hit as one people."

Mr. Lloyd George later said: "I have spoken today with a frankness that is perhaps brutal, at the risk of being ill understood here and elsewhere, and not perhaps without risk of giving a temporary encouragement to the enemy, because now that

WHY BUY A WAR BOND?

BY SIR EDWARD OSLER.

For patriotic reasons—You have the money; your country wants to borrow it from you to help win the war. From purely selfish reasons—it is a very wise thing to do. You get a high rate of interest and perfect security. In my opinion, in buying a War Bond you get absolute security, a splendid investment, and full interest. With the greater confidence I can recommend you to buy War Bonds.

ITALIAN ARMIES ON NORTHERN FRONT WITHDRAWN.

(Canadian Press Despatch)

ROME, Nov. 14.—A withdrawal of the Italian forces in the north, in the region east of Asiago, is announced by the War Office. On the lower Piave river, the attack continues on the Germans who yesterday effected a crossing near Zenson. The statement says the enemy has not yet been dislodged completely. An attempt of the enemy to cross the Piave between Quero and Fenere was suppressed. The enemy suffered severely. Small detachments of the enemy have succeeded in crossing the Piave near the coast. The statement says that at Griscione, four miles from the mouth of the River, groups of the enemy filtered through into the marshy region between the Piave and the Vachia, where they are being held. Only severe artillery fighting continues along the river following the Italian withdrawal to a new line of resistance east of Asiago. GERMAN TREACHERY AGAIN EXPOSED.

(Canadian Press Despatch)

ALLENSTOWN, Pa., Nov. 13.—That Germany had laid in a store of twelve and one half million rifles alone in preparation for the European war, which she precipitated in 1911, whereas the sum total of all the Allies guns was only a fourth as great, was the declaration of Dr. Talcott Williams, of New York to a meeting of United States Ambulance Service men at a dinner in this city tonight.

INTER-ALLIED COUNCIL WILL HAVE NO EXECUTIVE POWER.

(Canadian Press Despatch)

LONDON, Nov. 14.—Premier Lloyd George explained to the House of Commons today that the inter-Allied Councils of establishment of which was arranged for at the recent conference by British-French and Italian representatives, would have no executive power. He said final decision in regard to matters of strategy and the distribution and movement of armies would rest with the several governments of the Allies.

SUPERIOR WAR COUNCIL.

(Canadian Press Despatch)

PARIS, November 14.—The new inter-Allied War Committee was characterized as "A Superior War Council" in a declaration read by Premier Painleve in both the Senate and the Chamber of Deputies today. "We do not doubt that the United States, whose troops have been summoned to fight upon this front, will give their adhesion to this council," he said. "Negotiations concerning the other fronts will ultimately be carried on with Russia and Japan." The object of the council is not to direct details of military operations, but to define the general plans of the Allies adopting them to the resources and means at their disposal so as to assure the strongest results possible.

PREMIER LLOYD GEORGE RETURNED TO LONDON

(Canadian Press Despatch) LONDON, November 14.—David Lloyd George, the British Premier, has returned from the continent, where he has been in attendance upon the inter-Allied Conference. Mr. Lloyd George was accompanied by Ellutherios Venizelos, the Greek Premier.

LOCATING SUBMARINES REDUCED TO SCIENCE

(Canadian Press Despatch) WASHINGTON, November 14.—Important progress has been made in the problem of locating submarines, after which their destruction is a comparatively simple matter. Secretary Daniels said today in a statement discussing the 40,000 separate suggestions, plans or models of devices submitted to the Naval Consulting Board since the war against Germany. "The idea that the submarine will be overcome by a miraculous invention is not now seriously considered," the Secretary said.
