Serious Condition Face Young People

CLARKSON, Ont., April 23.—(C.P.)—P. G. Mitchell, Toronto township councillor, today said he would rather see infants killed at birth than raised and educated and then turned out to wander along the highways because there is no place in life for them.

"Something has to be done," Councillor Mitchell said, in calling attention to the conditions in his municipality. "All we are doing is creating an army of bums. We have had about 80,000 graduated from our high schools in Ontario during the past four or five years. We send them to school to acquire that education and when they have it, what good is it?"

"Year after year students graduate. Perhaps a member of Parliament hands them some taffy at commencement and gives them a diploma. The day after, they have nothing. I would rather have the babies knocked on the head at birth than see them turned out to wander after teaching them to feel and suffer," he stated.

"They come into my cornfield at night, girls and boys, and tear up corn to cover them, and sleep in the fields. I have hired girls who were walking the highways, to hoe corn. Nobody cares about the girls. Councillor Mitchell said his farm was on the highway, and during each year of the depression he had seen hundreds of young men and women walking along the road, searching almost hopelessly for something to do.

He had made a suggestion to Hon. David A. Crook, Ontario Minister of Welfare, the Councillor said, that a department be established at an initial cost of about \$20,000 to get in touch with people between the ages of 18 and 23, find out what kind of work they were suited for, file their qualifications and try to find work for them by keeping in touch with the employers.

National Anthem Has New Version

NANAIMO, B.C., April 23.—(C.P.)—It was a Co-Operative Commonwealth Federation rally and the meeting opened to the strains of "O Canada." The tune was the same and the lyrics were the same, but something was missing. The something was the words. Someone had altered the official version and the enthusiastic supporters of J. S. Taylor, C.C.F. candidate for Nanaimo in the forthcoming Dominion elections, sang lustily.

"O Canada, our home, our native land. In thy defence united now we stand; Thy sons and daughters far and near. Are suffering and distressed; For usury has taken all. And they are dispossessed. We will arise! We will be free! No more to Mammon will we bend the knee; O Canada we stand on guard for thee."

John Buchan Shows Place Of King In British Scheme

(By Central Press Canadian) TORONTO, April 23.—Though royal blood courses through his veins, though he represents the topmost pinnacle of British aristocracy, though he be monarch of the greatest empire in history, King George V has no class. He is as much a laborer as he is lord; he is above all classes.

Such is the King to John Buchan, famous Scottish author and biographer, and Canada's governor-general designate, who has written a monumental work, "The King's Grace" (Mussion) in which he reviews the 25 year period of the reign of King George, from May 6, 1910 to May 6, 1935.

Mr. Buchan describes this period as the most momentous, the most significant in history. Throughout "The King's Grace," he uses the events of the past quarter century as a background to show the character and true worth of the King and the royal family.

He shows that throughout five and twenty years of change, through war, through social upheaval, through industrial instability, through economic chaos, one thing has endured, the King's grace, beneficent, guiding, inspiring, healing, uniting.

Regard King Differently

The author traces all these changes from the time of King George's ascension to the throne, the tremendous conquests of science, the annihilation of distance by rail, and by aeroplane, the spread of education, the uniting of labor, the enfranchisement and freedom of women—these are things of which John Buchan writes. And he weaves through them all that vein of kinship and shows that British people regard their King in a manner different to any other people.

"The inherent and accumulated majesty of the English throne has increased. It is not only higher than any other human estate, but of a different kind from any other. For it is the mystical, indivisible centre of national unity."

It is the point around which coheres the nation's sense of a continuing personality. In any deep stirring of heart the people turn from the mechanism of government, which is their own handwork and their servant, to that ancient abiding thing behind governments

Quint Toothies Still Big News

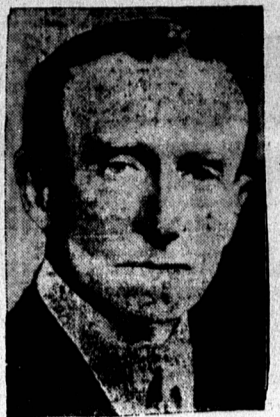

NORTH BAY, Ont., April 23.—(C.P.)—When five little babies are born all at one time, the blessed event creates interest even in most desolate lands. It was revealed here by Dr. M. Belec of Cameron Bay, 1,200 miles north of Edmonton. Mr. Belec, here visiting his brother, Dr. A. Belec, told of the enthusiasm among the news of the birth of the Dionne quintuplets, the south end of Great Bear Lake in the North West Territories, 850 miles from the nearest railway.

Choosing Fertilizers

This is the time of year when farmers are purchasing or considering the purchasing of fertilizers for the various farm crops. Until quite recently, farmers who had not made a study of fertilizers usually depended upon the local fertilizer agent to advise them as to the particular analysis they should use, and unfortunately the advice from this source was not always in the farmer's best interest.

which they feel to be the symbol of their past achievement and their future hope."

A Silver Jubilee Book

In the pages in which he reviews the great war, the author rises to 1925 heights. Seemingly is King George forgotten; the colossal struggle in which the combatants "pit against each other the sum total of their physical endurance, national resources and moral vigor."

But when the armistice is signed, when the nations return to their homes and the task of rebuilding, the King remains; always he seems to be a power in the background, intangible, yet which emanates from the throne to the farthest corners of the empire.

"The King's Grace" is not a biography; it is a silver jubilee book. It was written for the occasion of the King's ascension to the throne. It is a masterpiece of historical condensation. Yet it reveals, as perhaps no real biography could, a King in the hearts of his people; it shows the man and the significance of his tribute to a monarch on his silver jubilee, but also as a tribute to its author, the man soon to be this monarch's representative in Canada.

FARM CREDIT ACT BRINGS NEW HOPE

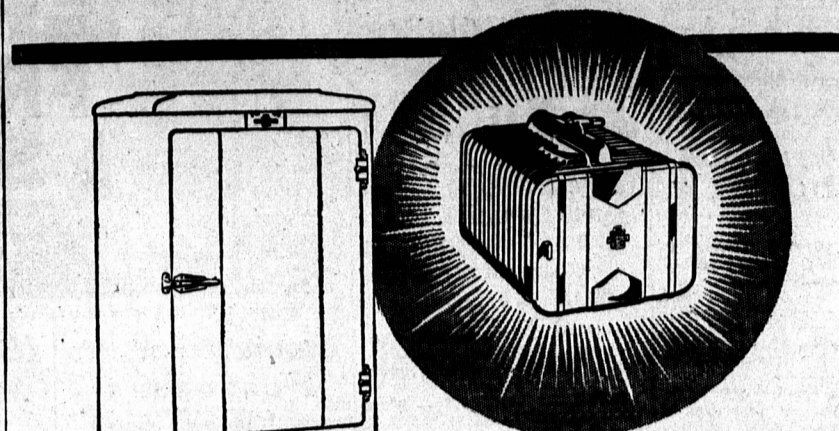

CALGARY, April 23.—(C.P.)—More than \$200,000 has been lopped off debts of Alberta farmers, states officials of the board, settling up under the board's Farmers Creditors' Arrangement act. Of this amount, more than \$76,000 vanished under the board's supervision, the remainder coming from amicable settlements between farmers and creditors themselves.

There has been no let-up in applications for new or further adjustments, officials of the board state. One of the outstanding acts of the board was in removing \$28,000 from the debt of a big-scale farmer. By lowering interest rates, settling some of the debt through crop payments and extension of other payments, the farmer's debt was scaled down from \$88,000 to \$60,000. Creditors, in this case, took back a section and one-quarter of land, clearing \$25,000 of the debt with a single stroke. Further aid came from implement companies that chopped \$1,000 of the bill.

Now the farmer figure, he can make ends meet. He still has 800 acres to farm but the reduced interest, the new crop payment plan and a tax agreement with the mortgage company have given him new hope.

The value of cut flowers sold in Canada during the year ended May 31, 1934, was \$876,208. This amount represents 92 percent of the total value of Canada's floricultural and decorative plant production, which includes outdoor roses, outdoor trees, shrubs, plants (outdoor and indoor), and flowering bulbs.

Canada Jam Marketing Scheme

The Canada Jam Marketing Scheme which primarily affects the provinces of British Columbia, Ontario and Quebec, has been approved by Hon. Robert Weltsch, Dominion Minister of Agriculture and the Governor-in-Council upon the recommendation of the Dominion Marketing Board.

The scheme has the support of manufacturers representing at least 80 per cent of the volume of jams, jellies and marmalades produced in Canada. No opposition has been advanced by any fruit growers.

Under the scheme it is anticipated that the demoralized conditions which prevailed in the marketing of jam, jellies and marmalades during the past several years will be corrected. These conditions which have existed have reacted to the disadvantage of jam manufacturers, fruit growers and consumers. It is expected that under the new regu-

lations the quality of the jam, which will be offered for sale, will be improved. The local Board, composed of fourteen members, namely, nine manufacturers, three growers, one consumer representative, appointed by the Trades and Labor Congress of Canada, and a Chairman who has no financial interest in the jam business is as follows: Joseph T. Crowder, Toronto, Chairman, Chas. D. Hunter, Vancouver, T. E. Shines, Haldie, P. G. Prior, Toronto, G. H. Gausby, Hamilton, Armand Smith, Winona, A. Limoges, Montreal, S. Preston, Montreal, P. Gelly, Quebec, Howard Craze, representing producers in B. C., L. F. Burrows, representing producers in Quebec, M. M. Robinson, representing producers in Ontario, James Simpson, Mayor of Toronto, representing the consumers. The head office of the Local Board will be in Toronto.

MILBURN'S HEALTH AND NERVE PILLS

BY GEORGE MCMANUS

Our proposition this Spring on fertilizer is we are offering you your choice of the two best mixtures known to us, the Island Fertilizer Co. Ltd. Brand, and the Albatros Brand imported from Holland.

Our prices are exactly the same as other Charlottetown dealers, and the same as if you purchased direct from the plant of the Island Fertilizer Company Ltd. We are only interested in selling Fertilizer to the farmers who can haul same from Charlottetown. We have been handling your Potatoes and Turnips, and with the low prices our margin of profit is not as great as our handling charge. Why not buy your Fertilizer from us? Get our terms before buying elsewhere.

We will accept starting Saturday, April 20th, Potatoes, Tablestock variety at market price at the railway wharf shed, from parties who still owe us for their 1934 crop mortgages.
